As Herbie Hancock noted in his endorsement, "Garrison Fewell has written a brilliant reflection on creativity and spirituality, delving into the deep relationship between these two subjects that spark the explorations of many pioneers in avant-garde jazz music. The level of detail here is so compelling that it encourages much more than just a single reading of this book."

The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural, archaeological, cultural, and historical works, as well as the travelogues and naturalists' sketches of the area in prior to the twentieth century, making it accessible for scholars and the general public alike. The definitive monograph on contemporary African American painter Kerry James Marshall, accompanying a major traveling retrospective. This long-awaited volume celebrates the work of Kerry James Marshall, one of America's greatest living painters. Born before the passage of the Civil Rights Act, in Birmingham, Alabama, and witness to the Watts riots in 1965, Marshall has long been an inspired and imaginative chronicler of the African American experience. Best known for large-scale interiors, landscapes, and portraits featuring powerful black figures, Marshall explores narratives of African American history from slave ships to the present and draws upon his deep knowledge of art history from the Renaissance to twentieth-century abstraction, as well as other sources such as the comic book and the muralist tradition. With luscious color and brushstrokes and highly detailed patterning, his direct and intimate scenes of black middle-class life conjure a wide range of emotions, resulting in powerful paintings that confront the position of African Americans throughout American history. Richly illustrated, this monumental book features essays by noted curators as well as the

artist, and more than 100 paintings from throughout the artist's career arranged thematically by subject: history painting; beauty, as expressed through the nude, portraiture, and self-portraiture; landscape; religion; and the politics of black nationalism.

As jazz enters its second century it is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

In this beautiful book, Pulitzer Prize-winning musician and composer Wynton Marsalis draws upon lessons he's learned from a lifetime in jazz—lessons that can help us all move to higher ground. With wit and candor he demystifies the music that is the birthright of every American and demonstrates how a real understanding of the central idea of jazz—the unique balance between self-expression and sacrifice for the common good exemplified on the bandstand—can enrich every aspect of our lives, from the bedroom to the boardroom, from the schoolroom to City Hall. Along the way, Marsalis helps us understand the life-changing message of the blues, reveals secrets about playing—and listening—and passes on wisdom he has gleaned from working with three generations of great musicians. Illuminating and inspiring, *Moving to Higher Ground* is a master class on jazz and life, conducted by a brilliant American artist.
