Packed with 65 sample cases covering all core topics, Ophthalmology Oral Board Review is an image-based case review designed to help you prepare—and succeed—on the American Board of Ophthalmology oral board certification exam. Regardless of your level of experience, the book features simple tools, advice, and tactics to become more organized, assertive, and confident in delivering case presentations.

[Mayo Clinic Neurology Board Review](#) Springer Publishing Company

Covers the most frequently asked and tested points on the pediatric board exam. Each chapter offers a quick review of specific diseases and conditions clinicians need to know during the patient encounter. Easy-to-use and comprehensive, clinicians will find this guide to be the ideal final resource needed before taking the pediatric board exam.

[Occupational Therapy Practice Framework: Domain and Process](#) Lippincott Williams & Wilkins

Neurology Board Review: Questions and Answers is an easy to read guide that was created to prepare the reader for the American Board of Psychiatry and Neurology (ABPN) certification and recertification exams. It was specifically designed to cover the topics listed in the ABPN content

outline, which should be used in tandem with this book, and includes questions about recent practice parameters published by the American Academy of Neurology. Formatted in a user-friendly way, utilizing case-based and multiple choice questions, this book promotes absorption of key facts and neurological concepts quickly and on-the-go. This authoritative resource provides an in-depth look at basic neuroscience, critical care and trauma, cerebrovascular diseases, movement disorders, neuromuscular diseases, psychiatry, behavioral neurology, clinical neurophysiology, headaches and pain, metabolic disorders, pediatric neurology and sleep disorders. With over 1,000 questions, Neurology Board Review illustrates key concepts using short and pithy explanations; including informative illustrations, descriptive tables, and a list of further readings at the end of each section. This is the perfect study aid for residents and neurologists alike.

As occupational therapy celebrates its centennial in 2017, attention returns to the profession's founding belief in the value of therapeutic occupations as a way to remediate illness and maintain health. The founders emphasized the importance of establishing a therapeutic relationship with each client and designing an intervention plan based on the knowledge about a client's context and environment, values, goals, and needs. Using today's lexicon, the profession's founders proposed a vision for the profession that was occupation based, client centered, and evidence based--the vision articulated in the third edition of the Occupational Therapy Practice Framework: Domain and Process. The Framework is a must-have official document from the American Occupational Therapy Association. Intended for occupational therapy practitioners and students, other health care professionals, educators, researchers, payers, and consumers, the Framework summarizes the interrelated constructs that describe occupational therapy practice. In addition to the creation of a new preface to set the tone for the work, this new edition includes the following highlights: a redefinition of the overarching statement describing occupational therapy's domain; a new definition of clients that includes persons, groups, and populations; further delineation of the profession's relationship to organizations; inclusion of activity demands as part of the process; and even more up-to-date analysis and guidance for today's occupational therapy practitioners. Achieving health, well-being, and participation in life through engagement in occupation is the overarching statement that describes the domain and process of occupational therapy in the fullest sense. The Framework can provide the structure and guidance that practitioners can use to meet this important goal.

The 3rd Volume of our Self Assessment Questions & Answers series provides you with a case scenario followed by a series of question. In the answer section we provide the case scenario in highlighted format with margin notes indicating the significance of the highlighted material. This illustrates a systematic approach to case scenarios with a proven track record. This is followed by the correct answers and a narrative explanation for these answers. We are confident that this additional volume of questions and answers will be a useful additional tool that can be used with our main text and other companion titles. Among the many features are: * Over 125 detailed Clinical Case Scenarios with 2-3 questions each as they would likely appear on your exam! * We provide you with a proven system to break down each vignette systematically to avoid the diversions inherent within. * Our Answer section contains several icon signposts indicating the significance of the highlighted material.

While adapting the unique approach study methods in the groundbreaking Laughing Your Way yo Passing the Pediatric Boards our latest title will provide you with the core material necessary to pass the General Pediatric Recertification exam. We are confident that our latest publication Surfing Your Way to Pediatric Recertification will not only simplify the studying process but will make it a fun and exciting learning experience as well by making it possible to: Reduce study and review time by using humorous mnemonics based on the material itself. Focus on high yield details rather than distracting details. Focus on the unique details between similar disorders which allow you to spot the correct answers easily, removing risky guessing. Use Mnemonics that work because they are funny and related to the material. Not only will the material be easy to remember, you will find it impossible to forget the important details to pass this exam. Passing the exam is a specialized skill that requires you to know the material in a specific way that is outlined in our series. Part of this process is knowing intricate details of the material and being able to recall it. Special Note: This title is largely based after our Laughing Your Way to Passing the Pediatric Boards 2nd Edition with slight revisions and material added specifically for passing the Recertification exam.

Learn the best time to do everything -- from drink your coffee to have sex or go for a run -- according to your body's chronotype. Most advice centers on what to do, or how to do it, and ignores the when of success. But exciting new research proves there is a right time to do just about everything, based on our biology and hormones. As Dr. Michael Breus proves in The Power Of When, working with your body's inner clock for maximum health, happiness, and productivity is easy, exciting, and fun. The Power Of When presents a groundbreaking program for getting back in sync with your natural rhythm by making minor changes to your daily routine. After you've taken Dr. Breus's comprehensive Bio-Time Quiz to figure out your chronotype (are you a Bear, Lion, Dolphin or Wolf?), you'll find out the best time to do over 50 different activities. Featuring a foreword by Mehmet C. Oz, MD, and packed with fascinating facts, fun personality quizzes, and easy-to-follow guidelines, The Power Of When is the ultimate "lifhack" to help you achieve your goals.

Pediatrics Board Review is a concise yet thorough review of pediatrics for pediatricians taking the pediatric board certification exam or recertification exam. This text is an outline-format, fact-filed, user-friendly review filled with exam-taking pearls to adequately prepare the exam-taker. Each year 200 new pediatric residents take the pediatric board exam and currently there is only one pediatric board review text on the market. The American Board of Pediatrics recently changed the requirements for the pediatric recertification process. Now, all board-certified pediatricians (roughly 70,000) need to take a closed- book exam once every 7 years (that means around 10,000 pediatricians a year will take the test). Therefore, they will need a review text.

Laugh with the Moon is on the Texas Bluebonnet Award Master List. Thirteen-year-old Clare Silver is stuck. Stuck in denial about her mother's recent death. Stuck in the African jungle for sixty-four days without phone reception. Stuck with her father, a doctor who seems able to heal everyone but Clare. Clare feels like a fish out of water at Mzanga Full Primary School, where she must learn a new language. Soon, though, she becomes immersed in her new surroundings and impressed with her fellow students, who are crowded into a tiny space, working on the floor among roosters and centipedes. When Clare's new friends take her on an outing to see the country, the trip goes horribly wrong, and Clare must face another heartbreak head-on. Only an orphan named Memory, who knows about love and loss, can teach Clare how to laugh with the moon. Told from an American girl's perspective, this story about how death teaches us to live and how love endures through our memories will capture the hearts of readers everywhere. *PEDIATRICS BOARD REVIEW* Little, Brown Spark
