Explore the benefits of a mindful approach to life Cutting-edge studies in neuroscience have in recent years proved what many doctors, therapists and other health professionals had long suspected: simple, repetitive tasks, performed with focus and attention - mindfulness, in other words - can not only quieten our noisy

thought processes and help us relax but also improve our outlook on life and protect us against a range of life-threatening illnesses. A cognitive neuroscientist and a leading authority on mental performance, Stan Rodski sets out the science behind these remarkable discoveries in simple terms, and explains how you in turn can benefit from them. As well as examining the potentially pivotal role of mindfulness in alleviating stress and managing energy, Stan highlights the most effective mindfulness activities, guides you through quick and easy exercises, and shows you how to harness the power of mindfulness over the long term to forge mental and physical resilience - and create a happier, healthier, more compelling future.

Big Ideas to Live Your Best Life New Harbinger Publications

"Release any concerns that you have about this path you're about to walk on, and just go into it with the curiosity of a child, knowing that you'll come out on the other side as a new person, or to be more accurate, far more of the person who you truly are and have been created to be." Jack Valentine seemed to have it all. He made good money as an adman, and looked good doing it. He had a hot apartment, cool friends, even a slick car—at least until the hectic Monday morning a truck smashed into it, sending the critically injured Jack to the hospital. Everything happens for a reason, though, and Jack's reason reveals itself in the silver-haired cancer patient who becomes his roommate one evening. The elderly man, Cal, shares his life story—one not dissimilar to Jack's—of material wealth masking a gaping hole within. Cal ultimately found salvation through philosophy ("the love of wisdom"), and now offers to help Jack by prepping the younger man for the Final Questions we all must face: Have I lived wisely? Have I loved well? Have I served greatly? Presenting Jack with three plane tickets, each accompanied by a map marked with a red X, Cal sends Jack to meet with three great teachers, each of whom will help Jack answer one of the Final Questions—just as they once helped Cal.

First, in Rome, Jack will meet "the Saint." Then a haunted beach in Hawaii introduces him to "the Surfer." And finally the grandeur of New York City sets the stage for his last encounter: with "the CEO." Along the way, Jack will learn to do his interior work, discover that our negative traits offer gateways to higher versions of ourselves, and understand that figuring things out in your head can distract you from the powerful whispers of your heart. Join Jack on his journey and step into the you that you were always meant to be.

Emotion "One can make any emotion into a creative force in one's life." - Sadhguru
It's not just poetic license that allows us to refer to emotions as "juicy". In a literal sense also, emotions are a chemical cocktail that course through our bodies. But while we have no problems with pleasant emotions, unpleasant emotions are the source of much angst in our lives. In Emotion: The Juice of Life, Sadhguru looks at the gamut of human emotions and how to turn them into stepping stones rather than stumbling blocks.
Relationships "If you enhance yourself into a very beautiful state, everyone will want to hold a relationship with you." - Sadhguru
Human beings constantly make and break relationships. Unfortunately, relationships can make and break human beings too. Why are relationships such a circus for most of us? What is this primal urge within us that demands a bond - physical, mental, or emotional - with another? And how do we keep this bond from turning into bondage? These are the fundamental questions that Relationships: Bond or Bondage looks at as Sadhguru shares with us the keys to forming lasting and joyful relationships, whether they are with husband or wife, family and friends, at work, or with the very existence itself. Sadhguru is a yogi and profound mystic of our times. An absolute clarity of perception places him in a unique space in not only matters spiritual but in business, environmental and international affairs, and opens a new door on all that he

touches.

But does anyone want what Delaney is fighting to save? Does humanity truly want to be free? Studded with unforgettable characters, outrageous outfits, and lacerating set-pieces, this companion to The Circle blends absurdity and terror, satire and suspense, while keeping the reader in apprehensive excitement about the fate of the company—and the human animal.

ABOUT THE ORIGINAL BOOK Our attitude is the perspective with which we make all of our decisions in life. According to our attitude, we choose the activities we want to do, measure our energy levels and react to different situations. Therefore, it is logical to conclude that our attitude is essential if we want to lead a full life. The good news is that we can get full control of

our attitude to stay enthusiastic and full of energy. That is the goal of the tips and methods presented in this book. Let's stop giving excuses and postponing what is really important. Nothing should obstruct our path in the search to improve our health in the three most relevant areas: mind, body and spirit. Let's take this as our starting point to perform an internal replenishment that balances us in these three areas. This guide is for those who are immersed in their work world, but who want to transform themselves to find personal improvement that stabilizes their lives. The Monk Who Sold His Ferrari was published in 1997 and has already become a classic in this area. It relates the story of Julian Mantle, a lawyer who manages to find enlightenment and healing to achieve a happier and more rewarding existence. The anecdote is full of advice that Julian gave his former colleague John, although in reality they are intended for the reader to draw a parallel between their own story and that of the character, thus making it easier to exemplify a change of life. The advice is based on the teachings of the Sages of Sivana and their seven virtues, which Julian learns when he decides to seek wisdom in the Himalayan Mountains after his health declines.

INTRODUCTION Julian Mantle, an enlightened trial attorney, believed that he had everything he needed in life, until the day he suffered a heart attack while conducting a trial. Frightened by the event, he longed to find a new meaning to his existence, so he decides to travel to India after quitting his job, abandoning the law firm and getting rid of all his material assets, among which was his Ferrari. Three years later, Julian returns to the offices where he worked as a lawyer. There he meets one of his former colleagues, John, who at first does not recognize him after having changed radically: Julian is the very image of well-being, health and vitality, and the big smile never leaves his face. He even looks younger than before he disappeared. In fact, the contrast between John and Julian is quite severe, since John now seems to personify Julian from three years ago, aged and stressed by work. Julian wants to help John to free himself as he did, so he invites him to his house to tell him about his mystical journeys through the Himalayas and the land of Sivana, where the wise people lived who taught him a new way of life. Before finding the Sages of Sivana, Julian had tried to seek wisdom by traveling from town to town through India, until he finally heard about Sivana while in Kashmir. Julian begins to transmit his teachings through an anecdote about a sumo fighter on a

yellow rose garden. In the end, it is a beautiful story that contains valuable metaphors about provisions that are essential to reach an enlightened life. After finishing the garden anecdote and its symbolic explanation, Julian continues to motivate John's transformation through a very simple program that lasts only thirty days. Each day an hour was dedicated to practice the Ten Rituals that make up an enlightened life. Some of the activities of these rituals consisted of getting up early, enjoying a moment of solitude and silence, repeating positive mantras, reading frequently and doing good actions daily. At the end of this story, we will be able to understand why Julian Mantle decided to sell his Ferrari and how this action made him so happy. We will also be able to discern why we could also sell our Ferrari if we had it, or why you may not even want one in the first place. All we need is the balm of wisdom.
