World History Journey Across Time

McGraw-Hill Education

The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not

reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with

practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom. *The Clutter Book* Createspace Independent Publishing Platform

Jay, your average stoner from Portland Oregon, finds out when he's twenty-one that he is Jesus, the son of God. This may have been a good thing if it weren't for the fact that he had been molested early in life by a Catholic Priest. It is a comic and tragic tale of reincarnated Disciples, and a difficult choice on whether the world is worth saving. Jay grows up thinking he's a normal kid. Through a series of hilarious and heartbreaking adventures, he finally learns of his true identity, long after he was supposed to. His reincarnated disciples are a mixture of loveable and misunderstood characters that join Jay on a journey across the Country that leads them to Elvis, Oprah, jail, and near death experiences. And when Jay becomes too big for the Church to control, they confront a situation that could very well destroy the world.

What if you had been there on the night that Jesus was born? What if you could have held the infant Son of God, when He was only a few minutes old? How would it feel to have God Himself in your arms,

vulnerable, approachable, and unassuming? In “A Ragamuffin Christmas” Craig Daliessio provides just that view of the Nativity. Far from the usual retelling of a baby, some shepherds, and the Virgin Mary; this is the story of criminals, broken hearted moms, scandalous characters, and legendary Saints, each granted their own visit with the newborn King of Kings. The people and images are unmistakable...and the result of each interaction is life changing. This is the Christmas story as it’s never been told before.

How can you know a place? Historian and naturalist Jack Nisbet—author of *Sources of the River: Tracking David Thompson Across Western North America*—looks to the relics of a region to connect the present moment to the distant past. In the vast Western territory defined by the Columbia River, Nisbet tracks the stories and meaning of relics such as a trilobite fossil that points to a tropical prehistoric ecology; the nearly extinct California condor, once the largest thing in the skies, described with amazement by Meriwether Lewis; the indelible stain of the smallpox

pandemic that overcame the native peoples of the West; a rare and socially potent strain of indigenous wild tobacco that reveals the presence of vestigial Indian practices; and the remains of one Jaco Finlay, a mixed-blood trapper and scout who seems to have been everywhere in the region two hundred years ago. All of these relics are the visible bones that show how past is present in the Columbia River Country. Together the stories these bones tell lays out a wholly original, hybrid history that connects nature with human endeavor, geography with the passage of time—all contribute to the biography of a place. The arrow of time travels in one direction, and this is usually how history is told: beginning to end. But Jack Nisbet is up to something else: journeys across time through a place, knitting past to present and back again to assemble a portrait of the land that marked the culmination of Lewis & Clark’s expedition, that saw the sad end of the Indian Wars with the flight of Chief Joseph, that has offered up fossil proof of mammoth species long extinct. In this western territory, the storied past is much in evidence.

*Breaking Pride* McGraw-Hill Education

So many of us desire freedom - the freedom that is promised to us when we decide to follow Jesus. The freedom from the burden of our sin, the need to be "good enough," anger, jealousy, and envy. Even though we are believers we would be ashamed to say that we don't always experience peace, contentment, and joy in our life. We are looking for the grace that God has so graciously given to us to be real in our life... *Breaking Pride* is an eBook based on one simple truth: In order to walk in God's grace we need to tear down the walls of pride. A lot of believers, even though saved by God's grace, are still walking in pride rather than walking in His

grace. Knowing what pride is and learning to identify pride in your life is the first step to overcoming a life filled with pride. Pride is rooted in fear and leads to anger, jealousy, and envy. Sin isn't keeping us from having a relationship with the Lord, it's our pride. So many of us long to have an authentic and REAL relationship with the Lord, and we long to have the fruit of the spirit filled in our heart. Our desire is to achieve these fruits through will power. But we do not even realize that the pride that lives within our heart is what is blocking the fruit of the spirit from living within us. In *Breaking Pride* you will learn to identify different areas of pride in your life. Filled with encouragement, *Breaking Pride* will take you through a practical reading of what pride may look like in your life... Let's stop building walls of pride and start building the foundation of grace within our lives...

We all are faced with daily choices and decisions that impact our time and ultimately our life. It is the small decisions we make day in and day out that determine who we really are. The large decisions may scream for attention yet they are just the result of all the small decisions we have made or avoid making that brought us to that point in life. The decision to make the study of the Bible a part of a person's life is in many ways one of the small choices we make every day. It takes a few minutes of our time. It takes a small amount of commitment. It requires very little real effort and yet it seems so difficult for so many people to include the Word of God in their daily lives. THE STORY UNFOLDS is designed to help the individual as they make a personal journey through the Word of God. Designed as a companion to *The Story* published by Zonderan. THE STORY UNFOLDS looks at the world from two distinct and important points of views. THE STORY UNFOLDS looks at the world from God's point of view. As the creator and the adult in the garden it examines his role in the development and ultimately the

redemption of mankind. The second view is from the perspective of humanity. They often are like disobedient children unwilling to listen but who want everything given to them anyway. In the end their redemption hinges on their willingness to accept God's direction and plans for their lives. *The Story Unfolds* is a must read for anyone seeking to understand the Bible and the reason God has done so much to reach out to help his creation find their way back to his original plan for them. Each person needs to be able to answer three simple questions that God first asked in the garden to Eve and Adam. THE STORY UNFOLDS will help you discover the answer to these three questions and give you the opportunity to discover the living God who has revealed himself from his word. It is astonishing to think that many great archaeological discoveries occurred in Egypt only by way of accident during the 19th and 20th centuries. Even today accidents still play a vital, frequent and sometimes comical role, with new discoveries happening almost weekly and with many more secrets of the ancient Egyptian civilization still remaining. This book takes readers beyond these discoveries and their associated accidents. This book cannot be considered purely as an Egyptological and archaeological reading or even as dry history pages covering Egypt's modern era of the 19th and 20th centuries. Rather, it is a book that sheds light on the intimate links between the birth of Egyptology after the deciphering of the famous Rosetta Stone and the raging world politics and regional power shifts in Egypt and its surroundings. The book ties together the political storms of colonialism in the first half of the 19th century and the unsettling effect these upheavals had on Egypt during the reign of Mohamed Ali Pasha. In a storytelling style, the book is a journey through time

and place. The book takes readers on a guided tour to most of Egypt's well-known monuments that were mainly discovered by simple accident or in which an accident played a major part leading to discovery. In addition, the book leads readers through time exploring ancient Egypt, the days of the pharaohs, ancient gods, rituals and public ceremonial festivals, with old and new stories that shed light on the true value of such discoveries in antiquity and modern day.

Waltzing Australia was born out of a dream-and a journey. After walking away from her corporate career, Cynthia Clampitt headed to Australia, to start over, to write, and to test the limits of what she could do. Waltzing Australia recounts that joyous adventure. It is a story about change and about making dreams come true. But more than that, it is about Australia: the history, legends and art, both European and Aboriginal; the beauty, the challenge, the people, the land. From Sydney to Perth, Tasmania to Darwin, tropics to desert, city to wilderness, Clampitt carries the reader along on an

exhilarating grand tour of a fascinating country. With a writing style reminiscent of Annie Dillard, she captures the essence of the land Down Under and invites others to fall in love with Australia.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most

popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

What if dreams are more than dreams?

This magical realism novel is the first in a trilogy that is historical fiction, love story and spiritual quest. It is about magic and mysticism, faith and initiation. It is about the soul of art. Woven through history is a love story of many parts, remembered and built upon through the centuries. A great love passes on through generations in some undeniable memory in the flesh, and also reappears in new lives from distant places. Mystical love calls to couples throughout time to bring them together again and again. This remembering travels both ways in time, existing in that place beyond time where love lives. There are

vague memories, subtle warnings and obscure communications between individuals separated by centuries. Lives weave together throughout more than five hundred years, paralleling contemporary events. Religious intolerance, fear and greed generate the Spanish Inquisition and the religious wars in Europe that reach a decisive moment with the defeat of the Spanish Armada. Ninety-six years earlier, in the same year that Ferdinand and Isabella sent the three ships that discovered the New World, Spain's power had begun to weaken with the expulsion of the Jews and Muslims. The wisdom and skills of the Islamic and Jewish citizens was what had helped make Spain what it was, but fear caused the end of that golden age. These two critical points in history and what follows are the setting for this novel, but other times are connected over many thousands of years. The story opens in Spain in the 15th Century, with Jewish, Islamic and Christian children playing together as innocents without prejudice or fear. Throughout the book, there is an underlying theme of Hope and Faith manifested in mystical ways. This faith lives in ancient Celtic traditions, as well as

Jewish, Islamic and Christian forms, both Catholic and Protestant. Truth is truth, no matter what form it chooses to wrap itself inside. Love empowers many characters in various ways and transforms them into their best. The world of nature sometimes comes to their aid in miraculous ways, and enemies who are treated with love become allies. There are no greater mysteries than time and consciousness and the memories that connect us to the whole of our lives and beyond. The déjà vu and vague precognitive experiences that

all of us have felt to some degree are the tip of the iceberg of this mystery. The supernatural in our lives is often liberated by powerful emotions like love and fear. We all are familiar with stories about mothers who have sensed when their children are in danger or when a loved one is in crisis. There is an undeniable connection that doesn't fit neatly into our view of everyday physical life. There is a larger world we glimpse as we timidly awake. Editorial Review: Lyrically, hauntingly beautiful....this is storytelling at

its best.... -- Phyllis Tickle - Founding editor of the Religion Department of Publishers Weekly and author of dozens of books, including *The Great Emergence: How Christianity Is Changing and Why* **A Personal Journey Through the Word of God** Scholastic Inc.

An avowed atheist's mystical experiences lead her to believe in God, yet she's wary of organized religion and its hypocrisies. Join her as she journeys through suffering and deep reflection toward embracing the profound teachings of the Bahá'í Faith.
