Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition

of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural

life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *I Commerci Dell'Africa* Severn House Publishers Ltd Giuseppe (1923-2010) and Giovanna Panza di Biumo are known as passionate and tireless collectors who over the course of more than fifty years built an

extraordinary collection of contemporary art. Extraordinary for the artists included - Rothko, Kline, Tàpies, Lichtenstein, Oldenburg, Rosenquist, Andre, Serra, Nauman, Kosuth, LeWitt, Weiner, Sims and Fredenthal, among others - but especially for its implied vision: an innate and bold capacity to recognize in each work its radical, peculiar content of truth, well in advance of the critics and art market. This volume is the result of a long conversation with Philippe Ungar between 2007 and 2009. In this cultured and moving dialogue, the inner need to discover and acquire works of art is revealed as an intellectual adventure and a spiritual journey but also as the creation of a familiar lexicon founded on the tenacious search for beauty through art.

I dipendenti di un'azienda organizzano una gita a Parigi. Al termine di quel viaggio, una serie di circostanze spingono l'Autore ad approfondire la conoscenza di Ferruccio, Ciccino e Fabienne (tre dei cinquanta partecipanti alla gita) e a farci conoscere le loro storie personali. Nel passaggio dall'uno all'altro degli stessi racconti scopriamo anche la grande forza evolutiva che è in lui e che lo sta portando a cambiare in maniera profonda il suo rapporto con Dio e il proprio modo di muoversi nel mondo.

The publication, in 1872, of Darwin's *The Expression of the Emotions in Man and Animals* had a profound effect upon the development of Psychology. Darwin's book gave to three men the impetus to develop the theory of the emotions as organic processes, and this theory has not only become so strongly entrenched in scientific thought that it is practically assumed today as the basis for the study of the emotional life, but has also led to the development of the hypothesis of reaction or response as the basis of all mental life: a hypothesis which is rapidly supplanting the phrenologists' theory of brain-activity. The three men who independently developed the organic theory of the emotions were Carl Georg

Lange in Denmark, William James in America, and Alexander Sutherland in Australia. The writings of James and Lange had profound influence on contemporary and later psychologists, and on this account it is not unfair to apply the name "James-Lange Theory" to the organic theory of the emotions, as is customarily done. This implies no lack of appreciation of the work of Sutherland, or of the contributions of Ribot, Mosso, and later investigators. We present in this volume a new translation of Lange's *Ueber Gemuthsbewegungen*, made by Miss Istar A. Haupt from Kurella's German version, together with a reprinting of James' *What is an Emotion?* and his chapter on "The Emotions" from the *Principles of Psychology*. In the closing decade of the nineteenth century, the modern age invaded the city streets of Italy in the form of advertising posters. Bouquets of monkeys, elephants, masks, automobiles and elegantly--and sometimes scantily--clad ladies suddenly blossomed upon walls everywhere, indoors and out, visually grabbing the attention of an Italian public interested in the new commercial products that promised a new way of living. These advertisements were executed by some of the greatest illustrators of the day--Leonetto Cappiello, Achille Lucien Mauzan, Marcello Dudovich, Plinio Codognato, Leopoldo Metlicovitz and Gino Boccasile--who together produced a medley of playful, allusive, ironic and experimental imagery unmatched by any other European or American posters of that era. The current scarcity of Italian posters on the market today makes this lush publication all the more valuable for its depiction of a legacy in poster design.

For a work written more than two thousand years ago, in a society in many ways quite alien to our own, Lucretius' *De Rerum Natura* contains much of striking, even startling, contemporary relevance.

The State of European Integration provides scholars, practitioners, experts and students with a comprehensive account of the state of the European Union today. With contributions from leading scholars including Richard G. Whitman, Meltem Müftüler-Baç, Gülnur Aybet, Leila Simona Talani and Gareth Dale, the book examines the EU in a theoretically informed and empirically grounded manner. Opening with an exploration into the nature of the European Union as an international actor, it then assesses the impact of enlargement on institutions, policies and identity. The contributors

investigate issues related to the degree of convergence and cohesion among members, and analyze the economic and monetary state of integration. The volume comes at a timely interval when there is a need to understand the present and future of the European Union.
