This practical guide grew out of author Bret Kernoff's own experience in preparing for the BCBA certification exam. After pursuing

certification in applied behavior analysis, he recognized the tremendous value of a study guide designed to give applicants insight into the science of applied behavior analysis. This guide is directly aligned with the BACB 4th Edition Task List. Based on study guides he created in preparation for his certification exam, this book provides the foundational

science of applied behavior analysis as well as specific examples applicants can use to help learn how to pass the certification exam. This 2nd edition is identical to 1st edition except for the title. This new title complies with BACB standards. Also published by Bret Kernoff, Med, CAGS, BCBA is the "Teacher's Guide to Applied Behavior Analysis." This text is written in plain

Guide to Passing Checkpoint Exams and Getting Certifications Fast. Real Practice Test With Detailed Screenshots, Answers And Explanations Independently Published This essay sheds light on how to become a personal trainer, how to find clients as a personal trainer, and how to be highly successful as a personal trainer. Moreover, how to generate extreme wealth online

on social media platforms by frequently creating ample lucrative income generating assets is elaborated upon. Additionally, the utmost best income generating assets to abundantly produce in order to be able to generate extreme wealth online in the digital era are identified, how to become a meritoriously successful influencer online on

social media platforms is elucidated, the various benefits of becoming a successful influencer online and attaining extreme fame leverage are demystified, and how to earn substantial money online so that you afford to inexplicably enrich every aspect of your life is meticulously expounded upon in this essay. While becoming a personal trainer may seem to be a cumbersome

undertaking in the digital era, it is more viable than ever before. Advantageously, pursuing a career as a personal trainer can allow you to pivot to embracing your higher aspirations and having more robust career options in the future years. In other words, embracing a career as a "personal training can often be a versatile jumping-off point for other career opportunities, such as being

a fitness instructor, a health writer" (Laferrara, 2019) or global educator. In order to become a personal trainer, you will need to first and foremost " get certified as a personal trainer" (Laferrara, 2019). As a prospective personal trainer, it would therefore behoove you to become certified by a "certifying organization that has been accredited. Certifying organizations have their certification procedures and protocols accredited by an independent third party, such as the NCCA or DEAC" (Laferrara, 2019). In order to be able to take the Personal Trainer Certification Exam, most certifying organizations require that you have already obtained the "CPR certification and AED certification, have earned a high school diploma or GED, and are at least 18 years" (Laferrara, 2019) old. The costs to become a Personal Trainer and take the Personal Trainer Examination "varies from about \$300 to significantly more than \$1000, and may not include the study materials nor access to workshops" (Laferrara, 2019). Once you have passed the Personal Trainer Certification

Exam, you will have to complete continuing education requirements, such as completing 20-60 hours of continuing education courses every two years, in order to preclude having your Personal Trainer Certification expire. Once you have passed your Personal Trainer Certification Exam, you will be poised to find a job as a personal trainer. You can work for a fitness center

as an employee or be an independent contractor for a business without having to deal with the onerous burden of having to find your own clients. Personal trainers can work at "commercial gyms, personal training studios, local community centers, hospitals wellness centers, cruise ships, resorts, and corporate fitness centers. Working at a

popular commercial gym can be a great way to get experience and many of those clubs, such as XSport, 24 Hour Fitness, Gold's Gym, and Planet Fitness, often hire new trainers all the time. Some of the ample drawbacks can be lower pay, working on commission, lots of selling, and having to work long hours doing new member orientations to get new clients" (Laferrara,

2019). Being employed at other work sites also has its shortcomings. Even though "many hospitals employ personal trainers to help patients recover from illnesses and conditions"(Laferrara, 2019), personal trainers render themselves more vulnerable to contracting a virus by working in a hospital setting. "Working at a hospital may require a higher degree

or a specialty for working with clients who may have health challenges" (Laferrara, 2019). A myriad of personal trainers prefer to work on cruise ships or at all-inclusive resorts.
