WATERS VANG

Measuring Mamma's Milk Scribner

Mama's Milk Is All Gone is an illustrated book for parents and

babies/toddlers/children to read together. The book recognizes the breastfeeding relationship that the child shared with their mother and how after weaning they have many different ways that they fill their

physical and emotional needs in place of breastfeeding. It is meant to help ease the emotional transition that occurs alongside the physical transition.

Mango

An account designed to be read to children who are about to be weaned discusses the closeness between nursing mother and baby, and the many ways in which a child who no longer nurses

can be close to family members, and offers advice to parents.

A Weaning Book for Toddlers. Creating Magic, Wonder and Ritual for a More Joyful Experience for All

This baby is not comforted by a teddy bear or toy. This baby wants only one thing: milk! When baby is hungry, neither his teddy bear, his ball, nor even his shiny tambourine will soothe him. This tribute to the nursing baby - and even more so, to the breastfeeding mother - will read as conventional to babies and toddlers but as taboo-busting to parents. Celebrate the natural magic of growing a baby with this simply worded, expertly illustrated, and shockingly honest

shaped board book. Perfect for nursing babies, older siblings, and expectant parents. A sure-to-be favorite baby shower gift!

This new edition of the Hohm Press classic, *We Like to Nurse*, is presented in the Chinese language. It is designed to address the needs of one of the fastest growing populations in the US. The decision to breastfeed is determined by a mother's personality, her level of self-esteem, her education about the potential problems of the initiation period in breastfeeding, her need or desire to be able to leave her baby in the care of others for long periods of time, and the attitude of her

spouse. However, with education and support from others, particularly other mothers who know the situation first-hand, almost all of these factors can be positively addressed. *Paddleboatpress My Mama's Milk* highlights the mother and child breastfeeding relationship and explores how each mammal makes milk specifically for their babies.

Simon and Schuster *Living with his little brother, Fudge*, makes Peter feel like a fourth grade nothing. Fudge is never far from trouble. He's a two-year-old terror who gets away with everything--and Peter's had enough. When Fudge walks off with Dribble, Peter's pet

turtle, it's the last straw.

In simple rhyming verse, a blissful and contented nursing describes her love for nursing, how breast feeding benefits her, and when, where and how she nurses her mother. Colorful and dreamy soft-focus images realistically depict the joyful and sensual bond between the mother and child as well as the support and adoration of the father.

Some extraordinary rats come to the aid of

a mouse family in this Newbery Medal Award-winning classic by notable children's author Robert C. O'Brien. Mrs. Frisby, a widowed mouse with four small children, is faced with a terrible problem. She must move her family to their summer quarters immediately, or face almost certain death. But her youngest son, Timothy, lies ill with pneumonia and must not be moved. Fortunately, she encounters the rats of NIMH, an extraordinary breed of highly intelligent creatures, who come up with a brilliant solution to her dilemma. And Mrs. Frisby in turn renders them a great service.

From the author of *Expecting Better* and *The Family Firm*, an economist's guide to the early years of parenting. "Both refreshing and useful. With so many parenting theories driving us all a bit batty, this is the type of book that we need to help calm things down." —LA Times
"The book is jampacked with information, but it's also a delightful read because Oster is such a good writer." —NPR
With *Expecting Better*, award-winning economist Emily Oster

spotted a need in the pregnancy market for advice that gave women the information they needed to make the best decision for their own pregnancies. By digging into the data, Oster found that much of the conventional pregnancy wisdom was wrong. In *Cribsheet*, she now tackles an even greater challenge: decision-making in the early years of parenting. As any new parent knows, there is an abundance of often-conflicting advice hurled at you from doctors, family, friends, and strangers on the internet. From the earliest days, parents get the message that they must make certain choices around feeding, sleep, and schedule or all will be

lost. There's a rule—or three—for everything. But the benefits of these choices can be overstated, and the trade-offs can be profound. How do you make your own best decision? Armed with the data, Oster finds that the conventional wisdom doesn't always hold up. She debunks myths around breastfeeding (not a panacea), sleep training (not so bad!), potty training (wait until they're ready or possibly bribe with M&Ms), language acquisition (early talkers aren't necessarily geniuses), and many other topics. She also shows parents how to think through freighted questions like if and how to go back to work, how to think about toddler discipline, and how to

have a relationship and parent at the same time. Economics is the science of decision-making, and Cribsheet is a thinking parent's guide to the chaos and frequent misinformation of the early years. Emily Oster is a trained expert—and mom of two—who can empower us to make better, less fraught decisions—and stay sane in the years before preschool.

Penguin
 “Reminiscent of Toni Morrison’s *The Bluest Eye*.” —The New York Times “One of the best books I have ever read...will live in the hearts of readers for the rest of their lives.” —Colby Sharp, founder of Nerdy Book Club “An

emotional, painful, yet still hopeful adolescent journey...one that needed telling.”

—Kirkus Reviews (starred review) “I really loved this.”

—Sharon M. Draper, author of the New York Times bestseller *Out of My Mind* This deeply sensitive and “compelling” (BCCB) debut novel tells the story of a thirteen-year-old who must overcome internalized racism and a verbally abusive family to finally learn to love herself. There are ninety-six reasons why thirteen-year-old Genesis dislikes herself. She knows the exact number because she keeps a list: - Because her family is always being put out of their house. -Because her dad has a gambling problem. And maybe a

drinking problem too. -
 Because Genesis knows this is all her fault. -Because she wasn't born looking like Mama. -Because she is too black. Genesis is determined to fix her family, and she's willing to try anything to do so...even if it means harming herself in the process. But when Genesis starts to find a thing or two she actually likes about herself, she discovers that changing her own attitude is the first step in helping change others.
