A Novel Simon and Schuster

A riveting story of World War II and the courage of one young woman as she is drafted into Churchill's overseas spy network, aiding the French Resistance behind enemy lines and working to liberate Nazi-occupied Paris... London, 1941: In a cramped bunker in Winston Churchill's Cabinet War Rooms, underneath Westminster's Treasury building, civilian women huddle at desks, typing up confidential documents and reports. Since her parents were killed in a bombing raid, Rose Teasdale has spent more hours than usual in Room 60, working double shifts, growing accustomed to the burnt scent of the Prime Minister's cigars permeating the stale air. Winning the war is the only thing that matters, and she will gladly do

her part. And when Rose's fluency in French comes to the attention of Churchill himself, it brings a rare yet dangerous opportunity. Rose is recruited for the Special Operations Executive, a secret British organization that conducts espionage in Nazi-occupied Europe. After weeks of grueling training, Rose parachutes into France with a new codename: Dragonfly. Posing as a cosmetics saleswoman in Paris, she ferries messages to and from the Resistance, knowing that the slightest misstep means capture or death. Soon Rose is assigned to a new mission with Lazare Aron, a French Resistance fighter who has watched his beloved Paris become a shell of itself, with desolate streets and buildings draped in Swastikas. Since his parents were sent to a German work camp, Lazare has dedicated himself to the cause with the same fervor as Rose. Yet Rose's very loyalty brings risks as she undertakes a high-stakes prison raid, and discovers how much she may have to sacrifice to justify Churchill's faith in her . . . A rousing historical novel. - The Akron Beacon Journal, Best Books of the Year for Churchill's Secret Messenger

The Baker's Secret Redhook

Dumping Iron: How to Ditch This Secret Killer and Reclaim Your Health is a game-changer in health and fitness. The accumulation of excess iron in the body, a condition that affects perhaps the majority of adults, leads to much higher risk of heart disease, cancer, diabetes, obesity, brain diseases such as Alzheimer's and Parkinson's, and shorter lifespan. *Dumping Iron* shows how to measure your iron levels, what the test numbers mean, and how to go about lowering iron if necessary. Humans are adapted to a low-iron environment, so once iron is in our bodies, it virtually never goes away. Our new, high-iron environment leads to iron accumulation, and to ill health and early death. Iron is the secret killer that no one is telling you about. Finally, in *Dumping Iron*, the scientific and medical data that indicts iron is assembled in one place. What the

experts say about *Dumping Iron*:

"*Dumping Iron* by P. D. Mangan is a must read by anybody interested in maintaining optimal health, including those in the medical field. Iron overload is an exceedingly common malady in the population and it is easily diagnosed, but it is under-addressed. It leads to heart disease, diabetes, cancer and numerous other chronic and debilitating illnesses. The good news is that iron excess can be prevented and readily treated, which results in a decreased risk of many diseases and improvement in overall health and vitality. *Dumping Iron* clearly tells us how to achieve these goals." - Luca Mascitelli, M.D., Lt. Colonel, Italian Army, and author of numerous scientific papers on iron and health. "In *Dumping Iron*, Dennis Mangan has provided the reader access to a massive scientific data pool linking body iron overload to major diseases of mankind... I submit that *Dumping Iron* should be required reading in science and nutrition for high school and above. The ultimate triumph of *Dumping Iron* might be an informed public that will increasingly access ferritin test screening, and health care providers better prepared to interpret tests of iron status, particularly the ferritin level. Acknowledgment of risks of iron overload and proper product labeling might lead to reduced public iron intoxication and improved population health to a degree that would be no less than monumental!" - Leo Zacharski, M.D., Professor of Medicine, Geisel School of Medicine, Dartmouth College. Dr. Zacharski has written extensively on the connection between iron and disease, and has conducted clinical trials of lowering iron. "Iron has been compared to fire. A small amount of fire is quite useful in our stoves and furnaces. But when fire is ravaging the

contents and walls of our home... BEWARE. In this informative book, Dennis Mangan makes clear the devastation that can be caused by excessive/misplaced iron in the tissues and walls of our bodies. We learn that for essentially all diseases - infections, cancers, Alzheimer's, Parkinson's, diabetes, gout, osteoporosis, cardiovascular ills, and more - that the iron burden is a dangerous risk factor. But equally important, the author describes a variety of well tested methods that are readily available to neutralize the iron peril. Adoption of even a few of these methods can remarkably decrease iron-catalyzed disease episodes, enhance well being, and, not least, increase longevity." - E. D. Weinberg, PhD, Professor Emeritus of Biology at Indiana University, and the author of over 140 scientific papers, many of them on the role of iron in disease. Dennis Mangan's revolutionary new book *Dumping Iron: How to Ditch This Secret Killer and Reclaim Your Health* is a must read even for the most informed Health and Fitness professional. - Jay Campbell, author of *The Definitive TRT Manual*

 Forensic archaeologist Ruth Galloway changed her life--until a convicted killer tells her that four of his victims were never found, drawing her back to the place she left behind. Everything has changed for Ruth Galloway. She has a

new job, home, and partner, and she is no longer North Norfolk police's resident forensic archaeologist. That is, until convicted murderer Ivor March offers to make DCI Nelson a deal. Nelson was always sure that March killed more women than he was charged with. Now March confirms this and offers to show Nelson where the other bodies are buried--but only if Ruth will do the digging. Curious, but wary, Ruth agrees. March tells Ruth that he killed four more women and that their bodies are buried near a village bordering the fens, said to be haunted by the Lantern Men, mysterious figures holding lights that lure travelers to their deaths. Is Ivor March himself a lantern man, luring Ruth back to Norfolk? What is his plan, and why is she so crucial to it? And are the killings really over?

The Spy's Daughter Penguin
 The thrilling third novel from multi-award-nominated author Adam Brookes is paranoid, tense spy fiction at its very finest. Meet Pearl Tao: an American girl with a lethal secret. Pearl longs for the life of a normal American teenager: summers at the pool, friends, backyard barbecues in the Washington DC suburbs. But she is different. Her gift for mathematics means overprotective parents and college sponsorship from a

secretive technology corporation. And now, aged nineteen, she is beginning to understand what her parents intend for her. The terrifying role she is to play. Her only hope of escape lies with two sidelined and discredited spies: Trish Patterson and Philip Mangan. Finding out the truth about Pearl will be the biggest mission they'll ever undertake.

"Authentic, taut and compelling. Brookes is the real deal." -- Charles Cumming

The King's Assassin Profile Books

Set in China, and ripped from today's headlines, comes a pulse-pounding debut that reinvents the spy thriller for the 21st century. A lone man, Peanut, escapes a labor camp in the dead of night, fleeing across the winter desert of north-west China. Two decades earlier, he was a spy for the British; now Peanut must disappear on Beijing's surveillance-blanketed streets. Desperate and ruthless, he reaches out to his one-time MI6 paymasters via crusading journalist Philip Mangan, offering military secrets in return for extraction. But the secrets prove more valuable than Peanut or Mangan could ever have known... and not only to the British.

We all know nothing rhymes with orange. But how does that make Orange feel? Well, left out! When a parade of fruit gets together to sing a song about how wonderful they are—and the song happens to rhyme—Orange can't help but feel like it's impossible for him to ever fit in. But when one particularly intuitive Apple notices how Orange is feeling, the entire English language begins to become a bit more inclusive. Beloved author-illustrator Adam Rex has created a hilarious yet poignant parable about feeling left out, celebrating difference, and the irrefutable fact that nothing rhymes with orange. Plus, this is

the fixed format version, which looks almost identical to the print edition.

German Espionage in Ireland, 1939-45 Macmillan

Irish Secrets graphically tells the little-known history of German military espionage activity in Ireland - despite Ireland's neutral stance - before and during the Second World War. It details illicit contacts between officers of the Abwehr (German military intelligence) and leaders of the Irish Republican Army with the intent of co-ordinating actions against British targets and the Irish state. *Irish Secrets* also examines the extent of pro-German support in Ireland, the fledgling Nazi party in Ireland, and the activities of Irish civilians and diplomats abroad who offered to serve Hitler's Germany. It scrutinises the personalities and mission profiles of the eleven German agents (from both the Abwehr and the SD (the SS intelligence service), who operated with widely varying degrees of success on Irish soil, and unearths the stories of previously unknown German operatives and Irish supporters. Many of the most compelling scenarios revolve around the use of recruited Irish nationals for espionage work, some details of which are still classified by the British and Irish governments. This book explores why German intelligence ultimately failed, and proposes that the German effort represented a genuine threat to the Irish state and the Allies alike, which seriously threatened the official position of Irish neutrality. It makes for a gripping account of the intelligence war and highlights the brilliant, creative success of Irish military intelligence in waging a counter-espionage campaign that effectively neutralized the German threat. Drawing from newly released intelligence files in several countries, in-

depth interviews conducted with the participants, and on other previously unpublished primary sources, Mark Hull conclusively rewrites what is presently known about a fascinating aspect of the Second World War.

Past and Present Redhook

New York Times bestselling author Chuck Klosterman asks questions that are profound in their simplicity: How certain are we about our understanding of gravity? How certain are we about our understanding of time? What will be the defining memory of rock music, five hundred years from today? How seriously should we view the content of our dreams? How seriously should we view the content of television? Are all sports destined for extinction? Is it possible that the greatest artist of our era is currently unknown (or—weirder still—widely known, but entirely disrespected)? Is it possible that we “overrate” democracy? And perhaps most disturbing, is it possible that we’ve reached the end of knowledge?

Klosterman visualizes the contemporary world as it will appear to those who'll perceive it as the distant past.

Kinetically slingshotting through a broad spectrum of objective and subjective problems, *But What If We're Wrong?* is built on interviews with a variety of creative thinkers—George Saunders, David Byrne, Jonathan Lethem, Kathryn Schulz, Neil deGrasse Tyson, Brian Greene, Junot Díaz, Amanda Petrusich, Ryan Adams, Nick Bostrom, Dan Carlin, and Richard Linklater, among others—interwoven with the type of high-wire humor and nontraditional analysis only Klosterman would dare to attempt. It's a seemingly impossible achievement: a book about the things we cannot know, explained as if we did. It's about how we live now, once “now”

has become “then.”

JOIN AWARD-WINNING PODCASTER ZIBBY OWENS OF MOMS DON'T HAVE TIME TO READ BOOKS ON A JOURNEY FILLED WITH FOOD, EXERCISE, SEX, BOOKS, AND MORE. It's impossible to ignore how life has changed since COVID-19 spread across the world. People from all over quarantined and did their best to keep on going during the pandemic. Zibby Owens, host of the award-winning podcast *MomsDon't Have Time to Read Books* and a mother of four herself, wanted to do something to help people carry on and to give them something to focus on other than the horrors of their news feeds. So she launched an online magazine called *We Found Time*. Authors who had been on her podcast wrote original, brilliant essays for busy readers. Zibby organized these profound pieces into themes inspired by five things moms don't have time to do: eat, read, work out, breathe, and have sex. Now compiled as an anthology named *Moms Don't Have Time To*, these beautiful, original essays by dozens of bestselling and acclaimed authors speak to the ever-increasing demands on our time, especially during the quarantine, in a unique, literary way. Actress Evangeline Lilly writes about the importance and impact of film. Bestselling author Rene Denfeld focuses on her relationship with food after growing up homeless. Screenwriter and author Lea Carpenter and Suzanne Falter, author, speaker, and podcast host, focus on loss. New York Times bestselling authors Chris Bohjalian and Gretchen Rubin write about the importance of reading. Others write about working out, love and sex, eating and cooking, and more. ULYSSES James Joyce's novel *Ulysses* is said to be one of the most important works in Modernist literature. It details Leopold Bloom's passage through Dublin on an ordinary day: June 16, 1904. Causing controversy, obscenity trials and heated debates, *Ulysses* is a pioneering

work that brims with puns, parodies, allusions, stream-of-consciousness writing and clever structuring. Modern Library ranked it as number one on its list of the twentieth century's 100 greatest English-language novels and Martin Amis called it one of the greatest novels ever written. ULYSSES *Ulysses* is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been called "a demonstration and summation of the entire movement". *Ulysses* chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. *Ulysses* is the Latinised name of Odysseus, the hero of Homer's epic poem *Odyssey*, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided *Ulysses* into 18 chapters or "episodes". At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had "put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant", which would earn the novel "immortality". James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for *Ulysses*, the short-story collection *Dubliners*, and the novels *A Portrait of the Artist as a Young Man* and *Finnegans Wake*. ULYSSES As the day begins, Stephen Dedalus is displeased with his friend and remains aloof. A little later, he teaches history at Garrett Deasy's boys' school. ULYSSES

Leopold Bloom begins his day by preparing breakfast for his wife, Molly Bloom. He serves it to her in bed along with the mail. ULYSSES As their day unfolds, Joyce paints for us a picture of not only what's happening outside but also what's happening inside their minds. ULYSSES Drawing on the

characters, motifs and symbols of Homer's Odyssey, James Joyce's Ulysses is a remarkable modernist novel. It has lived through various criticisms and controversies and has undergone several theatre, film and television adaptations. It continues to remain a literary masterpiece. ULYSSES
