 Miniatures are fun, and anyone can do them, according to expert miniaturist Elizabeth R Anderson. Her enthusiasm and understanding of the subject have resulted in a wonderful, easy-to-follow book. Using three simple stitches, she shows how you can create your own embroidery miniatures to use as gifts or to decorate your home. Using charts and beautiful photographs, her step-by-step guide explores all the materials and techniques you will need in detail. She guides the reader through an exquisite selection of samplers, flowers, fruit, birds, butterflies, figures, animals and silhouettes in a series of clear, practical projects, which are suitable for all levels of embroiderers.

An exquisite look into the legacy of the rose at the House of Dior, from Christian Dior's early passion for gardening to contemporary floral-inspired designs. Christian Dior discovered gardening at his childhood home in Granville, France. Roses profoundly influenced the designer, especially with his famous New Look aesthetic, where they were placed beneath the iconic corolla symbol. Published on the occasion of the exhibition at the Musée Christian Dior in Granville, this volume explores the rose's importance in Dior's history. The inspiration for Christian Dior's flowery vision of femininity runs deep throughout the House's collections; reinventions by subsequent artistic directors pay homage to Dior's wish to design dresses for "flower-like women." A focus on a new variety of rose, the Rose de Granville, underscores the perennial significance of the rose today—from inspiring Haute Couture creations to perfume making. This fascinating immersion in Dior's universe continues with texts by experts Éric Pujalet-Plàa, Vincent Leret, and Brigitte Richart, accompanied by sublime photographs, including shots by the most acclaimed twentieth-century masters as well as contemporary photography.

Bargello needlepoint, which originated in sixteenth-century Italy, employs a simple stitch that is repeated over and over again to form a distinctive geometric pattern in vibrant colors. Our mothers and grandmothers whiled away their time with it in the 1960s and 70s, and Bargello is now enjoying a revival among crafters. The technique lends itself to dramatic, wave-like designs in exciting, graduated colorways, and it's often used to create striking pillows, bags, belts, and purses. This new collection brings Bargello designs up to date with 40 stitch patterns, graded from beginner to advanced. Sisters Laura and Lynsey Angell offer a brief history of the technique as well as tips on tools and

materials plus a tutorial of the stitches. A wealth of designs follow, enhanced with full-color photos and easy-to-read charts. In addition to guidance for creating textures and smart finishes at edges and borders, the authors provide suggestions for using fancy and alternative yarns and experimenting with freestyle patterns.

 GLORIOUS INSPIRATION, a design sourcebook, is a natural extension of the author's profoundly held conviction that anyone can create their own knitting and needlepoint designs. Here, Kaffe has chosen hundreds of objects and motifs from the decorative arts and the world of nature and grouped them into themes to inspire the artist in all of us. There are sections on Shells and Minerals, Small Creatures Wild Animals, Domestic Animals, Fruit and Foliage and Beautiful Blooms and the pieces illustrated range from paintings and ceramics to textiles and mosaics. By showing us what inspires him, Kaffe opens the door to anyone who would like to create and stitch unique designs. Kaffe's own interpretations of some of the 300 painted, beaded, embroidered or woven sources are included in the book to demonstrate his personal vision of the world around us and show how any reader can use the motifs and patterns to create their own special designs.
