Special education law and practice have
undergone profound transformation over
the past 50 years. Students with

disabilities are now more likely to
receive a free and appropriate education
in the least restrictive environment
possible; however, the ideals of the law
have not always been manifested in
effective practice. Although special
education services are vastly better
today than they were in the early years
of public education, current policies and
practices continue to result in the under-
education of many children with
disabilities. This book illustrates key
failures of the system within the context
of real children's experiences. The case
study approach gives voice to the
students, families, and educators who
have been let down by the special

education process. The goal is to shed light on the flaws and injustices of the status quo. After identifying these problems, the authors offer sound solutions. Section 1 is devoted to issues surrounding identification of students with learning disabilities. These topics include occurrence of inconsistencies in assessment and diagnoses, understanding the struggles of the “slow learner,” and the interference of behavioral challenges with students’ educational performance. Section 2 addresses problems within the evaluation process that negatively influence diagnoses. Discussions include disproportionate representation of students from low socioeconomic backgrounds as well as students of color and bilingual students. Section 3

highlights significant concerns with service provision within the special education realm. The narratives throughout the book present stories of children on the receiving end of a severely fractured special education system. Recommendations focus on solving specific problems, such as inconsistent identification processes and categories, disproportionate representation, ill-conceived IEPs, ineffective specially designed instruction, and poorly implemented RTI programs. The book’s methodological approach affirms that there is much room for reform within both the special education system and the public education system as a whole. This book will be an excellent resource for graduate-level students, practitioners,

and teachers in the fields of special education, disability studies, early intervention, school psychology, and child and family services. Additionally, it will be of interest to social workers, counselors, and researchers.

"Addictive, intelligent, edge-of-your seat writing; as urgent and gripping as it gets."- Oliver Harris, bestselling author of the Nick Belsey thrillers. It takes a cult leader to kill a cult. uncovers instead is repugnant; the beginning threads of a vast human trafficking organization run with ruthless corporate precision, funneling thousands of homeless people from the streets to... Nobody knows. Nobody cares. They should. A civil war is brewing in the wilds of America. One spark in the tinderkeg could ignite the inferno, and now Wren finds himself alone in the dark, watching the spark fall. If you love Jack Reacher, John Milton or Alex Cross you'll love this book. Get it today to plunge into Wren's battle for America's soul.

During the first half of the twentieth century, John A. Ryan advocated minimum wage legislation and child labor restrictions and was very much

involved in Franklin D. Roosevelt's New Deal. More closely connected with the makers of national economic policy as a Catholic moral theologian than his better-known Protestant contemporaries. Walter Rauschenbusch and Reinhold Niebuhr, his influence has been extensive in American public policy. This volume brings to readers pertinent selections from Ryan's classic works. It will be particularly relevant to today's readers concerned about the place of religious faith in economic policy.

Black, Indigenous, and Peoples of Color--reimagine library and information science through the lens of critical race theory. In *Knowledge Justice*, Black, Indigenous, and Peoples of Color scholars use critical race theory (CRT) to challenge the foundational principles, values, and assumptions of Library and Information Science and Studies (LIS) in the United States. In *Indian Justice*, Grant Foreman presents John Howard Payne's first-hand account of the trial of Archilla Smith, a Cherokee charged with the murder of John MacIntosh in the fall of 1839. The Cherokee Supreme Court at Tahlequah (in present-day Oklahoma) found Smith guilty and sentenced him to die. Occurring immediately after the Cherokee Removal to west of the Mississippi River, the trial involved people on both sides of the bitter factional controversies then raging in the Cherokee nation. Payne's account of this important Indian case first appeared in two installments in the *New York Journal of Commerce* in 1841. In his foreword to

this new edition, Rennard Strickland places the case in historical and contemporary context, exploring the evolution of tribal court systems and Indian justice over the past century and a half.

Justice: What's the Right Thing to Do? Farrar, Straus and Giroux

An Equal Justice Crooked Lane Books

A pathbreaking work for the next stage of the #MeToo movement, showing how we can address sexual harms with fairness to both victims and the accused, and exposing the sexism that shapes today's contentious debates about due process. Over the past few years, a remarkable number of sexual harassment victims have come forward with their stories, demanding

consequences for their assailants and broad societal change. Each prominent allegation, however, has also set off a wave of questions – some posed in good faith, some distinctly not – about the rights of the accused. The national conversation has grown polarized, inflamed by a public narrative that wrongly presents feminism and fair process as warring interests. *Sexual Justice* is an intervention, pointing the way to common ground. Drawing on core principles of civil rights law, and the personal experiences of victims and the accused, Alexandra Brodsky details how schools, workplaces, and other institutions can – indeed, must – address sexual harms in ways fair to all. She shows why these allegations cannot be left to police and prosecutors alone, and

outlines the key principles of fair proceedings outside the courts. Brodsky explains how contemporary debates continue the long, sexist history of “rape exceptionalism,” in which sexual allegations are treated as uniquely suspect. And she calls on readers to resist the anti-feminist backlash that hijacks the rhetoric of due process to protect male impunity. Vivid and eye-opening, at once intellectually rigorous and profoundly empathetic, *Sexual Justice* clears up common misunderstandings about sexual harassment, traces the forgotten histories that underlie our current predicament, and illuminates the way to a more just world.

Little Book of Restorative Justice

Vintage Crime/Black Lizard

A renowned Harvard professor's brilliant, sweeping, inspiring account of the role of justice in our society--and of the moral dilemmas we face as citizens What are our obligations to others as people in a free society? Should government tax the rich to help the poor? Is the free market fair? Is it sometimes wrong to tell the truth? Is killing sometimes morally required? Is it possible, or desirable, to legislate morality? Do individual rights and the common good conflict? Michael J. Sandel's "Justice" course is one of the most popular and influential at Harvard. Up to a thousand students pack the

campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day, and this fall, public television will air a series based on the course. Justice offers readers the same exhilarating journey that captivates Harvard students. This book is a searching, lyrical exploration of the meaning of justice, one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways. Affirmative action, same-sex marriage, physician-assisted suicide, abortion, national service, patriotism and dissent, the moral limits of markets—Sandel dramatizes the challenge of thinking through these conflicts, and shows how a surer grasp of philosophy can help us make sense of politics, morality, and our

own convictions as well. Justice is lively, thought-provoking, and wise—an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life.

Justice brings together in one indispensable volume essential readings on justice and moral reasoning. With readings from major thinkers from the classical era up to the present, the collection provides a thematic overview of the concept of justice. Moreover, Sandel's organization of the readings and his own commentaries allow readers to engage with a variety of pressing contemporary issues. Looking at a host of ethical dilemmas, including affirmative action, conscription, income distribution, and gay rights, from a

variety of angles—morally, legally, politically—the collection engages with the core concerns of political philosophy: individual rights and the claims of community, equality and inequality, morality and law, and ultimately, justice. With concise section introductions that put the readings in context, this anthology is an invaluable tool for students, teachers, and anyone who wishes to engage in the great moral debates that have animated politics from classical times to our own.

Vengeance and bitter violence have had their turns -- without redemptive results. How should we as a society respond to wrongdoing? When a crime occurs or an injustice is done, what needs to happen? What does justice require? Howard Zehr, known worldwide for his pioneering work in transforming our understandings of justice, here proposes workable

Principles and Practices for making restorative justice both possible and useful. First he explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach, into theoretical space, Zehr presents *Restorative Justice Practices*. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This is a handbook, a vehicle for moving our society toward healing and wholeness. This is a sourcebook, a starting point for handling brokenness with hard work and hope. This resource is also suitable for academic classes and workshops, for conferences and trainings. “A moving and beautifully crafted memoir.”—SCOTT TUROW “A daring act of justified defiance.”—SHAKA SENGHOR
“Nothing less than heroic.”—JOHN GRISHAM He was seventeen when an all-white jury sentenced him to prison for a crime he didn't commit. Now a pioneering lawyer, he recalls the journey that led to his exoneration—and inspired him to devote his life to fighting the

many injustices in our legal system. Seventeen years old and facing nearly thirty years behind bars, Jarrett Adams sought to figure out the why behind his fate. Sustained by his mother and aunts who brought him back from the edge of despair through letters of prayer and encouragement, Adams became obsessed with our legal system in all its damaged glory. After studying how his constitutional rights to effective counsel had been violated, he solicited the help of the Wisconsin Innocence Project, an organization that exonerates the wrongfully convicted, and won his release after nearly ten years in prison. But the journey was far from over. Adams took the lessons he learned through his incarceration and worked his way through law school with the goal of

helping those who, like himself, had faced our legal system at its worst. After earning his law degree, he worked with the New York Innocence Project, becoming the first exoneree ever hired by the nonprofit as a lawyer. In his first case with the Innocence Project, he argued before the same court that had convicted him a decade earlier—and won. In this illuminating story of hope and full-circle redemption, Adams draws on his life and the cases of his clients to show the racist tactics used to convict young men of color, the unique challenges facing exonerees once released, and how the lack of equal representation in our courts is a failure not only of empathy but of our collective ability to uncover the truth. Redeeming Justice is an unforgettable firsthand

account of the limits—and possibilities—of our country’s system of law.
