Digital Governor Heinzmann

GmbH CoDigital Speed

Governors HEINZMANN

governors are

recognised for their

great reliability and

durability along with

their excellent performance. Available in a wide range, these speed governors are perfectly configurable in order to meet any application's requirements. Digital Governor - HEINZMANN GmbH & Co. KG Digital Governors - HEINZMANN GmbH & Co. KG Digital Governors for Marine Propulsion Engines HEINZMANN governors are employed in the propulsion engines of most marine engine manufacturers worldwide, operating in cargo vessels, cruise ships, dredgers, high-speed ferries and navy vessels. Digital Governors - HEINZMANN GmbH & Co. KG HEINZMANN digital governor systems are proven since decades, used by reputable industrial

engine manufacturers. They offer excellent governing performance and master the challenging operating conditions of agricultural machinery, construction vehicles, mining vehicles, and the like. Digital Speed Control - HEINZMANN GmbH & Co. KG The range of integrated governors combines the functionality of HEINZMANN actuators and speed governors in a compact unit, thereby ensuring flexibility in mounting positions and interchangeability with other proprietary units. Integrated Governor - HEINZMANN GmbH & Co. KG Heinzmann - XIOS UC - Digital Speed Governors by Heinzmann GmbH & Co. KG. The modular, universal XIOS

controller presents an entirely new generation of ECU. It consists of a high-performance main board with high CPU power, large DRAM and FLASH memory...
