Nonfiction Reading, Grade 6 Evan-Moor

The most daunting tasks of writing-revision and editing-just became easier and more manageable with the publication of this book. Ruth Culham

targets specific skills with short, powerful activities that help students gain independence and confidence as they revise their work for ideas, organization, voice, word choice, and sentence fluency, and edit it for conventions. The book contains 180 reproducible/downloadable activities-one for each day of the school year-on paper and CD. Plus think-about, scoring guides, checklists, and more. For use with Grades 3 and up.

Around the World in Seventy-Two Days

Daily Reading Comprehension

From Newbery media winner Karen

Hesse comes an unforgettable story of

an immigrant family's journey to America. "America," the girl repeated. "What will you do there?" I was silent for a little time. "I will do everything there," I answered. Rifka knows nothing about America when she flees from Russia with her family in 1919. But she dreams that in the new country she will at last be safe from the Russian soldiers and their harsh treatment of the Jews. Throughout her journey, Rifka carries with her a cherished volume of poetry by Alexander Pushkin. In it, she records her observations and experiences in the form of letters to Tovah, the beloved cousin she has left behind. Strong-hearted and determined, Rifka must endure a great deal: humiliating examinations by doctors and soldiers, deadly typhus, separation from all she

has ever known and loved, murderous storms at sea, detainment on Ellis Island—and is if this is not enough, the loss of her glorious golden hair. Based on a true story from the author's family, *Letters from Rifka* presents a real-life heroine with an uncommon courage and unsinkable spirit.

Students need more than basic math skills to solve problems; they must also use logical and abstract thinking to discover how to solve problems. The activities in this book do more than provide students with lots of practice solving problems. They give students the tools to apply appropriate strategies to solve problems in a variety of math skill areas.
