Sagasti's second book to appear in English takes the guise of a musical scheherazade, recounting story after story, vibrating to celestial harmonies.

From the music born of the sun to the music sent into space on the Voyager mission, from Rothko to rock music, from the composers of the concentration camps to a weeping room for Argentinian conscripts in the Falklands, A Musical Offering traverses the shifting sands of fiction

Since the end of the Cold War, United Nations peace operations have become an established and prominent feature of world politics. From Liberia to East Timor, the UN now carries out extensive governance-related functions and is a significant political force in Southern states and societies. Here Richard Al-Qaq leads us to a radical new understanding of the UN and its role in international politics. He uncovers the political and socio-economic import of such 'peace' activities

for subject societies, and raises important questions about the functioning and dynamics of the global political order. A critical view of the internal process of programmatic reform within the UN is elaborated by detailed studies of the politics of UN peace operations in three seminal cases of the 1990s, in Somalia, Rwanda and Angola. This book is essential for understanding the new role of the UN, especially in Africa, and the politics of so-called humanitarian intervention and peace-building.
