Winning with People
Workbook Center Street
#1 New York Times
bestselling author John C.
Maxwell's latest book will
enhance the lives of
leaders, professionals,
and anyone who wants to
achieve success and
personal growth. We often

treat the word capacity as
if it were a natural law of
limitation. Unfortunately,
most of us are much more
comfortable defining what
we perceive as off limits
rather than what's really
possible. Could it be that
many of us have failed to
expand our potential
because we have allowed
what we perceive as
capacity to define us?
What if our limits are not
really our limits? In his

newest book, John
Maxwell identifies 17 core
capacities. Some of these
are abilities we all already
possess, such as energy,
creativity and leadership.
Others are aspects of our
lives controlled by our
choices, like our attitudes,
character, and
intentionality. Maxwell
examines each of these
capacities, and provides
clear and actionable
advice on how you can

increase your potential in each. He will guide you on how to identify, grow, and apply your critical capacities. Once you've blown the "cap" off your capacities, you'll find yourself more successful--and fulfilled--in your daily life.

 John C. Maxwell, #1 New York Times bestselling author, helps readers take the first steps to living a

life that matters in Intentional Living. We all have a longing to be significant. We want to make a contribution, to be a part of something noble and purposeful. But many people wrongly believe significance is unattainable. They worry that it's too big for them to achieve. That they have to have an amazing idea, be a certain age, have a lot of money, or be powerful or famous to make a real difference. The good news is that none of those things is necessary for you to

achieve significance and create a lasting legacy. The only thing you need to achieve significance is to be intentional. And to do that, all you need to do is start. You can't make an impact sitting still and doing nothing. Every major accomplishment that's ever been achieved started with a first step. Sometimes it's hard; other times it's easy, but no matter what, you have to do it if you want to get anywhere in life. In Intentional Living, John Maxwell will help you take that first step, and the

ones that follow, on your personal path through a life that matters.

What is the one quality that all successful people have in common? They have mastered the art of dealing with people! Let this book show you how to: Achieve your goals Handle the human ego Become a master conversationalist Make others feel good about

themselves And much more! Skill with people is the one essential ingredient for success and happiness at home and in business. "The Art of Dealing With People" gives you the skills to take your people skills to a level that you never thought possible! Skill in human relations is similar to skill in any other field, in that success depends on understanding and mastering certain basic general principles. You must not only know what to do, but why you're doing it. As far as basic

principles are concerned, people are all the same. Yet each individual person you meet is different. If you attempted to learn some gimmick to deal successfully with each separate individual you met, you would be face with a hopeless task. Influencing people is an art, not a gimmick. When you apply gimmicks in a superficial, mechanical manner, you go through the same motions as the person who "has a way," but it doesn't work for you. The purpose of this book is to give you

knowledge based upon an understanding of human nature: why people act the way they do. The methods presented in this book have been tested on thousands of people who have attended my human relations seminars. They are not just my pet ideas of how you should deal with people, but ideas that have stood the test of how you must deal with people. That is, if you want to get along with them and get what you want at the same time. Yes, we all want success and happiness. And the

day is long past, if it ever existed, when you could achieve these goals by forcing people to give you what you want. And begging is no better, for

no one has respect for, or any desire to help, the person who constantly kowtows and literally goes around with his hand out, begging other people to like him. The one

successful way to get the things you want from life is to acquire skill in dealing with people. Download now and you will learn how.
