A less-expensive grayscale paperback version is available. Search for ISBN 9781680923018. Business Law I Essentials is a brief introductory textbook designed to meet the scope and sequence requirements of courses on Business Law or the Legal Environment of Business. The concepts are presented in a streamlined manner, and cover the key concepts necessary to establish a strong foundation

in the subject. The textbook follows a traditional approach to the study of business law. Each chapter contains learning objectives, explanatory narrative and concepts, references for further reading, and end-of-chapter questions. Business Law I Essentials may need to be supplemented with additional content, cases, or related materials, and is offered as a foundational resource that focuses on the baseline concepts, issues, and approaches.

The new, ninth edition of the Essentials of Business Law program is a practical, concise, and broad-based introduction to the vibrant field of business law. Both the traditional areas of law, such as contracts and property, and the emerging areas of law, such as e-commerce and environmental, are covered in short, informative chapters written to capture the essence of each topic. The objective of the text throughout its coverage is ease—ease of use, ease of teaching, ease of assessment, and ease of understanding. It has been developed for those seeking a more fundamental overview of the concepts and principles that are vital to the understanding of business law. *Symonds & O'Toole on Delaware Limited Liability Companies* McGraw-Hill/Irwin

Unlike any other MIS textbook franchise, our Baltzan texts (Business Driven Technology, Business Driven Information Systems and M: Information Systems) discuss various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion in these texts first addresses the business needs and then addresses the technology that supports those needs. Business Driven Technology5e offers you the flexibility to customize your course according to your needs and the needs of your students by covering only essential concepts and topics in the five core units, while providing additional in-depth coverage in the business and technology plug-ins. This text contains 20 chapters, 20 business plug-ins, and 12 technology plug-ins offering you the ultimate flexibility in tailoring content to the exact needs of your MIS or IT course. The unique construction of this text allows you to cover essential concepts and topics in the five core units while providing you with the ability to customize a course and explore

certain topics in greater detail with the business and technology plug-ins. Plug-ins are fully developed modules of text that include student learning outcomes, case studies, business vignettes, and end-of-chapter material such as key terms, individual and group questions and projects, and case study exercises. We realize that instructors today require the ability to cover a blended mix of topics in their courses. While some instructors like to focus on networks and infrastructure throughout their course, others choose to focus on ethics and security. Business Driven Technology was developed to easily adapt to your needs. Each chapter and plug-in is independent so you can:

- \*Cover any or all of the chapters as they suit your purpose.
- \*Cover any or all of the business plug-ins as they suit your purpose.
- \*Cover any or all of the technology plug-ins as they suit your purpose.
- \*Cover the plug-ins in any order you wish.

3 things to know about the focus of Dynamic Business Law, 2e: Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included

in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasises the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration. Dynamic Business Law now includes Connect Business Law as a packaging option. Connect includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics. Overview: Dynamic Business Law, 2e is appropriate for the two-term business law course. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to

know how this is integrated as they are constantly “defending” the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Instructor's Supplements: The Online Learning Center contains the complete IM, Test Bank, PowerPoint, image library, and video clips. Instructor's Manual: The Instructor's Manual provides a clear outline of how to begin using this text and

is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay questions - as well as “scenario-based” questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well.

PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College, we offer two different sets of slides for professors. The “Basic” set consists of an outline of each chapter. The “Premium” set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses. Dynamic Business Law Cengage Learning This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Visually engaging, enticing and current examples with an overall focus on business. Business Law continues to be the most engaging text for readers by

featuring a visually appealing format with enticing and current examples while maintaining its focus on business. Readers will learn business law, ethics, and the legal environment in a way that will encourage them to ask questions and go beyond basic memorization.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business

processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
