#1 NEW YORK TIMES BESTSELLER! At
one of the most chaotic periods in
American history, in a time of national
distrust and despair, one tanned TV host
holds the key to the future. In *How I
Saved the World*, Jesse Watters takes
readers on a tour of his life from
basement-dwelling Fox minion to
pampered champion of right-thinking

Americans. He has divined great truths
about the nature of our country while
stumbling across beaches asking
oblivious college students basic political
questions and while stumbling out of Air
Force One with the President.
Interspersed are his thoughtful
suggestions for overcoming left-wing
radicalism, maintaining American
democracy, moving beyond aging
hippies (like his long-suffering, loving
parents), saving the world from social
justice warriors and the deep state--all
while smirking his way through life in
only the nicest way. Watters outlines the

stark choice ahead of us between all-American hamburgers and leftist Green New Deal breadlines (okay, maybe that one is a no-brainer) and shows the way for order and fairness to be restored. A manifesto and a call-to-arms from a man for all seasons, *How I Saved the World* is a hilarious, enlightening, entertaining book with a reasonable chance of winning a Nobel Prize in every category, even chemistry.

“Izzard is one of the funniest people alive, a talented actor, a sharp cross-dresser, an experienced marathon runner, and a great writer. You will have

to read this if only to find out what a jazz chicken is.”—The Philadelphia Inquirer
With his brand of keenly intelligent humor that ranges from world history to historical politics, sexual politics, mad ancient kings, and chickens with guns, Eddie Izzard has built an extraordinary fan base that transcends age, gender, and race. Writing with the same candor and insight evident in his comedy, he reflects on a childhood marked by the loss of his mother, boarding school, and alternative sexuality, as well as a life in comedy, film, politics, running and philanthropy. Honest and generous, *Believe Me* is an inspired account of a very singular life thus far.

“Puts campus activism in a radical historic context.”—New York Review of Books In the post-World War II period, students rebelled against the university establishment. In student-led movements, women, minorities, immigrants, and indigenous people demanded that universities adapt to better serve the increasingly heterogeneous public and student bodies. The success of these movements had a profound impact on the

intellectual landscape of the twentieth century: out of these efforts were born ethnic studies, women’s studies, and American studies. In *We Demand*, Roderick A. Ferguson demonstrates that less than fifty years since this pivotal shift in the academy, the university is moving away from “the people” in all their diversity. Today the university is refortifying its commitment to the defense of the status quo off campus and the regulation of students, faculty, and staff on campus. The progressive forms of knowledge that the student-led movements demanded and helped to produce are being attacked on every front. Not only is this a reactionary move against the social advances since the ‘60s and ‘70s—it is part of the larger threat of anti-intellectualism in the

United States.

Comedian Lewis Black unleashes his trademark subversive wit while recounting his own life story in his New York Times bestselling memoir. You've seen him on The Daily Show with Jon Stewart offering up his trademark angry observational humor on everything from politics to pop culture. You've seen his energetic stand-up performances on HBO, Comedy Central, and in venues across the globe. Now, for the first time, Lewis Black translates his volcanic eruptions into book form in *Nothing's Sacred*, a collection of rants against stupidity and authority, which oftentimes go hand in hand. With subversive wit and intellectual honesty, Lewis examines the events of his life that shaped his

antiauthoritarian point of view and developed his comedic perspective. Growing up in 1950s suburbia when father knew best and there was a sitcom to prove it, he began to regard authority with a jaundiced eye at an early age. And as that sentiment grew stronger with each passing year, so did his ability to hone in on the absurd. True to form, he puts common sense above ideology and distills hilarious, biting commentary on all things politically and culturally relevant. "No one is safe from Lewis Black's comic missiles." (New York Times) You have been warned....

From the comedian, actor, and former host of The Late Late Show comes an irreverent, lyrical memoir in essays

featuring his signature wit. Craig Ferguson has defied the odds his entire life. He has failed when he should have succeeded and succeeded when he should have failed. The fact that he is neither dead nor in a locked facility (at the time of printing) is something of a miracle in itself. In Craig's candid and revealing memoir, readers will get a look into the mind and recollections of the unique and twisted Scottish American who became a national hero for pioneering the world's first TV robot skeleton sidekick and reviving two dudes in a horse suit dancing as a form of entertainment. In *Riding the Elephant*, there are some stories that are too graphic for television, too politically incorrect for social media, or too meditative for a stand-up comedy

performance. Craig discusses his deep love for his native Scotland, examines his profound psychic change brought on by fatherhood, and looks at aging and mortality with a perspective that he was incapable of as a younger man. Each story is strung together in a colorful tapestry that ultimately reveals a complicated man who has learned to process—and even enjoy—the unusual trajectory of his life.

Six-time Emmy Award-winning funny man Tim Conway, best known for his roles on The Carol Burnett Show, offers a straight-shooting and hilarious memoir about his life on stage and off as an actor and comedian. In the annals of TV history, few entertainers have captured as many hearts, tickled as many funny bones, and brought as many families together in living rooms across America as Tim Conway. In What's So Funny? he brings his hilarious hijinks from the screen to the page. Conway's often-

improvised humor, razor-sharp timing, and hilarious characters have made him one of the funniest and most authentic performers to grace the stage and studio. As Carol Burnett has said, “there’s no one funnier” than Tim Conway. Now, Conway takes us on a seventy-year, rags-to-riches journey that is touchingly comical and ultimately inspiring, from his pranks in small Ohio classrooms during the Great Depression to his pitch-perfect performances on national TV and in major motion pictures. Along the way, Conway shares hilarious and often moving accounts of the glory days of *The Carol Burnett Show*; his famous partnerships with entertainment greats like Harvey Korman, Don Knotts, and Dick Van Dyke; and his friendships with stars like Betty

White, Bob Newhart, and, of course, Carol Burnett, who also provides an intimate foreword to the book. As Conway continues to tour the country giving live comedy performances that enchant his always eager audiences, *What’s So Funny?* brings his warmth, humor, and heart to delight and inspire fans everywhere.

American on Purpose Harper Collins
Outrageous, raw, and painfully funny true stories straight from the life of the actor, comedian, and much-loved cast member of *The Howard Stern Show*—with a foreword by Howard Stern. When Artie Lange joined the permanent cast of *The Howard Stern Show* in 2001, it was possibly the greatest thing ever to happen in the Stern universe, second only to the show’s move to the wild,

uncensored frontier of satellite radio. Lange provided what Stern had yet to find all in the same place: a wit quick enough to keep pace with his own, a pathetic self-image to dwarf his own, a personal history both heartbreaking and hilarious, and an ingrained sense of self-sabotage that continually keeps things interesting. A natural storyteller with a bottomless pit of material, Lange grew up in a close-knit, working-class Italian family in Union, New Jersey, a maniacal Yankees fan who pursued the two things his father said he was cut out for—sports and comedy. Tragically, Artie Lange Sr. never saw the truth in that prediction: He became a quadriplegic in an accident when Artie was eighteen and died soon after. But as with every trial in his life, from his drug addiction to his obesity to

his fights with his mother, Artie mines the humor, pathos, and humanity in these events and turns them into comedy classics. True fans of the Stern Show will find Artie gold in these pages: hilarious tales that couldn't have happened to anyone else. There are stories from his days driving a Jersey cab, working as a longshoreman in Port Newark, and navigating the dark circuit of stand-up comedy. There are outrageous episodes from the frenzied heights of his coked-up days at MADtv, surprisingly moving stories from his childhood, and an account of his recent U.S.O. tour that is equally stirring and irreverent. But also in this volume are stories Artie's never told before, including some that he deemed too revealing for radio. Wild, shocking, and

drop-dead hilarious, *Too Fat to Fish* is Artie Lange giving everything he's got to give. And like a true pro, the man never disappoints.

“Brilliant . . . Ferguson’s guided tour of the often amusing, sometimes bizarre ways we remember Lincoln today . . . is heartening and even inspiring.” —Bill Kristol, *Time* Abraham Lincoln was our greatest president and perhaps the most influential American who ever lived. But what is his place in our country today? In *Land of Lincoln*, Andrew Ferguson packs his bags and embarks on a journey to the heart of contemporary Lincoln Nation, where he encounters a world as funny as it is poignant, and a population

as devoted as it is colorful. In small-town Indiana, Ferguson drops in on the national conference of Lincoln presenters, 175 grown men who make their living (sort of) by impersonating their hero. He meets the premier collectors of Lincoln memorabilia, prized items of which include Lincoln's chamber pot, locks of his hair, and pages from a boyhood schoolbook. He takes his wife and children on a trip across the long-defunct Lincoln Heritage Trail, a driving tour of landmarks from Lincoln's life. This book is an entertaining, unexpected, and big-hearted celebration of Lincoln's enduring influence on our country—and the people who help keep his spirit alive. "A hilarious, offbeat tour of Lincoln shrines, statues, cabins and museums . . . Mr. Ferguson maps it

expertly, with an understated Midwestern sense of humor that Lincoln, master of the funny story, would have been the first to appreciate." —William Grimes, *The New York Times*

 That Kevin Smith? The guy who did "Clerks" a million years ago? Didn't they bounce his fat ass off a plane once? What could you possibly learn from the director of "Cop Out"? How about this: he changed filmmaking forever when he was twenty-three, and since then, he's done whatever the hell he wants. He makes movies, writes comics, owns a store, and now he's built a podcasting empire with his friends and family, including a wife who's way out of his league. So here's some tough shit: Kevin

Smith has cracked the code. Or, he's just cracked. Tough Sh*t is the dirty business that Kevin has been digesting for 41 years and now, he's ready to put it in your hands. legs (like his beloved wife, Jen). So make this your daily reader. Hell, read it on the toilet if you want. Just make sure you grab the bowl and push, because you're about to take one Tough Sh*t.

My Autobiography Random House
"All disasters are in some sense man-made." Setting the annus horribilis of 2020 in historical perspective, Niall Ferguson explains why we are getting worse, not better, at handling disasters. Disasters are inherently hard to predict. Pandemics, like earthquakes, wildfires, financial crises, and wars, are not normally distributed; there is no cycle of history to help us anticipate the next catastrophe. But when disaster strikes, we ought to be better prepared than the

Romans were when Vesuvius erupted, or medieval Italians when the Black Death struck. We have science on our side, after all. Yet in 2020 the responses of many developed countries, including the United States, to a new virus from China were badly bungled. Why? Why did only a few Asian countries learn the right lessons from SARS and MERS? While populist leaders certainly performed poorly in the face of the COVID-19 pandemic, Niall Ferguson argues that more profound pathologies were at work--pathologies already visible in our responses to earlier disasters. In books going back nearly twenty years, including *Colossus*, *The Great Degeneration*, and *The Square and the Tower*, Ferguson has studied the foibles of modern America, from imperial hubris

to bureaucratic sclerosis and online fragmentation. Drawing from multiple disciplines, including economics, cliodynamics, and network science, Doom offers not just a history but a general theory of disasters, showing why our ever more bureaucratic and complex

systems are getting worse at handling them. Doom is the lesson of history that this country--indeed the West as a whole--urgently needs to learn, if we want to handle the next crisis better, and to avoid the ultimate doom of irreversible decline.
