*Never Let Go of My Hand* Simon and Schuster

A near-death experience in a car with her Mother; running from tear gas at a Vietnam War rally hand-in-hand with her Pop; a year in India learning side-by-side the country's 'untouchables;' the highs and lows of living on a rural Pennsylvania commune—and all before Fiona Sprechelbach's thirteenth birthday. Set during one of the most politically divisive eras in American

history, *Thread for Pearls* is a coming of age tale that takes us on a young heroine's journey to faith and freedom amidst a turbulent family dynamic. It's a story of resilient hope that questions whether it's the events of our lives that define us, or the thread on which we choose to string them.

Adolescent Depression Peter Rimmer  
Las Vegas was the Mob's greatest venture and most spectacular success, and through 40 years of frenzy, murder, deceit, scams, and skimming, the FBI listened on phone taps and did virtually nothing to stop the fun. This is the truth about the Mob's control of the casinos in Vegas like you've never heard it before, from start to finish. Two of the nation's

most powerful crime family bosses went to prison in the 1930's: Al Capone and Lucky Luciano. Frank Nitti took over the Chicago Outfit, while Frank Costello ran things for the Luciano Family. Both men were influenced by their bosses from prison, and both sent enough gangsters into the streets to influence loan sharking, extortion, union control, and drug sales. Bugsy Siegel worked for both groups, handling a string of murders and opening up gaming on the west coast, and that included Las Vegas, an oasis of sin in the middle of the desert - and it was legal. Most of it. The FBI watched as the Mob took control of casino after casino, killed off the competition, and stole enough money to bribe their way to respectability back home. By the 1950's, nearly every major crime family had a

stake in a Las Vegas casino. Some did better than others. Casino owners watched-over their profits while competing crime families eyed each other's success like jealous lovers. Murder often followed.

Gutsy reporter, Lark Chadwick once again finds herself at the wrong place at

the right time: front-row center when the White House press briefing room is suddenly attacked. The president is missing, the first lady's life is at risk, and Lark's personal life is falling apart when the man she loves disappears. In this story, author John DeDakis draws on his own personal pain the sudden death of his twenty-two year-old son Stephen in what promises to be a true page-turner. DeDakis also draws on his forty-five year journalism career (twenty-five years at CNN) to show the daily struggles that go on behind the scenes in day-to-day, deadline-a-minute journalism. Praise for *Bullet in the Chamber*: "Bullet in the Chamber manages to capture all of the intensity, grit and breathlessness of covering the presidency in an age of nonstop news and fierce competition.

Lark Chadwick stands out as a protagonist who is at once compelling and compulsively true to form. John DeDakis gets inside the head of a modern-day White House journalist who has no idea what's in store for her when she begins this rollercoaster of a ride.

Fundamentalism is alive and well and will affect every one of us if we don't fight it now, argues Stuart Sim. The collapse of the Argentinean economy, the rise of the far right, 9/11, suicide bombings in the Middle East, what ties these seemingly disparate phenomena together?

prophecy to the distant tribes of the world in the first book of this alternate Bronze Age fantasy series. The nomadic tribe Whisperers of the Gods have seen the vision. The gods are preparing to send a world-destroying flood to punish those who have corrupted and forgotten the old ways. Three are chosen—Tersh, Kareth, and Sha'di—to go out and deliver a message to the world: The gods must be appeased before it's too late. Leaving her children behind, Tersh must travel to the mountain kingdom of Matawe. She must also care for Kareth, who has been told since birth that he is destined for greatness, and whose overconfidence often leads him into danger. Meanwhile, Sha'di ventures off alone to find the people of the jungle, the Petzuhallpa. And while the jungle seems like a

paradise, Sha'di soon discovers the dark rituals practiced within. Guided by visions, these adventurers must use their wits to survive in these strange new lands that show little interest in their warnings.

Michael Savage attacks big government and liberal media bias. The son of immigrants, Savage shows how traditional American freedoms are being destroyed from the outside and undermined from within—not just our own government, but also from alien forces within our own society. Savage argues that if the price of liberty is eternal vigilance, then only a more "savage nation" will enjoy these liberties. Savage's high ratings and the rapid growth of his program prove he is in

touch with the concerns of the average American.

NATIONAL BOOK AWARD WINNER • NATIONAL BESTSELLER • An astonishing novel that traces the lives of a Scottish

family over a decade as they confront the joys and longings, fulfillments and betrayals of love in all its guises. In June of 1989 Paul McLeod, a newspaper publisher and recent widower, travels to Greece, where he falls for a young American artist and reflects on the complicated truth about his marriage.... Six years later, again in June, Paul's death draws his three grown sons and their families back to their ancestral home. Fenno, the eldest, a wry, introspective gay man, narrates the events of this unforeseen reunion. Far from his straitlaced expatriate life as a bookseller in Greenwich Village, Fenno is stunned by a series of revelations that threaten his carefully crafted defenses.... Four years farther on, in yet another June, a chance meeting on the Long

Island shore brings Fenno together with Fern Olitsky, the artist who once captivated his father. Now pregnant, Fern must weigh her guilt about the past against her wishes for the future and decide what family means to her. In prose rich with compassion and wit, *Three Junes* paints a haunting portrait of love's redemptive powers.

In the silence of the night, there is a sudden tapping at the side window of Eric Payson's grandmother's house. To a

young boy, this would be the chilling earliest recollection of the last few moments of his father's life. A haunting whisper echoes throughout the rest of his existence and challenges the steel of his character. The consequences of that tragic moment that night will set the course for Eric's eternal reminder. Rebellion and conflict find him a worthy opponent. The choices Eric makes may take him away from those who love him most. He struggles to find solace in a world whereby his very own hand creates strife and discord amongst everything it touches. Raw and undisciplined, his natural talents cannot temper the restlessness in his spirit. Even a mother's heart, which seeks to protect her child from the world, finds it a daunting task when she cannot protect

him from his own quandary.

Carl David is the third generation of a four-generation family art business in Philadelphia. He is the author of *Collecting & Care of Fine Art* published by Crown in 1981. His article about Martha Walter, an American Impressionist painter (1875-1976), was published in the *American Art Review* in May 1978. Mr. David's new book, *Bader Field*, embodies the emotional story of a son's loving relationship with his father a legendary art dealer whose life is suddenly taken by a massive coronary at the young age of fifty-eight years. His death plunges the twenty-four-year-old man onto the front lines of the family art business, which he had entered a mere

three years prior. Battling with his own grief while trying to help his adoring but fragile mother survive, David forges forward with all of the elemental tools his father imparted to him. His journey proves a difficult one, not having yet recovered from the horrific loss of his brother to suicide just eight years earlier when he was found dead on the fourth floor of the Rittenhouse Square townhouse, which was home to the prestigious David David Gallery. His self-imposed obligation is to successfully take the family art business to the next generation and to give his own children every bit of love, kindness, and wisdom bestowed upon him by the unique man whom they will never know other than the mark he left on everyone who knew him. Bader Field adds significant insight

into the mysterious workings and dealings of the art world. David speaks from experience of having been immersed in it all of his life and having lived it from the inside out. There will be a tremendous crossover interest in this book as it combines the elements of an American family, its goodness and its tragedy interfaced with the multifaceted aspects of the art business and flying small airplanes. Bader Field in Atlantic City was the oldest airfield in the country. With little sophistication, its two asphalt runways juggled single and twin engine aircraft exuded a character and charm that created memories to last a lifetime. That is where this saga begins and where it ends as life comes full circle.

First published in 1971, *Rules for Radicals* is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.
