This textbook will help you learn all the skills you need to pass all
Vehicle Electrical and Electronic Systems courses and
qualifications. As electrical and electronic systems become
increasingly more complex and fundamental to the workings of
modern vehicles, understanding these systems is essential for
automotive technicians. For students new to the subject, this
book will help to develop this knowledge, but will also assist

experienced technicians in keeping up with recent technological advances. This new edition includes information on developments in pass-through technology, multiplexing, and engine control systems. In full colour and covering the latest course specifications, this is the guide that no student enrolled on an automotive maintenance and repair course should be without. Designed to make learning easier, this book contains: Photographs, flow charts, quick reference tables, overview descriptions and step-by-step instructions. Case studies to help you put the principles covered into a real-life context. Useful margin features throughout, including definitions, key facts and 'safety first' considerations.

The "him" in Make Him Look Good is Ricky Biscayne, sexy Latin singing sensation who has taken the pop world by storm. But it takes more than swiveling hips and dreamy eyes to get to the top of the charts. The women who orbit Ricky are: -- Milan, Ricky's new publicist, and her sister Geneva whose Club G promises to have Miami's hottest opening ever -- Jill Sanchez, a media-manic

Latina star who has crossed over from CDs to perfume, clothes and movies -- Jasminka, Ricky's gorgeous Croatian model wife -- Irene, a firefighter whose high school romance with Ricky was the last love in her life, eking out an existence for herself and her daughter Sophia, who is beginning to suspect that she and Ricky Biscayne look a little too much alike With several satisfying romances set against Miami's music, club and modeling scenes, Make Him Look Good is irresistible fiction from one of America's most original voices.
