see the light of Christ that emerges from the dark hallways of Scriptures that so many find outdated, unintelligible, and irrelevant for today's Church. Learn how Christ is found in such things as prophecy, typology, and the law. Then, come in for a deeper study of how the Person himself is actually present, walking, speaking, and acting, beginning in the very first book of the Bible. Learn how words

such as "Word," "Name," "Glory," and "Wisdom" are all ideas that the Scripture itself attaches to Christ who in the OT is called The Angel of the LORD. Then see if such ideas don't radically change the way you think about all of God's word in this truly life-changing summary of Christ in the Old Testament. This edition contains three new chapters (Christ the Power, Christ the Face, and

Christ the Shepherd), has been reworked to make sections even clearer, contains new resources, and study questions. It is the perfect book for a study guide on Christ in the Old Testament."A certain kind of delight comes over the Christian when he or she discovers glorious truths in the Bible that were somehow missed or misinterpreted throughout one's life. I experienced this many

times in reading Pastor Van Dorn's insightful work. Surely, Christ is found throughout the Old Testament and his ministry precedes his achievements through the Incarnation." "50 Years with Car and Driver

commemorate the golden anniversary of the most popular car magazine on the planet. But more than that, 50 Years with Car and Driver tells the story of the American automobile and how the editors of the magazine witnessed that history and reported on it, firsthand. A look at how Car and Driver evolved from its beginnings as Sports Cars Illustrated, in the able hands of great automotive journalists such as Ken

Purdy and John Christy, and then came into it own as the musclecar era of the Sixties dawned. Writers such as David E. Davis, Jr., Brock Yates and Patrick Bedard helped to craft a literary car magazine that drew as much inspiration from Tom Wolfe's writing as it did from the great cars of the day." "Through the Seventies the magazine's reputation solidified as the technical authority on new cars, and

the literary tradition continued with such writers as Don Sherman and author P.J. O'Rourke." "Throughout the Eighties, the magazine prospered even when its writers went off the deep end - literally, getting stranded in Mexico during a Baja comparison test. Car and Driver watched over the virtual rebirth of the American car during that decade, with the renaissance at Ford through

the Taurus and the revival of the Corvette, while keeping its lock on the strongest feature writing in the auto magazines with stories like Brock Yates's thirty-years-past observance of the death of James Dean." "The Nineties saw Car and Driver continue its leadership as the world's largest-selling automotive magazine. From the introduction of the Acura NSX and the Mazda Miata to the brand-new

Mustangs and Corvettes that have come in just the past years, Car and Driver has been the authority that readers trust when it comes to 0-60 times, road tests and reviews." "Fifty Years with Car and Driver combines classic stories from the magazine, commentary by former staffers including the author, vintage and modern photos of the hottest and most important cars reviewed by

the magazines, as well as stories from behind the scenes - with all the attitude, expertise and visual excitement readers have come to expect from the magazine itself."--BOOK JACKET.

Biography, Literature. This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry.

<p>Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years.
