This book examines the evolution and journey of regional language television channels in India. First of its kind, it looks at the coverage, uniqueness, ownership and audiences of regional channels in 14 different languages across India, including Hindi, Bengali, Marathi, Telugu, Tamil, Urdu, Assamese, Bhojpuri, Gujarati, Kannada, Kashmiri, Odia, Punjabi, and Malayalam. It brings together researchers, scholars, media professionals, and communication teachers to document and reflect on language as

the site of culture, politics, market, and social representation. The volume discusses multiple media histories and their interlinkages from a subcontinental perspective by exploring the trajectories of regional language television in terms of geographical boundaries, state, language, identities, and culture. It offers comparative analyses across regional language television channels and presents interpretive insights on aspects of television culture and commerce, contemporary challenges, mass media technology and future relevance. Rich in empirical data, this book will be an essential read for scholars and researchers of media studies, television studies, communication studies, sociology, political studies, language studies, regional studies, and South Asian studies. It will also be useful to professionals and industry bodies in television media and broadcasting, journalists and television channels.

Events can be synonymous with a particular place, helping shape and promote a location. Given the rise of the global events industry, this book uncovers how events impact upon places and societies, looking at a range of different events and geographical scales. Geographers are concerned with how notions of space and place impact people, communities and identity, and events have played a central role in how places are perceived, consumed and even contested. This book will discuss international event cases to frame knowledge around the increased demands, pressures and complexities that globalisation, transnationalism, regeneration and competitiveness has put on events, places and societies.

Integrating discussions of theory and practice, this book will explore the range of conceptual perspectives linked to how geographers and sociologists understand events and the role events play in contemporary times. This involves recognizing histories and planning strategies, the purpose of bidding for an event or the local meanings that have emerged and changed in the place. This helps us analyse how events have the potential to redefine place identities. This international edited collection will appeal to academics across disciplines such as geography, planning and sociology, as well as students on events management and events studies courses.

Through the Year Taylor & Francis

Focus: Popular Music in Contemporary India examines India's musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift. From Bollywood film songs and Indo-jazz to bhangra hip-hop and Indian death metal, the book situates Indian popular music within critical and historical frameworks, highlighting the unprecedented changes the region's music has undergone in recent decades. This critical approach provides readers with a foundation for understanding an Indian musical culture that is as diverse and complex as the region itself. Included are case studies featuring song notations, first-person narratives, and interviews of well-known artists and emerging musicians alike. Illuminated are issues of great import in India today—as reflected through its music—addressing questions of a "national" aesthetic, the effects of Western music, and identity politics as they relate to class,

caste, LGBTQ perspectives, and other marginalized voices. Presented through a global lens, Focus: Popular Music in Contemporary India contextualizes the dynamic popular music of India and its vast cultural impact.

It's the 1960s and Mirauca is not ready for independence, but the Americans want one of its dependencies for its latest military base in the Indian Ocean. The British ensure this colony of theirs is granted independence without delay and even forcibly remove all the dependency's inhabitants to Mirauca. Lovena Pillay and Robert Laurent are students - and lovers - in London at the time and they vow to fight for the return of the uprooted islanders to their atoll. Once back home, the pair find Mirauca a near-bankrupt country where even graduates can't find work.

Protagonist Pillay creates her own employment by forming a political party and she and Laurent become arch political rivals. Unlike conventional story telling, part of East of Africa, South of India is told in the 'fourth person' - through the pages of the written media. This tongue-in-cheek account shows what can happen when too much power is achieved by novice politicians in the name of democracy and the upshot is a satire on Third World politics. Now Lady Lovena Patten and Baron Sir Robert Laurent, the former lovers are finally reconciled - but they're no ordinary lovers. Before long they discover that when it comes to fighting for the survival of their parties, love and politics don't mix.

Evaluating Trade and Economic Relations Between India and Southeast Asia Lonely Planet

This book explores an innovative set of critical narratives, accounts and engagements by different authors about their professional mobility and how that relates to the discipline and their life experiences. Human Geography and Professional Mobility seeks to encourage, influence, and help students understand geographic concepts based on critical reflections, international experiences, and practical insight laid out in stories of real people, real geographers, and real college faculty, that students can relate to. This volume is less theoretical and more personal insight-based, wherein first-hand and personal accounts of practical experiences are explored, which renders the text supplementary reading for human geography, population geography, world geography, and migration/mobility classes. With critical navigation of spaces in response to several geographical questions, this book offers a novel perspective on professional mobility of geographers which will be of interest to students and academics in the fields of geography, tourism, sociology, and anthropology.

Owing to a strong cultural and historical bond, India and Southeast Asia have progressed rapidly. Though there are political and ideological differences between these two entities, it may not hamper the strong bond as there are many common shared values among these nations. The history of these nations identifies that the cooperation between them in terms of trade and commerce is not upheld per the given potential of these nations. In the past, the Indian economy was linked with Southeast Asian countries under the "Look East" policy, which has been re-energized again under the present government.

Now, the “Look East” policy is practically more vibrant than ever before with the motto “Act East.” This policy facilitates these countries in emphasizing the importance of better regional connectivity for tourism as well as robust trade and commerce. It leads to a phenomenal growth in terms of imports and exports for these countries. *Evaluating Trade and Economic Relations Between India and Southeast Asia* sheds light on the trade and economic linkages between India and Southeast Asia and their impact on the nations in the past, present, and for the future. The chapters study whether the win-win strategy works for the strengthening of these countries in terms of both trade relations and political integrity, as well as in facing common enemies across international boundaries. Some of the topics covered include food security, tourism opportunities, trade blocs, trade relations, and economic relations between countries. This book is a valuable reference tool for economists, government officials, policymakers, trade analysts, practitioners, researchers, academicians, and students interested in the policies and relations between India and Southeast Asia that affect trade and the economy.

The COVID-19 Pandemic, India and the World OrangeBooks Publication

Since the 1960s the number of Indian immigrants and their descendants living in the United States has grown dramatically. During the same period, the make-up of this community has also changed—the highly educated professional elite who came to this country from the subcontinent in the 1960s has given way to a

population encompassing many from the working and middle classes. In her fascinating account of Indian immigrants in New York City, Madhulika S. Khandelwal explores the ways in which their world has evolved over four decades. How did this highly diverse ethnic group form an identity and community? Drawing on her extensive interviews with immigrants, Khandelwal examines the transplanting of Indian culture onto the Manhattan and Queens landscapes. She considers festivals and media, food and dress, religious activities of followers of different faiths, work and class, gender and generational differences, and the emergence of a variety of associations. Khandelwal analyzes how this growing ethnic community has gradually become “more Indian,” with a stronger religious focus, larger family networks, and increasingly traditional marriage patterns. She discusses as well the ways in which the American experience has altered the lives of her subjects.

The Routledge Handbook of Translation and Activism Oxford University Press

This book presents the story of growth and change of what is still a largely unorganized food and beverage service industry in India. With the authors’ vast experience in both industry and academia, the volume provides a holistic perspective of the current status of the food and beverage industry in India and identifies the topical issues and the challenges. The authors offer an insightful discussion on where the industry is headed and how it can move from top-line driven growth to a bottom-line supported one.
