Rewriting Biblical History Penguin
John H. Stanfield II, the leading contemporary Black sociologist of knowledge, distills decades of his research and thinking in a set of articles—some original to the volume, others from fugitive sources—that address race in the formation of epistemologies, theories, and methodologies in social science. Stanfield’s contributions to the discipline, such as the adoption of

restorative justice as an anti-racism solution in multiracial societies and the development of African diasporic sociological reasoning, are highlighted here. Ranging widely across theoretical, methodological, and substantive topics, Stanfield creates a reflective sociology viewed through an African diasporic lens that enriches the thinking and practice of social science.

Historicizing Fear is a historical interrogation of the use of fear as a tool to vilify and persecute groups and individuals from a global perspective, offering an unflinching look at racism, fearful framing, oppression, and marginalization across human history. The book examines fear and Othering from a historical context, providing a better understanding of how power and oppression is used in the present day. Contributors ground their work in the theory of Othering—the reductive action of labeling a person as someone who belongs to a subordinate social category defined as the Other—in

relation to historical events, demonstrating that fear of the Other is universal, timeless, and interconnected. Chapters address the music of neo-Nazi white power groups, fear perpetuated through the social construct of black masculinity in a racially hegemonic society, the terror and racial cleansing in early twentieth-century Arkansas, the fear of drug-addicted Vietnam War veterans, the creation of fear by the Tang Dynasty, and more. Timely, provocative, and rigorously researched, *Historicizing Fear* shows how the Othering of members of different ethnic groups has been used to propagate fear and social tension, justify state violence, and prevent groups or individuals from gaining equality. Broadening the context of how fear of the Other can be used as

a propaganda tool, this book will be of interest to scholars and students of history, anthropology, political science, popular culture, critical race issues, social justice, and ethnic studies, as well as the general reader concerned with the fearful framing prevalent in politics. This work is an examination of the black conservative phenomenon in the United States in contemporary times. The author looks at the role black conservatives play in American politics and at their attempts to have an impact on the lives of black Americans, also known as African Americans. Subjects covered include perspectives black conservatives share on issues such as affirmative action, racism, poverty, self-reliance, welfare, drugs, crime and illegitimacy among blacks; the criminal

justice system and how it affects blacks; and why black conservatives differ with other blacks on those issues. It is also a critique of "The Bell Curve," a book that has inflamed passions especially among blacks, and of the views some black conservatives have expressed on racial IQ differences which have fueled debate on this highly explosive subject. The author also looks at the policy and philosophical differences and at differences in perceptions between black conservatives and their brethren in the black community. Why do black conservatives oppose affirmative action? Why do they support the Republican party? Why don't they have much support in the black community? Those are just some of the issues addressed in this book. The author writes from

personal experience after living and interacting with African Americans of all ideological stripes for more than 30 years. His interest in Black America spans the ideological spectrum and covers other aspects of life including relations between Africans and African Americans. He has written a book about those relations in which he also addresses the black conservative phenomenon in the United States. Like all his others books, "Black Conservatives in the United States" is intended for members of the general public and the academic community. We the Who? Xlibris Corporation

America was formed based on a vision of democracy where supreme power is supposed to be vested in the people. In We the Who? author Brett H. Lewis asks if Americans are losing sight of who "we the people" are and, more importantly, who we need to be in order to regain our collective identity and ensure America's continued growth and greatness. We the Who? presents a collection of essays and opinions that probe into the nuts and bolts of current issues facing America today. Lewis tackles the subjects of classism, racism, justice, politics, the military, and the economy. Through these discussions, he encourages the American populace to be alert and aware to ensure that government of the people, by the people, and for the people continues to be at the forefront of

today's America. Drawing from history, logic, social inclinations, religious beliefs, and personal experiences, *We the Who?* seeks to inform the public and to encourage them to ask questions, express opinions, and hold elected leaders accountable. It communicates the necessity to be informed in order to make quality decisions about our lives. *Policing Black and Brown Bodies* Beacon Press

Across America, the pure love and popularity of barbecue cookery have gone through the roof. Prepared in one regional style or another, in the South and beyond, barbecue is one of the

nation's most distinctive culinary arts. And people aren't just eating it; they're also reading books and articles and watching TV shows about it. But why is it, asks Adrian Miller—admitted 'cuehead and longtime certified barbecue judge—that in today's barbecue culture African Americans don't get much love? In *Black Smoke*, Miller chronicles how Black barbequers, pitmasters, and restauranteurs helped develop this cornerstone of American foodways and how they are coming into their own today. It's a smoke-filled story of Black perseverance, culinary innovation, and entrepreneurship. Though often pushed to the margins, African Americans have enriched a barbecue culture that has come to be embraced by all. Miller celebrates and restores the faces and

stories of the men and women who have influenced this American cuisine. This beautifully illustrated chronicle also features 22 barbecue recipes collected just for this book.

In the early 1980's, a violent kidnapping leaves several people dead on the C&O Canal Towpath near Georgetown, Washington, D.C. Several days later, a parachutist is found dead, hanging upside down from a tree in the Virginia countryside. The two events seem unrelated, especially to Will MacKenzie, the man who discovers the dead parachutist while walking his dog. MacKenzie, a Viet Nam veteran, is familiar with parachutes, but is puzzled by the color of the parachute as well as the color of the parachutists clothing: all

colors are black and the face of the dead man is covered in black camouflage. Additional black parachutes are found by his dog nearby, but these are attached to heavy, black duffle bags. A wrapped packet of hundred dollar bills is partially exposed, next to a small rip in one of the bags. This discovery could change his life, as he is struggling to recover from alcoholism and depression, problems that have caused him to lose his job, his family, and his friends. Faced with a choice of reporting his gruesome find to the authorities, or keeping the bags that may hold a great deal of money, MacKenzie takes the duffle bags to his mountain cabin to examine their contents without being disturbed. He is unaware that his lucky find is part of a large ransom payment. MacKenzies

decision to keep the moneybags triggers a trail of violence, as killers from the Mafia, a D.C. drug gang, and a Colombian Drug Cartel, form an unholy alliance to search for the missing ransom. The cast of characters includes the veteran who is trying to rebuild his life, and a woman of wealth, privilege, and power, who find each other as they attempt to escape the tentacles of a billion dollar Drug Empire. A corrupt deputy sheriff and a philanthropist with a secret stand in their way.

 Ever since I came into being, I've often wondered about the real purpose for my existence. I observe the surrounding elements, the sun, the moon, the astronomical number of stars and

galaxies, and to be a part of this universal expanse, makes me believe that there is much more to this equation, than being born, live, then die. I arrived on this earth through the African bloodline and it didn't take long to notice the vast discrepancies amongst the races, where Africans are thoroughly overlooked on the world stage. We are underrepresented in regards to important decisions been made above our heads and disrespect of the Black race is "IN YOUR FACE" blatant. A Black person born today will endure the same fate as Black people did a hundred years ago and the system is designed to maintain Africans in the same dependent position for many generations to come. Black people in the western hemisphere has been geared to only strive for an

elusive equality, when reunification with Mother Africa should be our ultimate goal to achieve racial parity. THE ULTIMATE AFRICAN SOLUTION will solve all of Black people's problems and provide the whole African race with one hundred percent employment for this, and future generations. The negative effects that slavery and colonialism has on the African's psyche, must be affectedly nullified first and foremost, in order to step up in race. There are numerous steps to take to overcome the mental struggles caused from the enslavement of the mind syndrome and ridding the African race of "self-hate" tops the list. Africans!!! It is imperative that we revel in each other's successes and instead of willfully keeping ourselves down, we offer helping hands to pick

each other up. Africa is due reparation for the atrocities that our ancestors had to bear, in order for the two races here in question, to be able to truly coexist as nature intended. Fighting on their behalf, to make right them being wronged throughout five hundred years of recent history and still counting, will allow our deserving ancestors to finally rest in peace. THE ULTIMATE AFRICAN SOLUTION will be achieved without any human beings losing their lives. No one have to die.
