LANE KIERA

revista da comunidade judaica brasileira

Guilford Press
 The Carandiru House of Detention, in the teeming city of São Paulo, was the largest and most crowded prison in Latin America. Known as the 'Old House', it was also highly unusual in the way it was governed. Closed to the outside world, and even largely to the wardens, it was run almost entirely by the inmates themselves, who created a unique society complete with politics, hierarchies and a system of justice. In 1989, at the height of the AIDS epidemic in Brazil, with only a handful of physicians attempting to treat an inmate population of over 7,000, the medical situation at Carandiru was dire. A city doctor, Drauzio Varella, volunteered his

time at Carandiru over the course of thirteen years, in an effort to combat the rampant disease. As he gained the inmates' trust he was given access to their society, where he was overwhelmed by the profound humanity and freedom of spirit shown by these men, despite their terrible crimes and the inhuman conditions in which they lived. Lockdown is Varella's powerful depiction of life on the inside, wherein he recounts the prisoners' colourful and surprising stories. The book ends with the massacre by the police of the prisoners that ultimately brought down the 'Old House'.

This lively, practical text presents a fresh and comprehensive approach to doing qualitative research. The book offers a unique balance of theory and clear-cut choices for customizing every phase of a qualitative study. A scholarly mix of classic

and contemporary studies from multiple disciplines provides compelling, field-based examples of the full range of qualitative approaches. Readers learn about adaptive ways of designing studies, collecting data, analyzing data, and reporting findings. Key aspects of the researcher's craft are addressed, such as fieldwork options, the five phases of data analysis (with and without using computer-based software), and how to incorporate the researcher's "declarative" and "reflective" selves into a final report. Ideal for graduate-level courses, the text includes:* Discussions of ethnography, grounded theory, phenomenology, feminist research, and other approaches.* Instructions for creating a study bank to get a new study started.* End-of-chapter exercises and a semester-long, field-based project.* Quick study boxes, research vignettes, sample studies, and a glossary.*

Previews for sections within chapters, and chapter recaps.* Discussion of the place of qualitative research among other social science methods, including mixed methods research.

Reproduction of the original: The Crack of Doom by Robert Cromie

Empires of the Plain Stanford University Press

The translation of foreign language texts by computers was one of the first tasks that the pioneers of computing and artificial intelligence set themselves. Machine translation is again becoming an important field of research and development as the need for translations of technical and commercial documentation is growing well beyond the capacity of the translation profession. This is the first textbook of machine translation, providing a full course on both general machine translation systems characteristics and the computational linguistic foundations of the field. Machine Translation assumes no previous knowledge of the field and provides the basic background information to the linguistic and computational foundations of the subject. It is an invaluable text for students of computational linguistics, artificial intelligence, natural language processing, and information science.

Infinite Dendrogram: Lulu Press, Inc Compiles definitions of transportation terms used throughout the Department of Transportation and other U.S. government agencies. The terms are organized by their common name, with each term appearing in bold print and followed by its definition and the source citation. Specific documents, publications or databases used to compile the report are identified in a source index. Terms are cross-referenced within the document and within a term index.

In Another World With My Smartphone: Volume 7 Orb Books

Betrayed by her longtime vampire lover, cocktail waitress Sookie Stackhouse has her hands full dealing with every kind of undead and paranormal creature, as well as the new man in her life, the shapeshifter Quinn, and the upcoming vampire summit, which may involve a power struggle between the vampire queen of Louisiana, weakened by

hurricane damage, and some ambitious vamps out to seize control.

A guide for research Macmillan

Richly photographed and authentically local, LA Mexicano showcases LA's famously rich and complex Mexican-food culture, including recipes; profiles of chefs, bakers, restaurateurs, and vendors; and neighborhood guides. Part cookbook, part food journalism, and part love song to LA, it's the definitive resource for home cooks, hungry Angelenos, and food-loving visitors. With a foreword by Taco USA's Gustavo Arellano.

Qualitative Research from Start to Finish, First Edition DIANE Publishing

16-year-old Mochizuki Touya has it all. Grand Duke of an upstart nation, inventor of goods ranging from hula hoop to caramelized popcorn, administrator of Babylon, and pilot of the Anti-Phrase Frame Gears. The western nations love him... but darker machinations unfurl in the far east. Yulong, the glorious Empire of Heaven, regards Touya with envious eyes, brazen enough to send assassins into Brunhild! To make matters worse, the mysterious young girl known as Sakura seems to have a connection with these dark assailants. In the background, dark forces gather. Something big approaches. Something far greater than anything Touya has ever faced before. Brace yourself... for a tale of swords, sorcery, and absolute calamity.

Dylan's songs sound as if they have been part of the folk music tradition for centuries The Ballad of Bob Dylan examines the influences behind his songs. Through a combination of first hand accounts, reportage and a wealth of interviews with those who have known Dylan for decades The Ballad of Bob Dylan is the fullest picture yet of Dylan's work in the studio. The Ballad of Bob Dylan is a vivid portrait, nuanced and insightful, of the greatest songwriter of the twentieth-century.

A Financial History of the World Harper Collins

Presents excerpts from the early writings of the author, with reflections on her meetings with influential writers and intellectuals, her literary ambitions, and her criticisms of other writers.

Reborn HarperCollins UK

Corpus Linguistics for Translation and Contrastive Studies provides a clear and practical introduction to using corpora in

these fields. Giving special attention to parallel corpora, which are collections of texts in two or more languages, and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers, this book: explores the different types of parallel corpora available, and shows how to use basic and advanced search procedures to analyse them; explains how to compile a parallel corpus, and discusses their uses for translation purposes and to research linguistic phenomena across languages; demonstrates the use of corpus extracts across a wide range of texts, including dictionaries, novels by authors including Jane Austen and Mikhail Bulgakov, and newspapers such as The Sunday Times; is illustrated with case studies from a range of languages including Finnish, Russian, English and French. Written by two experienced researchers and practitioners, Corpus Linguistics for Translation and Contrastive Studies is essential reading for postgraduate students and researchers working within the area of translation and contrastive studies.

Rich Dad's Increase Your Financial IQ Penguin

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your

financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

An Introduction to Machine

Translation John Benjamins Publishing Company

THE family from which I am derived is not an ignoble one, but hath descended all along from the priests; and as nobility among several people is of a different origin, so with us to be of the sacerdotal dignity, is an indication of the splendor of a family. Now, I am not only sprung from a sacerdotal family in general, but from the first of the twenty-four courses; and as among us there is not only a considerable difference between one family of each course and another, I am of the chief family of that first course also; nay, further, by my mother I am of the royal blood; for the children of Asamoneus, from whom that family was derived, had both the office of the high priesthood, and the dignity of a king, for a long time together. I will accordingly set down my progenitors in order. Aeterna Press

The Ascent of Money Prospect Park Books
What is at stake in literature? Can we identify the fire that our stories have lost, but that they strive, at all costs, to rediscover? And what is the philosopher's stone that writers, with the passion of

alchemists, struggle to forge in their word furnaces? For Giorgio Agamben, who suggests that the parable is the secret model of all narrative, every act of creation tenaciously resists creation, thereby giving each work its strength and grace. The ten essays brought together here cover works by figures ranging from Aristotle to Paul Klee and illustrate what urgently drives Agamben's current research. As is often the case with his writings, their especial focus is the mystery of literature, of reading and writing, and of language as a laboratory for conceiving an ethico-political perspective that places us beyond sovereign power.

The Ultimate Collection of Business Tips from the Podcast BoD - Books on Demand
The classic novel of non-Aristotelian logic and the coming race of supermen Grandmaster A. E. van Vogt was one of the giants of the 1940s, the Golden Age of classic SF. Of his masterpieces, *The World of Null-A* is his most famous and most influential. It was the first major trade SF hardcover ever, in 1949, and has been in print in various editions ever since. The entire careers of Philip K. Dick, Keith Laumer, Alfred Bester, Charles Harness, and Philip Jose Farmer were created or influenced by *The World of Null-A*, and so it is required reading for anyone who wishes to know the canon of SF classics. It is the year 2650 and Earth has become a world of non-Aristotelianism, or Null-A. This is the story of Gilbert Gosseyn, who lives in that future world where the Games Machine, made up of twenty-five thousand electronic brains, sets the course of people's lives. Gosseyn isn't even sure of his own identity, but realizes he has some remarkable abilities and sets out to use them to discover who has made him a pawn in an interstellar plot. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Mastering the Inner Game of Wealth
Springer

Entre os fragmentos de conhecimentos ocultos possuídos pelo mundo contam-se

os Preceitos Herméticos, reunidos neste livro e atribuídos ao Instrutor egípcio conhecido entre os gregos como Hermes Trismegisto, o 'Três Vezes Grande'. Considerado em seu tempo o Mensageiro dos Deuses, ele viveu sob os prósperos signos das dinastias divinas, imprimiu o selo da vida espiritual em seu povo, e implantou a tradição sagrada, os santos rituais, os mistérios e escreveu diversas obras. Fundou também as Escolas de Sabedoria anexas aos Santuários Maiores, onde se ensinavam medicina, astronomia, astrologia, botânica, agricultura, geologia, ciências naturais, matemáticas, música, arquitetura, escultura, pintura e ciência política. A Ciência hoje chamada Hermética permanece ainda viva, e este livro reúne, para reflexão dos estudiosos, alguns dos seus preceitos considerados fundamentais.

Electronic Tools for Translators Souvenir Press

This work provides a portrait of Nepal's doom-laden royal dynasty from its staggering expansion in the 18th century to the massacre in June 2001 - a sequence of events worthy of a Greek tragedy. Nepal, a fabulous country of sublime natural beauty, has a history inextricably mixed with kingship. There have been kings in its mountain valleys for millennia. Buddha Siddharta was born a Nepalese prince and the current dynasty traces its ancestry to the Rajput princes from Rajasthan. Nepal is the last Hindu kingdom in the world, in which the same traditions of kingship are practised now as in Vedic times. Kings are gods, and history, kingship and myth are culturally woven together. The current Shah dynasty created modern Nepal and was the complete focus of national identity.

Transportation Expressions (1996) J-Novel Club

Chronicles the evolution of finance from its origins in Mesopotamia to the modern world's most recent upheavals, covering such topics as the stock market bubble that prompted the French Revolution and the theories behind common investment vehicles.
