Teaching isn't merely transmitting knowledge to students; it's also about teaching students to approach learning in engaging and unexpected ways. In *Sparking Student Creativity: Practical Ways to Promote Innovative Thinking and Problem Solving*, author and researcher Patti Drapeau explores and explains research related to creativity and its relevance in today's standards-based, critical thinking-focused classroom. The book vividly and comprehensively shows * How creative lessons can meet and extend the expectations of curriculum standards such as the Common Core State Standards, * How to incorporate creativity and assessment into daily classroom practices, * How to develop a "Creativity Road Map" to guide instruction, and * How to design lessons that prompt and support creative thinking. In addition, the book includes 40 "grab and go" ideas that infuse lesson

plans with a spirit of exploration. No matter what grade levels or content areas you teach, *Sparking Student Creativity* will help you to produce creative lesson components that directly address critical content, target specific standards, and require thoughtful products from students as they grow into independent learners and become successful students and adults. Happy families are all alike; every unhappy family is unhappy in its own way. Everything was in confusion in the Oblonskys' house. The wife had discovered that the husband was carrying on an intrigue with a French girl, who had been a governess in their family, and she had announced to her husband that she could not go on living in the same house with him. This position of affairs had now lasted three days, and not only the husband and wife themselves, but all the members of their family and household, were painfully conscious of it. Every person in the house felt that there was no sense in their living together, and that the stray people brought together by chance in any inn had more in common

with one another than they, the members of the family and household of the Oblonskys. The wife did not leave her own room, the husband had not been at home for three days. The children ran wild all over the house; the English governess quarreled with the housekeeper, and wrote to a friend asking her to look out for a new situation for her; the man-cook had walked off the day before just at dinner time; the kitchen-maid, and the coachman had given warning. Three days after the quarrel, Prince Stepan Arkadyevitch Oblonsky-Stiva, as he was called in the fashionable world-woke up at his usual hour, that is, at eight o'clock in the morning, not in his wife's bedroom, but on the leather-covered sofa in his study. He turned over his stout, well-cared-for person on the springy sofa, as though he would sink into a long sleep again; he vigorously embraced the pillow on the other side and buried his face in it; but all at once he jumped up, sat up on the sofa, and opened his eyes. "Yes, yes, how was it now?" he thought, going over his dream. "Now, how was it? To be sure! Alabin was

giving a dinner at Darmstadt; no, not Darmstadt, but something American. Yes, but then, Darmstadt was in America. Yes, Alabin was giving a dinner on glass tables, and the tables sang, *Il m i o t e s o r o* - not *Il m i o t e s o r o* though, but something better, and there were some sort of little decanters on the table, and they were women, too," he remembered. Stepan Arkadyevitch's eyes twinkled gaily, and he pondered with a smile. "Yes, it was nice, very nice. There was a great deal more that was delightful, only there's no putting it into words, or even expressing it in one's thoughts awake." And noticing a gleam of light peeping in beside one of the serge curtains, he cheerfully dropped his feet over the edge of the sofa, and felt about with them for his slippers, a present on his last birthday, worked for him by his wife on gold-colored morocco. And, as he had done every day for the last nine years, he stretched out his hand, without getting up, towards the place where his dressing-gown always hung in his bedroom. And thereupon he suddenly remembered that he was

not sleeping in his wife's room, but in his study, and why: the smile vanished from his face, he knitted his brows.

~BOOK 4 IN THE FROST CHRONICLES~ Lia Weaver is a fugitive. Her family's farm has been confiscated by Farther soldiers, her sister has been reassigned to a new family in the village, and her official status is "missing." Now, she and a band of fugitive followers must make their home in the harsh wilderness of the Frost. Food is scarce, and hope is scarcer still as Lia tries to find information about the whereabouts of her missing friends. She is determined to rescue them, but when a surprising ally steps forth with a offer that will both return her friends and expel the Farthers from the Frost in exchange for something very precious, Lia must make a choice.
An Introduction

The Language of the Birds is a masterpiece of Eastern Turkish literature (now Uzbek), and was written by one of Central Asia's most prominent poets, Alisher Nava'i, shortly before his death in

1501. The story begins with the birds of the world realizing they are far from their king and so they begin their arduous journey with the assistance of the wise bird Hoopoe as their guide. Hoopoe listens to their complaints and excuses along the way and encourages them to seek true life even though the journey is sometimes painful. This epic poem in prose form contains many anecdotes and stories from the oral history of the Silk Road and Islam. Through this story, people are exhorted to rise above any excuse they might have in their spiritual pilgrimage. Alisher Nava'i (1441-1501) is renowned in Central Asia for his numerous writings and lasting influence in Uzbekistan as well as the contemporary Central Asian republics. In modern Uzbekistan, Nava'i is revered above all other poets and his presence is still found – streets, museums, and even a province and city are named after him. His proverbs are found throughout Central Asia and he is considered the father of the Uzbek language. His words for peace and against oppression are as timely today as they were 5

centuries ago. Nava'i lived in Herat, Afghanistan. His writings, endowments, and his life example have had lasting influence in Central Asia. In *The Language of the Birds*, we are introduced to what Nava'i thought is important in life. It is a world of love that goes beyond the rational and is ready to endure anything for the beloved. This book is for anyone who values great historical literature, as well as those needing inspiration in his or her own pilgrimage in life. Engineer-In-Training Reference Manual Walter de Gruyter Throughout his career, the influential new media theorist Vilém Flusser kept the idea of gesture in mind: that people express their being in the world through a sweeping range of movements. He reconsiders familiar actions—from speaking and painting to smoking and telephoning—in terms of particular movement, opening a surprising new perspective on the ways we share and preserve meaning. A gesture may or may not be linked to specialized apparatus, though its form crucially affects the person who makes it. These essays, published here as a collection in English for

the first time, were written over roughly a half century and reflect both an eclectic array of interests and a durable commitment to phenomenological thought. Defining gesture as “a movement of the body or of a tool attached to the body for which there is no satisfactory causal explanation,” Flusser moves around the topic from diverse points of view, angles, and distances: at times he zooms in on a modest, ordinary movement such as taking a photograph, shaving, or listening to music; at others, he pulls back to look at something as vast and varied as human “making,” embracing everything from the fashioning of simple tools to mass manufacturing. But whatever the gesture, Flusser analyzes it as the expression of a particular form of consciousness, that is, as a particular relationship between the world and the one who gestures. In *Every Day*, New York Times bestselling author David Levithan presented readers with his most ambitious novel to date: Every morning, A wakes up in a different body and leads a different life. A must never get too attached, must never be noticed, must never interfere. The novel *Every Day* starts on Day 5994 of A's life. In this digital-only collection *Six Earlier Days*, Levithan gives readers a glimpse at a handful of

the other 5993 stories yet to be told that inform how A navigates the complexities of a life lived anew each day. In *Every Day*, readers discover if you can truly love someone who is destined to change every day. In *Six Earlier Days*, readers will discover a little bit more about how A became that someone. Fans of Levithan's books such as Nick & Norah's Infinite Playlist, co-written with Rachel Cohn, and Will Grayson, Will Grayson, co-written with John Green, will not want to miss A's adventures in *Every Day* and *Six Earlier Days*.
