The Literacy Workshop: Where Reading and Writing Converge is a first-of-its-kind resource that offers a practical process for creating an integrated literacy workshop using demonstration lessons that align with current curriculum standards. In this forward-thinking book, authors Maria Walther and Karen Biggs-Tucker share what they've learned over countless reading and writing workshops and combine into one literacy workshop. The authors demonstrate how you can save valuable classroom time while still empowering students to uncover exciting connections in their learning - leading to stronger, more motivational readers and writers. By weaving the common threads of

literacy learning together, you can increase the time your students spend engaged in authentic reading and writing. Inside you'll find the following: A clear, succinct explanation of the literacy workshop structure, how to get started, and how to determine the best time to begin the merge; 50+ demonstration lesson plans, appropriate for both primary and intermediate grade levels, that use strategies incorporating elements from recommended fiction and nonfiction anchor texts; Substantial, printable resources and online tools to help make this instructional shift as smooth as possible. From the big picture to small, helpful details, The Literacy Workshop will be your guide as you blur the lines between your reading and writing workshops - creating space for students to apply their learning and practice the habits, behaviors, and actions of literate and engaged citizens.

"With a focus on goal-directed, purpose-driven

reading conferences, the author shows how form follows function--the structure of each conference is clearly designed to serve its purpose. Through "Researcher Spotlights" in each chapter, she'll also introduce you to a few of the teaching mentors and researchers who've had a profound influence on her work. The author describes different types of conferences, some designed for individuals, others for small groups. Some are used during independent reading time, others during partnership or club time. One can read the chapters in order or dip into the chapter that best suits their needs and purpose"--

Language Education in the Primary Years

Taylor & Francis

In a time when reading instruction is being marginalized and replaced with scripted reading programs, *Creating Lifelong Readers Through Independent Reading* gives concrete suggestions for creating independent reading programs that make a difference. In a hands-on, approachable style, authors Barbara Moss and Terrell Young show you how to effectively reestablish independent reading as a central focus in your K-6 classroom. A

thorough, research-based discussion of the benefits of independent reading is combined with the following practical tools to help you fit it into a jam-packed classroom schedule: Tips for creating a sustainable, effective classroom library and maximizing the school library resources Helpful guidelines for teaching students to self-select appropriate reading materials Numerous suggestions for building effective independent reading time into your daily schedule-even during content area instruction Lesson ideas for incorporating strategy instruction into independent reading time An extensive literature list, graphic organizers for the classroom, and reproducible handouts for parents Plus, insightful interviews with literacy leaders Richard Allington, Linda Gambrell, Tony Stead, Sharon Taberski, and Myra Zarnowski tie together key points about the importance of independent reading. "In Good Choice!", noted author and literacy specialist Tony Stead outlines the components that foster successful

independent reading in grades K-6." "With examples appropriate to emergent readers in grades K-2, as well as more seasoned readers in grades 3-6, Tony provides a comprehensive plan for integrating independent reading throughout the day. He offers systems for organizing the class library and checking books in and out, lessons on book selection and responding to text, advice on supporting children and parents in home reading, guidance on conferring with students, and an array of helpful appendix materials including graphic organizers, questionnaires, and assessment and monitoring rubrics."--

"We have never seen teachers work harder than we do now. These tools inspire kids to work as hard as we are." -Kate Roberts and Maggie Beattie Roberts *What's DIY Literacy?* It's making your own visual teaching tools instead of buying them. It's using your teaching smarts to get the most from those tools. And it's helping kids think

strategically so they can be DIY learners. "Teaching tools create an impact on students' learning," write Kate Roberts and Maggie Beattie Roberts. "They help students hold onto our teaching and become changed by the work in the classroom." Of course, you and your students need the right tools for the job, so first Kate and Maggie share four simple, visual tools that you can make. Then they show how to maximize your instructional know-how with suggestions for using the tools to: make your reading and writing strategies stick motivate students to reach for their next learning goal differentiate instruction simply and quickly. Kate and Maggie are like a friendly, handy neighbor. They offer experience-honed advice for using the four tools for assessment, small-group instruction, conferring, setting learning goals, and, most important, helping students learn to apply strategies and make progress without prompting from you. In other words, to do it themselves. "It is our greatest hope," write Kate and Maggie, "that the tools we offer here will help your students to work hard, to hold onto

what they know, and to see themselves in the curriculum you teach." Try *DIY Literacy* and help your readers and writers take learning into their own hands.

In his workshops with teachers over the years, Patrick Allen has encountered a long list of "counterfeit beliefs" about the process of conferring with students, including such comments as: "I don't have time. I don't know what questions to ask, It's too hard, I don't know what to write in my notes, I don't even take notes, I don't know how to go deep. . ." In *Conferring: The Keystone of Reader's Workshop*, Allen argues that the benefits of conferring are well-worth the effort of learning to do it well. And then he sets out to show teachers how to overcome all of their perceived obstacles, and make the somewhat intangible aspect of conferring tangible. Just as the keystone--a symmetrical, wedge-shaped stone at the

center of an arch--forms the foundation of a structure, conferring lays the groundwork for effective reading instruction. Allen defines the word confer as a verb "meaning to consult together, compare opinions, or carry on a conversation." Conferences with students are purposeful conversations that scaffold reading comprehension strategies that guide the reader's progress, and ultimately, through the gradual release of responsibility, create independent readers. Allen begins by explaining what conferring is and what it's not, and then unpacks the essential components of the process: intimacy (the social context of conferring); rigor (the cognitive context); and inquiry (the analytical context). He explores the guiding principles of conferring--including goal setting, instruction points, listening, rapport, challenges, and teacher learning--and provides questions that lead

teachers through the reader's conference from start to finish. *Teaching for Thinking* UNSW Press "Each chapter in this collection presents an essential part of a high-quality literacy framework. Informed by decades of research and practice, editor Patricia L. Sharer and authors from The Ohio State Literacy Collaborative illuminate in precise detail every facet of classroom literacy instruction. They demonstrate how to build on students' strengths, draw on the very best children's literature throughout the literacy block, and use embedded formative assessment to inform precise, responsive instruction." -- Publisher description.
