Amber Fang enjoys life's simple pleasures. A perfect evening for her includes a good book, a glass of wine and, of course, a great meal, preferably straight from the jugular. Raised to eat ethically, Amber dines only on delicious cold-blooded killers. But confirming that her chosen victims deserve to die takes time. And patience. So it's a good thing Amber is studying to be a librarian. Her

extraordinary research skills help her hunt down her prey, seek out other vampires and stay on the trail of her mother, who has been missing for over two years now. But one day while Amber is stalking a rather tasty-looking murderer, things go horribly wrong. Amber has walked into a trap. The hunter becomes the hunted. Now on the run, Amber receives the perfect job offer out of the blue. Someone wants to pay her to kill (and eat) the world's worst criminals. It sounds too good to be true. Amber Fang: Hunted is the first book in this exciting vampire series. *The Vampire and the Virgin Scream Street*

Robby's packing list: 1. Synthetic blood 2. More synthetic blood 3. Jogging clothes (even vamps have to stay in shape!) I'm Jaz Parks. My boss is Vayl, born in Romania in 1744. Died there too, at the hand of his vampire wife, Liliana. But that's ancient history. For the moment Vayl works for the C.I.A. doing what he does best -- assassination. And I help. You could say I'm an Assistant Assassin. But then I'd have to kick your ass. Our current assignment seemed easy. Get close to a Miami plastic surgeon named Assan, a charmer with ties to terrorism that run deeper than a buried body. Find out what he's meeting with that can help him and his comrades bring America to her knees. And then close his beady little eyes forever. Why is it that nothing's ever as easy as it seems?

"What kind of guy is unlucky enough to get bitten... and survive?"

As the sole survivor of a vampire attack, En wakes up to find that his hair has gone white as snow... and, worse, that he's developed a craving of his own for blood. Fortunately, the vampire health and welfare organization FANGS is there to help with the transition, and the handsome Ichii steps up as his guardian and mentor. Swept up into a confusing and lonely new world where everyone seems to be hankering for a taste of his "virgin" blood, En must navigate the FANGS pairing system, an arrangement that sets up compatible vampires as mutual feeding partners... and partners in all other ways as well. But what happens when En panics and declares that he'll be paired with Ichii? And what does brooding, rough-around-the-edges Ichii make of his spunky, outgoing new charge? This book contains sexual content and is intended for an audience aged 18 years and up.

"A bizarre yet effective yoking of the spy and horror genres."

—The Washington Post Book World The Lovecraftian Singularity has descended upon the world in The Labyrinth Index, beginning an exciting new story arc in Charles Stross' Hugo Award-winning Laundry Files series! Since she was promoted to the head of the Lords Select Committee on Sanguinary Affairs, every workday for Mhari Murphy has been a nightmare. It doesn't help that her boss, the new Prime Minister of Britain, is a manipulative and deceptive pain in the butt. But what else can she expect when working under the thumb of none other than the elder god N'yar

Lat-Hotep a.k.a the Creeping Chaos? Mhari's most recent assignment takes her and a ragtag team of former Laundry agents across the pond into the depths of North America. The United States president has gone missing. Not that Americans are alarmed. For some mysterious reason, most of the country has forgotten the executive branch even exists. Perhaps it has to do with the Nazgûl currently occupying the government and attempting to summon Cthulhu. It's now up to Mhari and her team to race against the Nazgûl's vampire-manned dragnet to find and, for his own protection, kidnap the president. Who knew an egomaniacal, malevolent deity would have a soft spot for international relations?

Blood Oath DC

I may be the villain of the story, but at least I get a leading role. Evil is a term thrown around history and literature as if it's something so easily definable. A concept to fight against. Evil doesn't exist. Neither does 'good.' Vampires do, though. I just happen to be one. I've cruised through the centuries managing to avoid all the wars, supernatural and human, but still going to all the best parties. I would say I avoided bloodshed, but it's kind of

part of the whole 'vampire' thing. I've lived on the fringes of a society that considered cruelty and sadism favorable character traits for almost five hundred years. Now I'm in the middle of a war that might just put my nonbeating heart in a lot of danger. Battles, I can handle. The impossible attraction between me and the vampire slayer, not to mention the penetrating gaze of the king of our race, on the other hand? I might not get out undead.
