 New Elementary English Grammar and Composition For Class 1 is intended for children just beginning to learn English. When we learn to speak or write a foreign language, we learn the words of the language and also how to put them together to form sentences." "In English, there are eight parts of speech - Nouns, Verbs, Pronouns, Adjectives, Adverbs, Prepositions, Conjunctions and Interjections, a knowledge of which will enable a child to form

correct sentences." "This book aims at presenting all the parts of speech in the simplest, clearest and most enjoyable way with the help of suitable pictures having a close bearing on the daily life and environment of a child." "The Play Way has much to commend in dealing with Functional Grammar. The exercises have been made as lively, practical and interesting as possible and they take the shape of intelligence tests. Space for writing answers has been provided in the book." It is sincerely hoped that this new method of presentation will appeal to the children and make the study of Functional Grammar a delightful pastime. - Goyal Brothers Prakashan

This book, written for both seasoned and novice researchers, presents a theory of what is called Basic and Higher Language Cognition (BLC and HLC), a theory aimed at making some fundamental issues concerning first and second language learning and bilingualism (more) empirical. The first part of the book provides background for and explication of the theory as well as an agenda for future research, while the second part reports on selected studies of language proficiency in native speakers, as well as non-native speakers, and studies of the relationship between literacy in a first and second language. Conceptual and methodological problems in measuring language proficiency in research on second language acquisition and bilingualism are also discussed. Further, the notion of levels of language proficiency, as rendered by the Common European Framework of Reference for Languages (CEFR), is critically examined, suggesting ways of empirically investigating a number of questions that the CEFR raises but is not capable of answering. *Solutions to Elementry English Grammar* Oswaal Books and Learning Private Limited
