This is the chapter slice "Drill Sheets Vol. 2 Gr. 3-5" from the full lesson plan "Geometry". For grades 3-5, our resource meets the geometry concepts addressed by the NCTM standards and encourages the students to review the concepts in unique ways. Each drill sheet contains warm-up and timed drill activities for the student to practice geometry concepts. The pages of this resource contain a variety in terms of levels of difficulty and content so as to provide students with a variety of differentiated learning opportunities. Included in our resource are activities on two- and three-dimensional shapes, fractions, coordinate points, and composing and decomposing shapes. The drill sheets offer space for reflection, and opportunity for the appropriate use of technology. Also contained are review sheets, color activity posters and bonus worksheets. All of our content meets the

Common Core State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.

Team Rock Press Standards-Driven Power Geometry I is a textbook and classroom supplement for students, parents, teachers and administrators who need to perform in a standards-based environment. This book is from the official Standards-Driven Series (Standards-Driven and Power Geometry I are trademarks of Nathaniel Max Rock). The book features 332 pages of hands-on standards-driven study guide material on how to understand and retain Geometry I. Standards-Driven means that the book takes a standard-by-standard approach to curriculum. Each of the 22 Geometry I standards are covered one-at-a-time. Full explanations with step-by-step instructions are provided. Worksheets for each standard are provided with explanations. 25-question multiple choice quizzes are provided for each standard. Seven, full-length, 100 problem comprehensive final exams are included with answer keys. Newly revised and classroom tested. Author Nathaniel Max Rock is an engineer by training with a Masters Degree in business. He

brings years of life-learning and math-learning experiences to this work which is used as a supplemental text in his high school Geometry I classes. If you are struggling in a "standards-based" Geometry I class, then you need this book!
