Wild, Wild Wolves Random House Books for Young Readers  
The much-loved Roald Dahl story now in full colour format. When Sophie is snatched from her bed in the middle of the night by a giant with a stride as long as a tennis court she is sure she's going to be eaten for breakfast. But luckily for Sophie, the BFG is far more jumbly than his disgusting neighbours, whose favourite pastime is guzzling up whoppsy-whiffing human beans. Sophie is determined to stop all this, and so she and the BFG cook up an ingenious plan to rid of the world of the Bloodbottler, the Fleshlumpeater and all their rotsome friends forever.

**Exploring Africa's biggest wildlife phenomenon** National Geographic Books

When Bill Weber and Amy Vedder arrived in Rwanda to study mountain gorillas with Dian Fossey, the gorilla population was teetering toward extinction. Poaching was rampant, but it was loss of habitat that most endangered the gorillas. Weber and Vedder realized that the gorillas were doomed unless something was done to save their forest home. Over Fossey's objections, they helped found the Mountain Gorilla Project, which would inform Rwandans about the gorillas and the importance of conservation, while at the same time establishing an ecotourism project -- one of the first anywhere in a rainforest -- to bring desperately needed revenue to Rwanda. In the Kingdom of Gorillas introduces readers to entire families of gorillas, from powerful silverback patriarchs to helpless newborn infants. Weber and Vedder take us with them as they slog through the rain-soaked mountain forests, observing the gorillas at rest and at

play. Today the population of mountain gorillas is the highest it has been since the 1960s, and there is new hope for the species' fragile future even as the people of Rwanda strive to overcome ethnic and political differences.

*A Forest in the Clouds: My Year Among the Mountain Gorillas in the Remote Enclave of Dian Fossey* Houghton Mifflin Harcourt

The gentle giants called giraffes are so cute at the zoo. Whether they're rubbing necks or snatching leaves off the tops of trees with their long tongue, they're fascinating to watch. Readers will love learning giraffe facts in this low-ATOS book and seeing them in action in the colorful photographs. As they muse, along with the narrator, whether a giraffe would be a good pet, they'll realize that this amazing animal is just too tall to curl up on the couch at home.

Saving Endangered Great Apes Britannica Digital Learning

Examines the physiology, feeding and reproductive habits, and social behavior of each group of primates, including chimpanzees, orangutans, gorillas, gibbons, Old World and New World monkeys, marmosets, and humans.

*DK Readers L2: Dinosaur Dinners* Gareth Stevens Publishing LLLP

Presents amazing facts about the life and behavior of gorillas.

**Treks, trails and mountain paths** Random House Books for Young Readers

Walking with Gorillas Simon and Schuster

It was eat or be eaten in the days of the dinosaurs. Step back in time and let these monstrous creatures tell you themselves! DK Readers is a multi-level learning-to-read program combining DK's highly visual style with appealing stories at five graduated levels. Stunning photographs and engaging, age-appropriate stories are guaranteed to capture a child's interest while developing reading skills and general knowledge. DK Readers allow progression from stories for beginning readers with simple sentences and word repetition through to stories with rich vocabulary and more challenging sentence structure for proficient readers. now available in iPad-friendly format. Written by leading children's authors and compiled in consultation with leading literacy experts. For children who are just beginning to read and who have a limited vocabulary, these Level 2 books-about everything from tadpoles to puppies-use word repetition and simple sentences to convey meaning. Picture dictionary boxes with word labels "show" the meanings of words. These books contain between 400 and 450 words each, with 80 percent pictures and 20 percent text.

*A Search-And-Find Book* Random House Books for Young Readers Mountain gorillas are playful, curious, and protective of their families. They are also one of the most endangered species in the world. For years, mountain gorillas have faced the threat of death by poachers. Funds raised by gorilla tourism bringing people into the forest to see gorillas have helped protect them. This tourism is vital, but contact between gorillas and people brought a new threat to the gorillas: human disease. The Mountain Gorilla Veterinary Project is a group of scientists working to save the mountain gorilla population in Rwanda and Uganda. The gorilla

doctors study the effects of human exposure, provide emergency care, and act as foster parents to an orphaned gorilla.

*A Visit with Mountain Gorillas* Simon and Schuster

A book containing surprising facts about gorillas.

National Geographic Books

From his childhood in rural Illinois to moviemaking days in Hollywood and on to a career in politics that took him all the way to the Oval Office, Ronald Reagan kept an abiding faith in America and in what our country stood for. The oldest president ever, he survived a near-fatal assassination attempt and lived to be 93. *Who Was Ronald Reagan?* covers his life and times in a balanced, entertaining way for children. More than 100 black-and-white illustrations fill out the portrait of our fortieth president.

*Gorillas* Candlewick Press

Every year like clockwork, animals both big and small are driven by a natural instinct to move, in order to survive. On both land and sea, they fight the odds and the forces of nature to breed, feed, or lead and carry on for future generations. This reader is an introduction to the treacherous trek of the zebra, walrus, and Christmas Island red crab to overcome obstacles that include hungry cheetahs, stinging yellow crazy ants, and even their fellow species to make the often impossible journey of their lives. National Geographic supports K-12 educators with ELA Common Core Resources. Visit [www.natgeoed.org/commoncore](http://www.natgeoed.org/commoncore) for more information.

*Beans Baker's Best Shot* Houghton Mifflin Harcourt

Updated for 2020, Young children will enjoy learning more about one of their favorite animals to visit at the zoo. The text and photos will engage children as they learn about gorillas.

[How a Zoo Baby Brought Her Family Together](#) Penguin UK

The magic tree house takes Jack and Annie to an African rainforest, where the siblings encounter gorillas and learn to communicate with them.

**The Elephant Matriarch** Reaktion Books

For the first time, a riveting insider's account of the fascinating world of Dr. Dian Fossey's mountain gorilla camp, telling the often-shocking story of the unraveling of Fossey's Rwandan facility alongside adventures tracking mountain gorillas over hostile terrain, confronting aggressive silverbacks, and rehabilitating orphaned baby gorillas. In *A Forest in the Clouds*, John Fowler takes us into the world of Karisoke Research Center, the remote mountain gorilla camp of Dr. Dian Fossey, a few years prior to her gruesome murder. Drawn to the adventure and promise of learning the science of studying mountain gorillas amid the beauty of Central Africa's cloud forest, Fowler soon learns the cold harsh realities of life inside Fossey's enclave ten thousand feet up in the Virunga Volcanoes. Instead of the intrepid scientist he had admired in the pages of *National Geographic*, Fowler finds a chain-smoking, hard-drinking woman bullying her

staff into submission. While pressures mount from powers beyond Karisoke in an effort to extricate Fossey from her domain of thirteen years, she brings new students in to serve her most pressing need—to hang on to the remote research camp that has become her mountain home. Increasingly bizarre behavior has targeted Fossey for extrication by an ever-growing group of detractors—from conservation and research organizations to the Rwandan government. Amid the turmoil, Fowler must abandon his own research assignments to assuage the troubled Fossey as she orders him on illegal treks across the border into Zaire, over volcanoes, in search of missing gorillas, and to serve as surrogate parent to an orphaned baby ape in preparation for its traumatic re-introduction into a wild gorilla group. This riveting story is the only first-person account from inside Dian Fossey's beleaguered camp. Fowler must come to grips with his own aspirations, career objectives, and disappointments as he develops the physical endurance to keep up with mountain gorillas over volcanic terrain in icy downpours above ten thousand feet, only to be affronted by the frightening charges of indignant giant silverbacks or to be treed by aggressive forest buffalos. Back in camp, he must nurture the sensitivity and patience needed for the demands of rehabilitating an orphaned baby gorilla. *A Forest in the Clouds* takes the armchair adventurer on a journey into an extraordinary world that now only exists in the memories of the very few who knew it.
