Volkswagen enthusiast and author Richard Copping examines, for the first time, the complete story of the T4: from the Transporter concept originated forty years before its presence at VW's Hanover factory, through its development period and full production life. Topics covered include:- the background story 1949-1990- design concept to production in the 1980s- full analysis of the T4's specifications- face-lifted Caravelles and Multivans from 1996 onwards- gas - and diesel-

aspirated engines including the VR6, V6 and 2.5 litre TDI- the T4 story in the USA - the Euro Van- and finally camping conversions.

How to Rebuild and

Modify High-Performance Manual Transmissions breaks down the disassembly, inspection, modification/upgrade, and rebuilding process into detailed yet easy-to-follow steps consistent with our other Workbench series books. The latest techniques and insider tips are revealed, so an enthusiast can quickly perform a tear-down, identify worn parts, select the best components, and successfully assemble a high-performance transmission.

Transmission expert and designer Paul Cangialosi shares his proven rebuilding methods, insight, and 27 years of knowledge in the transmission industry. He guides you through the rebuilding process for most major high-performance transmissions, including BorgWarner T10 and super T10, GM/Muncie, Ford Toploader, and Tremec T5. This new edition also contains a complete step-by-step rebuild of the Chrysler A833 transmission.
