Study Guide for Maternal-Child Nursing - E-Book Mosby

This money saving package includes the McKinney: Maternal-Child Nursing, 3rd edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for McKinney's Maternal-Child Nursing, 3rd edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your combined maternity and pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to McKinney: Maternal-Child Nursing, 3rd edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook

references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and

specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in

the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LBGTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

[Study Guide for Maternal-Child Nursing - E-Book](#) F.A. Davis

Designed to meet the needs of today's students, Lowdermilk's Maternity Nursing, 8th Edition — Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family, culture, and health promotion into the continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. Maternity Nursing focuses on childbearing issues and concerns, including care of the newborn, as well as wellness promotion and management of common women's health problems. Critical thinking exercises present case studies of real-life situations and corresponding critical thinking questions to help you develop your analytical skills. NEW! A helpful appendix identifies text content that reflects the QSEN competencies — patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics — to assist you in developing competencies to provide safe and effective nursing care. NEW! Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. NEW! Content updates throughout, including information on the late preterm infant and associated concerns such as feeding; guidelines on prioritization and delegation where relevant; and centering pregnancy, a new model of health care that brings women together in groups for their care. NEW! Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. NEW! Improved readability helps you learn more efficiently with shorter, more focused content discussions. NEW! 21st Century Maternity Nursing: Culturally Competent, Community Focused chapter combines introductory material, culture, and community into one chapter to help you focus on key content and concepts. NEW! Streamlined content highlights the most essential, need-to-know information. *AWHONN's Perinatal Nursing* World Bank Publications

The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

**Safe Maternity & Pediatric Nursing Care** Elsevier Health Sciences

Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.

**Canadian Maternity and Pediatric Nursing** Elsevier Health Sciences

Ideal for accelerated maternity and pediatrics courses, Maternal-Child Nursing, 4th Edition is filled with user-friendly features to help you quickly master essential concepts and skills. It offers completely updated content that's easy to read and understand. Plus, active learning tools give you the chance to practice applying your knowledge and make learning fun! Critical Thinking Exercises allow you to apply your knowledge to realistic clinical situations. Nursing care plans

assist you with applying the nursing process to plan individualized care for the most common maternity and pediatric conditions. Critical to Remember boxes summarize and highlight essential, need-to-know information. Communication Cues provide practical tips for effective verbal and nonverbal communication with patients and families. Clinical Reference sections in pediatric chapters present information relevant to each body system, including anatomy and physiology, differences in the pediatric patient, and related laboratory and diagnostic tests. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

LEARN-APPLY-ASSESS Davis Advantage for Maternal-Child Nursing Care combines an innovative text with an immersive online program that make this challenging but must-know content easier to master by making learning personal. Together, they create a seamless experience that tracks each student's progress and assesses their knowledge until they have mastered the concepts and are ready to apply them in class, clinical, and practice. An access code inside new, printed textbooks unlocks an ebook, as well as access to Davis Advantage. Or choose the all-digital Instant Access option, which includes the ebook and immediate access to Davis Advantage.

[Foundations of Maternal-Newborn and Women's Health Nursing](#) Lippincott Williams & Wilkins

NEW! Next Generation NCLEX® (NGN) examination-style case studies expose students to how content will be tested in the exam; case studies are either single-situation or unfolding studies.

NEW! Updated Drug Guides summarize the latest information on medications.

**Maternal-Child Nursing** Elsevier Health Sciences

Safe Maternity & Pediatric Nursing Care, 2nd Edition. Online Resources, and Davis Edge work together to create an interactive learning experience that teaches students to think critically and make the best patient care decisions. The text, written specifically for LPNs/LVNs, provides the comprehensive nursing knowledge they need to understand in this key course. Online Resources equip instructors with the lesson plans, teaching resources, and activities to create an active classroom environment where students can apply what they're learning. Davis Edge online quizzing tracks student progress; assesses their knowledge; prepares students for classroom exams and the NCLEX®; and provides real time analytics to identify their weak concepts and topic areas. Text This is the maternity/peds textbook that focuses on what LPNs must know with just the right depth and breadth of coverage of the knowledge and skills to practice safely. A student-friendly approach helps LPN/LVNs to master safe and effective nursing care by developing the critical-thinking and problem-solving skills they need to excel in clinical practice. Clear, concise, readable, well organized, and easy to follow, it's the text that prepares new nurses to make the connections. Davis Edge Davis Edge is the online quizzing program that integrates seamlessly into the classroom to give students the additional practice questions they need to perform well on course exams and the NCLEX®. Handpicked preset assignments save instructors time, while actionable analytics let them take the pulse of how their students are performing. Instructors have the real-time data they need to monitor, track, and assess their class's mastery of the content. They are able to easily identify the areas in which students are struggling, intervene quickly, and provide remediation to ensure that students succeed and improve within following areas:

Comprehension and Retention: How well do students understand the content? Participation and Engagement: Are students keeping-up with their reading and assignments? Test-Taking Skills: Are students prepared for NCLEX®-style questions and improving their test-taking skills? An access code inside new printed texts unlocks Davis Edge as well as a wealth of online learning tools and resources, including an ebook powered by VitalSource. Our new approach to LPN/LVN education LPN/LVN Connections responds to the pressures and challenges faced in nursing education with a new approach that highlights key themes across our core textbooks, maintains a consistent reading level, common terminology and lab values to improve student outcomes in class and prepares them for professional practice. Educators: Contact your F.A. Davis Consultant to learn more about LPN/LVN Connections. Make the connections every step of the way.

**Maternal Child Nursing Care in Canada - E-Book** Elsevier Health Sciences

Here's the clinical information you need at your fingertips to provide safe, effective, and compassionate care in maternity and pediatric clinical settings. Full-color images of nursing skills and procedures as well as tools and charts make bedside reference easy.

**Maternal-child Nursing Care** Lippincott Williams & Wilkins

Studying is about to get a whole lot easier Corresponding chapter-by-chapter to Maternal Child Nursing Care, 5th Edition, the Elsevier Adaptive Solutions Package combines two innovative adaptive products into one powerful learning solution. Elsevier Adaptive Learning (EAL) helps you transform textbook information into lasting knowledge, while Elsevier Adaptive Quizzing (EAQ) ensures you know how to apply that knowledge to exams and clinical practice. Both EAL and EAQ are fun, engaging, and constantly tracking and adapting to your performance so you learn more effectively and efficiently. This dynamic duo is the personalized solution you need to learn faster, remember longer, and be better prepared for exams and licensure.

*Disease Control Priorities, Third Edition (Volume 2)* Lww

The only book featuring nursing care plans for all core clinical areas, Swearingen's All-In-One Nursing Care Planning Resource, 4th Edition provides 100 care plans with the nursing diagnoses and interventions you need to know to care for patients in all settings. It includes care plans for medical-surgical, maternity/OB, pediatrics, and psychiatric-mental health, so you can use just one book throughout your entire nursing curriculum. This edition includes a new care plan addressing normal labor and birth, a new full-color design, new QSEN safety icons, new quick-reference color tabs, and updates reflecting the latest NANDA-I nursing diagnoses and collaborative problems. Edited by nursing expert Pamela L. Swearingen, this book is known for its clear approach, easy-to-use format, and straightforward rationales. NANDA-I nursing diagnoses are incorporated throughout the text to keep you current with NANDA-I terminology and the latest diagnoses. Color-coded sections for medical-surgical, maternity, pediatric, and psychiatric-mental health nursing care plans make it easier to find information quickly. A consistent format for each care plan allows faster lookup of topics, with headings for Overview/Pathophysiology, Health Care Setting, Assessment, Diagnostic Tests, Nursing Diagnoses, Desired Outcomes, Interventions with Rationales, and Patient-Family Teaching and Discharge Planning. Prioritized nursing diagnoses are listed in order of importance and physiologic patient needs. A two-column format for nursing assessments/interventions and rationales makes it easier to scan information. Detailed rationales for each nursing intervention help you to apply concepts to specific patient situations in clinical practice. Outcome criteria with specific timelines help you to set realistic goals for nursing outcomes and provide quality, cost-effective care. NEW! Care plan for normal labor and birth addresses nursing care for the client experiencing normal labor and delivery. UPDATED content is written by practicing clinicians and covers the latest clinical developments, new pharmacologic treatments, patient safety considerations, and evidence-based practice guidelines. NEW full-color design makes the text more user friendly, and includes NEW color-coded tabs and improved cross-referencing and navigation aids for faster lookup of information. NEW! Leaf icon highlights coverage of complementary and alternative therapies including information on over-the-counter herbal and other therapies and how these can interact with conventional medications.

[Introductory Maternity and Pediatric Nursing](#) Lippincott Williams & Wilkins

Learn to apply the knowledge you gain from Maternal-Child Nursing, 5th Edition to real-world scenarios with this user-friendly study guide. Specifically designed to parallel the material in the McKinney text, it's full of hands-on learning exercises, practical activities, and valuable review of essential concepts and skills to help cement your understanding of maternity and pediatric nursing care and apply that knowledge to the clinical world. Revised review questions reflect the study guide's updated content and allow you to quickly check your understanding of text material. Learning exercises include matching, short answer, fill-in-the-blank, and true/false questions to test your knowledge of the important material from each chapter. Expanded critical thinking exercises further test your critical thinking and decision making skills. Case studies and critical thinking exercises help you apply theoretical knowledge to real-life situations. Suggested learning activities for community and clinical settings enhance your understanding of the content. NEW! Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills.

Maternal Child Nursing Care - E-Book

[Maternal Child Nursing Care](#) Elsevier Health Sciences

It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or

play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.

**Maternal-Child Nursing - E-Book** Elsevier Health Sciences

This book provides need-to-know information and skills for LPN/LVN related to maternal and pediatric nursing both as a textbook and as a later reference in an easy-to-read and understand format.

**Maternity Nursing - Revised Reprint - E-Book** Elsevier Health Sciences

Build the knowledge and clinical judgment you need to succeed in maternity and pediatric nursing! Written in a clear, easy-to-read style, Introduction to Maternity and Pediatric Nursing, 9th Edition describes how you can provide effective, evidence-based care for women during pregnancy, labor, and delivery, and for newborns and growing children. The text spans the continuum of child development, organizing topics from simple to complex and from health to illness; this approach makes it easy to locate information. Another hallmark of the book is its strong focus on family-centered care, health promotion, and illness prevention. Written by noted nursing educator Gloria Leifer, this bestselling text includes new Next-Generation NCLEX® exam-style case studies plus updates on infection control, pandemic responses, and more. Unfolding case studies follow one family through the conception and birth process, and include open-ended critical thinking questions applying the content to practice. More than 25 nursing care plans include nursing diagnoses plus goals, nursing interventions, and rationales, along with critical thinking questions to promote clinical decision-making skills. Detailed nursing skills cover a wide range of maternal and pediatric nursing interventions. Safety alerts highlight the importance of protecting patients and others from accidents, medication errors, and the spread of disease. Nursing tips include practical, evidence-based information applicable in the clinical setting. Nursing guidelines reflect the World Health Organization's Baby Friendly Hospital Initiative, alternative therapies, immunization mandates, emergency preparedness, preventing medication errors, and more. Get Ready for the

NCLEX® Examination! at the end of each chapter includes a summary of key points, additional online resources, review questions, and critical thinking questions. Cultural Considerations boxes help you address the needs of culturally diverse patients and families. Patient Teaching boxes help you communicate instructions for self-care with patients and families. Medication tables provide quick access to information about commonly used medications. NEW! Next-Generation NCLEX® examination-style case studies include new-format questions to help you prepare for the licensure examination. NEW! Discussion of the NCSBN Clinical Judgment Measurement Model helps you learn decision making and develop the skills needed to plan effective nursing interventions. NEW! Thorough updates include infection control, pandemic responses, pharmacologic tables, and pediatric treatments.

**Maternal Child Nursing Care** Prentice Hall

An official publication of the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN), Perinatal Nursing, Fourth Edition presents up-to-date information based on the most rigorous evidence and offers suggestions for best practices. This new edition of the authoritative, comprehensive text used by perinatal nurses worldwide features a wealth of new content to keep practice current. New chapters related to patient safety and the development of a highly reliable perinatal unit, inform nurses how to conduct team training and drills for obstetric emergencies, create checklists, and effectively handoff patients. It features expanded coverage of high-risk pregnancy, from bleeding in pregnancy to preterm labor and birth, diabetes, cardiac disease, pulmonary complications, multiple gestation, and maternal-fetal transport. An all-new chapter on obesity in pregnancy covers risks to the mother and fetus, care from preconception to postpartum, as well as bariatric surgery. An expanded chapter on newborn nutrition includes new sections on the infant feeding decision, benefits of breastfeeding, nutritional components, and preterm milk and lactation.

**Maternal-newborn Nursing Care** Saunders

With easy-to-read coverage of nursing care for women and newborns, Foundations of Maternal-Newborn & Women's Health Nursing, 6th Edition shows how to provide safe, competent care in the

clinical setting. Evidence-based guidelines and step-by-step instructions for assessments and interventions help you quickly master key skills and techniques. Also emphasized is the importance of understanding family, communication, culture, client teaching, and clinical decision making. Written by specialists in maternity nursing, Sharon Smith Murray and Emily Slone McKinney, this text reflects the latest QSEN competencies, and the accompanying Evolve website includes review questions to prepare you for the NCLEX® exam! Nursing Care Plans help you apply the nursing process to clinical situations. Procedure boxes provide clear instructions for performing common maternity skills, with rationales for each step. UNIQUE! Therapeutic Communications boxes present realistic nurse-patient dialogues, identifying communication techniques and showing to respond when encountering communication blocks. Communication Cues offer tips for interpreting patients' and families' verbal and nonverbal communication. Critical Thinking exercises focus on clinical situations designed to test your skills in prioritizing and critical thinking. Updated drug guides list important indications, adverse reactions, and nursing considerations for the most commonly used medications. Check Your Reading helps you assess your mastery of key content. Critical to Remember boxes highlight and summarize need-to-know information. Want to Know boxes provide guidelines for successful client education. Glossary provides definitions of all key terms. NEW! Safety Alerts help you develop competencies related to QSEN and safe nursing practice. NEW! Unfolding case studies help you apply what you've learned to practice. UPDATED Evidence-Based Practice boxes highlight the latest research and the most current QSEN (Quality and Safety Education for Nurses) practice guidelines for quality care. UPDATED content includes the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, and the QSEN competencies.
