 In this "hauntingly beautiful story about love, family, and relationships," a mysterious dog helps an elderly man in his final days (Archbishop Desmond Tutu). After Sam Peek's beloved wife Cora dies, his children are worried about him. After fifty-seven years of marriage, they are unsure how their elderly father will survive on his own. They talk about him as if he can't hear them, questioning how he'll run a farm, drive his truck, or live by himself. When Sam tells his children about a white dog who visits him, yet seems invisible to everyone else, they are sure that grief and old age have taken a toll on their father. But, real or not, the creature soothes Sam's grief and ultimately reconciles him with his own mortality. In this bittersweet story of love, grief, and coming to terms with death, "master storyteller" Terry Kay takes readers on Sam's journey with his white dog, bringing solace and comfort to the inevitable transition that all must make (The Atlanta Journal-Constitution).

BE TRUE? Ask Mark Wilkinson that question about his young life as a talented, international DJ and music producer from the late 1980s through 2000s.  Daniel Lewis's legacy as a hugely influential choreographer and teacher of modern dance is celebrated in this biography. It showcases the many roles he played in the dance world by

organizing his story around various aspects of his work, including his years at the Juilliard School, dancing and touring with the Jose Limon Company, staging Limon's masterpieces around the world, directing his own company (Daniel Lewis Dance Repertory Company), writing and choreographing operas and musicals, and his years as dean of dance at New World School of the Arts. His life has spanned a particular period of growth of modern and contemporary dance, and his biography gives insight into how the artistic and journalistic perspectives on modern dance were influenced by what was occurring in the broader dance and arts communities. The book also offers rarely seen photographs and interviews with unique perspectives on many dance luminaries.

The Dance of Life The New Science of how a Single Cell Becomes a Human Being

**Dance of Life** Skyhorse Publishing Inc.

When a tragic car accident took the life of our twenty-one year old daughter, Maia, we began a journey that has been paradoxically the most heart-wrenching and spiritually uplifting period of our lives. Learning to Dance in the Rain chronicles the first year of this journey. Through pain and despair to renewed energy and spiritual discovery, we write about the many ways in which we are finding strength and inspiration to carry on. With help from family and friends, a variety of religious/spiritual traditions, encounters with the natural world, and, most profoundly, continued connection with our beloved daughter, we are learning that death is as much a beginning as it is an end and that pain can be a catalyst for personal & spiritual growth. It is our greatest hope that sharing our story in this way will help others find strength to face the storms that come their way and live their lives with greater meaning, purpose, and wonder.

At the heart of Henri Nouwen's theology is the idea that the spiritual life is a process of transforming negatives into positives, of living between two polarities, of learning to embrace darkness and light at the same time. In this new anthology of Nouwen's writings, Michael Ford traces Nouwen's understanding of the human emotions following the course of his literary career. From his earliest works as a young psychology lecturer, his famous paperbacks which emerged during his days as a professor at Yale and Harvard to his remarkable output before and after his breakdown at l'Arche, Ford makes selections which not only chart

the writer's intense fascination with his own psycho-spiritual development but, at the same time, enable us to make connections with our own emotional struggles, helping us to make positives out of our own negatives.

In recent years, the work of Zakes Mda—novelist, painter, composer, theater director and filmmaker—has attracted worldwide critical attention. Gail Fincham's book examines the five novels Mda has written since South Africa's transition to democracy: *Ways of Dying* (1995), *The Heart of Redness* (2000), *The Madonna of Excelsior* (2002), *The Whale Caller* (2005), and *Cion* (2007). *Dance of Life* explores how refigured identity is rooted in Mda's strongly painterly imagination that creates changed spaces in memory and culture. Through a combination of magic realism, African orature, and intertextuality with the Western canon, Mda rejects dualistic thinking of the past and the present, the human and the nonhuman, the living and the dead, the rural and the urban. He imbues his fictional characters with the power to orchestrate a reconfigured subjectivity that is simultaneously political, social, and aesthetic.

Amy Purdy, who inspired a nation on *Dancing with the Stars* and has been called a hero by Oprah Winfrey, reveals the intimate details of her triumphant comeback from the brink of death to making history as a Paralympic snowboarder. In this poignant and uplifting memoir, *Dancing With the Stars* sensation Amy Purdy reveals the story of how losing her legs led her to find a spiritual path. When the Las Vegas native was just nineteen, she contracted bacterial meningitis and was given less than a two percent chance of survival. In a near-death experience, she saw three figures who told her: "You can come with us, or you can stay. No matter what happens in your life, it's all going to make sense in the end." In that moment, Amy chose to live. Her glimpse of the afterlife—coupled with a mysterious premonition she'd had a month before—became the defining experiences that put Amy's life on a new trajectory after her legs had to be amputated. She wouldn't just beat meningitis and walk again; she would go on to create a life filled with bold adventures, big dreams, and boundless vitality—and share that spirit with the world. In 2014, Amy—the only competitor, male or female, with two prosthetic legs—claimed a bronze medal for the U.S. Paralympic team in adaptive snowboarding. She then became a contestant on season eighteen of *Dancing With the Stars*, and viewers were captivated as the girl with bionic legs managed to out-dance her competitors all the way to the finale. Amy's journey is a testament to the resilience of the human spirit and the capacity we all have to dream bigger, defy expectations, and rewrite our stories. Amy was given a second chance for a reason—to use her life to inspire others. Her powerful memoir urges us to live life to the fullest, because we are all a lot more capable than we could ever imagine.

A glimpse into the mind and life of one of the most creative and enigmatic visionaries of our time, filmmaker Alejandro Jodorowsky • Retraces the spiritual and mystical path Jodorowsky has followed since childhood, vividly repainting events from the perspective of an unleashed imagination • Explores the development of the author's psychomagic and metagenealogy practices via his realization that all problems are rooted in the family tree • Includes photos from Jodorowsky's appearance at

the 2013 Cannes Film Festival and from the film based on this book, which debuted at Cannes Retracing the spiritual and mystical path he has followed since childhood, Alejandro Jodorowsky re-creates the incredible adventure of his life as an artist, filmmaker, writer, and therapist—all stages on his quest to push back the boundaries of both imagination and reason. Not a traditional autobiography composed of a chronological recounting of memories, *The Dance of Reality* repaints events from Jodorowsky's life from the perspective of an unleashed imagination. Like the psychomagic and metagenealogy therapies he created, this autobiography exposes the mythic models and family templates upon which the events of everyday life are founded. It reveals the development of Jodorowsky's realization that all problems are rooted in the family tree and explains, through vivid examples from his own life, particularly interactions with his father and mother, how the individual's road to true fulfillment means casting off the phantoms projected by parents on their children. *The Dance of Reality* is autobiography as an act of healing. Through the retelling of his own life, the author shows we do not start off with our own personalities, they are given to us by one or more members of our family tree. To be born into a family, Jodorowsky says, is to be possessed. To peer back into our past is equivalent to digging into our own souls. If we can dig deep enough, beyond familial projections, we shall find an inner light—a light that can help us through life's most difficult tests. Offering a glimpse into the mind and life of one of the most creative and enigmatic visionaries of our time, *The Dance of Reality* is the book upon which Jodorowsky's critically acclaimed 2013 Cannes Film Festival film of the same name was based.

The sixties were a time of restlessness, inner turmoil, and exuberance for Merton during which he closely followed the careening development of political and social activism – Martin Luther King, Jr., and the March on Selma, the Catholic Worker Movement, the Vietnam war, and the assassination of John F. Kennedy. Volume 5 chronicles the approach of Merton's fiftieth birthday and marks his move to Mount Olivet, his hermitage at the Abbey of Gethsemani, where he was finally able to fully embrace the joys and challenges of solitary life: 'In the hermitage, one must pray or go to seed. The pretense of prayer will not suffice. Just sitting will not suffice . . . Solitude puts you with your back to the wall (or your face to it!), and this is good' (13 October, 1964).
