Tantra is an ancient science dealing with many different systems for increasing the speed of human evolution. It predates all of the world's existing religions, and provides the esoteric basis on which many of these religions were later based. Tantra provides practical techniques applicable by men and women of every temperament and spiritual level, and aims at turning every action of life into an act of sadhana, or spiritual practice. The practices included in this book are based in tantra, though many of them have been forgotten for thousands of years. The task of rediscovering them and putting them in a form which can be understood and practised by people of this age has been done solely by Swami Satyananda

Saraswati, as his personal contribution to a civilisation searching for a deeper understanding of the basis of life.

"Sri Vidya begins where the current understanding of quantum physics ends," say modern-day scholars about this little-known, highly esoteric spiritual tradition that has been carefully kept under wraps by its secretive and serious practitioners. The study of Sri Vidya is fascinating as much as it is frustrating because information about its various aspects is exceptionally hard to find. Tantra, Mantra and Yantra of Sri Vidya is an endeavor to explore the Sri Vidya tradition and understand it as the unfolding of Shakti, the inherent power which lies at the core of our being and holds the key to our worldly and spiritual success. Sri Vidya practice comprises tantra (a technique or framework for worship) whose two main elements are mantra (sacred sound) and yantra (sacred geometry). Tantra can be described in simple terms as the utilization of the mental faculty to pursue the objectives of worship using mantra and yantra. Mantra is the use of sound energy to bring about oneness with the Divine while yantra is a geometric drawing that serves as a tool to reach the Divine. The

book delves into concepts such as Sankhya, Yoga, Karma and Kundalini in order to establish the context of how Sri Vidya is to be approached, combining elements of knowledge, devotion and ritual. The author has kept in mind the sensibilities of the modern spiritual seeker and their needs and interests, presenting the information in a non-dogmatic and practical manner, thereby allowing everyone an opportunity to learn and experience the benefits of Sri Vidya. This is the third book by the author in the Spirituality Series. The first book was about the Sri Chakra Yantra and the second book had Chakras as its subject. Swara Yoga Sri Ramakrishna Math

Swara Yoga is the ancient science of pranic body rhythms which explains how the movement of prana can be controlled by manipulation of the breath. Recently, modern science has taken great interest in electromagnetic fields and the behaviour of bioenergy, which is the inherent energy principle of the body. With exciting development accelerating in such areas as bioenergetics, psychotronics and kirlian photography, the science of swara yoga is now in great demand.

The hymn Ganesha sahasranama is found in the Ganesha purāna. It is taught to lord Shiva by lord Ganesha himself. The story is given in detail in poorvapeethika that when lord Shiva wanted to destroy the tripurāsura - the demon king with three flying cities, but could not succeed even

after enormous efforts, lord Shiva meditated on Ganesha. Then Ganesha appeared before Shiva in his five faced form (panchamukha Ganesha) and initiated lord Shiva with this hymn. This thousand name hymn of ganesha (ganesha sahasranama) is one among the powerful hymns on lord Ganesha and it has great importance in the Gānāpatya tradition. Bhāskara rāya mākḥin a great shākta scholar and devotee of the mother goddess, a scholar in Vedas, purānas and mantra shāstras had written a wonderful commentary on the hymn. The commentary is called khadyota (that which enlightens the sky) It is named so as it puts light on the deeper meanings of the names of this thousand names hymn (sahasranāma stotra) I have explained every name of this thousand names hymn based on the khadyota commentary and I have also quoted shlokas from the Vedas, purānas and tantras. Some names of the sahasranāma refer to various forms and incarnations of lord Ganesha. I have quoted the dhyāna shloka (verses describing forms of ganesha to be meditated on) of those forms from the tantra and āgama shāstras and also explained their meanings. The sahasranamavali (list of names from the sahasranama) starting with one and ending with namah (salutation) is also given for the purpose of chanting. the book has two indexes first index containing index of all names in the order in which it occurs in the hymn and the second index is alphabetical.
