Managerial Accounting Cengage Learning
Managerial Accounting for Managers, 4th
edition by Noreen/Brewer/Garrison is
based on the market-leading managerial
accounting solution, Managerial
Accounting, by Garrison, Noreen and
Brewer. The Noreen solution presents
integrated and proven solutions designed
to help attain course goals of student
readiness, comprehension of content, and

application of key concepts in the
managerial accounting course, while
addressing the needs of instructors who
do not wish to teach the financial
accounting-oriented content that is
included in the Garrison solution (no
debits/credits). Of the three programs in
the Garrison franchise (the Brewer
solution, the Garrison solution, and the
Noreen solution), the Noreen solution is
the most pure management accounting
content. The other two programs contain
greater coverage of financial accounting
topics. Managerial Accounting for
Managers 4e is geared towards professors

who love Garrison's market-leading
managerial accounting content but prefer
to approach their course by eliminating
the debits and credits coverage. The
Noreen solution includes the managerial
accounting topics such as Relevant Costs
for Decision Making, Capital Budgeting
Decisions, and Segment Reporting and
Decentralization, however, the job-order
costing chapter has been extensively
rewritten to remove all journal entries.
Furthermore, the chapters dealing with
process costing, the statement of cash
flows, and financial statement analysis
have been dropped to enable professors to

focus their attention on the bedrocks of managerial accounting--planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting including McGraw-Hill's SmartBook, powered by LearnSmart, which is designed to help students learn faster and more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills--such as basic formulas and formatting--within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.
