Spend 10 minutes a day and become a maths star. Set the clock and off you go Young learners excel in short burst, so this book will help them improve their times and maths abilities without growing bored or restless. Games and tests take a short amount of time so you get maximum fun for maximum effect.

Maths Minutes DK Publishing (Dorling Kindersley)

Young learners excel in short bursts, so this maths skills book from Carol Vorderman will help them improve their maths and problem solving abilities

without growing bored or restless. The games and tests included take a short amount of time, approximately ten minutes, meaning maximum fun for maximum effect.

10 Minutes a Day Times Tables, Ages 9-11 (Key Stage 2) Dorling Kindersley Ltd

Practice makes perfect in just 10 minutes a day! There is nothing more important than your child's education, but sometimes it's difficult to find the time to squeeze everything in. Part of DK's best-selling "Made Easy" home-learning workbooks, the 10 Minutes a Day series fits in around busy lives. Aimed at ages 7-9, Spelling covers a range of subjects, from prefixes and syllables through nouns and verbs to apostrophes and common endings.

Every subject is clearly introduced so children can complete the exercises on their own or under guidance. For the eager student, there are extra challenges on every page if they finish the questions within 10 minutes, or if they want to continue practicing. Answers are also provided so there's no need to worry if you don't know your "ei" from your "ie" or your hyphens from your homophones—everyone can learn at home together!

10 Minutes A Day Times Tables, Ages 9-11 (Key Stage 2) 10 Minutes a Day Master Key Stage 2 maths problem solving in just 10 minutes a day with the activities in this essential home learning workbook from Carol Vorderman. 10 Minutes a Day Problem Solving (KS2) is a homeschool learning resource for 7 to 9

year olds that teaches kids problem-solving skills in bite-sized chunks. Children prefer to learn in short bursts, making this the perfect homeschool introduction to problem solving in maths. Games and tests make learning fun, leading to maximum results in just 10 minutes a day. Activities using graphs, time tables, and the 24-hour clock will help your kids with this subject. The parents' notes section gives the answers, explains common pitfalls, and gives guidance on how to avoid them, helping you improve your child's maths skills while at home. Carol Vorderman's 10 Minutes a Day problem solving workbooks are the perfect at-home reinforcement for subjects learned in school and supports the National Curriculum.

10 Minutes a Day 10 Minutes a Day
Young learners learn best when activities last five to ten minutes, before they drift off-task. The 10 Minutes a Day series takes this research to heart, providing quick math exercises for children -- perfect for those time-to-fill moments at home, and based on one of the best and most effective learning strategies: little and often. Each book includes a ten-minute timer, beat the clock exercises, and easily photocopied pages, as well as tips, guidance, and answers for parents. In order to align with the Common Core State Standards, in 10 Minutes a Day: Math Fifth Grade children will learn to write and interpret numerical expressions, classify two-dimensional figures based on their properties, convert like measurement units, graph

points on a coordinate plane and more to build math skills.

Year 1 Hands-On Maths: 10 Minutes of Concrete Manipulatives a Day for Maths Mastery (Hands-on Maths)

Dorling Kindersley Ltd

This book guides you through pre-algebra, algebra, and geometry -- the fundamental concepts you're striving to conquer, or the ones you once learned but may have forgotten -- in just 20 easy steps.

10 Minutes A Day Maths, Ages 3-5 (Preschool) DK Children

Master fractions in just 10 minutes a day with the activities in this essential home-study workbook. 10 Minutes a Day Fractions is a homeschool learning resource for 8-10 year olds that teaches fractions in short, bite-sized chunks.

Children prefer to learn in short bursts, making this workbook the perfect homeschool introduction to maths and fractions. Games and tests make learning fun, leading to maximum results in just 10 minutes a day. This workbook includes 10-minute activities that cover fractions in relation to addition, subtraction, multiplication, and division, helping your child with schoolwork and day-to-day problem solving. The parents' notes section gives the answers, explains common pitfalls, and gives guidance on how to avoid them. 10 Minutes a Day workbooks are the perfect at-home reinforcement for subjects learned in school.

Functional Skills Maths Dorling

Kindersley Ltd

Practice makes perfect in just 10

minutes a day! There is nothing more important than your child's education, but sometimes it's difficult to find the time to fit everything in. From DK's best-selling "Made Easy" home-learning workbooks, the 10 Minutes a Day series fits in around busy lives. Aimed at ages 9-10, 10 Minutes a Day Spelling: 4th Grade covers a range of curriculum subjects, including decimals, fractions, shapes, angles, analyzing data, times tables, and of course solving mathematical calculations. Each exercise is simply and clearly introduced to help learning, with colorful illustrations accompanying some of the fill-in-the-gap exercises. For the eager student, there are extra "time filler" challenges on every page if they finish the questions within 10 minutes and

want to continue practicing, or just want ideas for additional activities to do at home. Answers are provided, along with parents' notes that explain what your child learns from the exercise, making this series perfect for homeschooling, or just helping your child stay ahead.

Perfect both for the budding mathematician and those who need a little more support, 10 Minutes a Day Math is a colorful, controlled, and curriculum-aligned approach to mastering math.

10 Minutes a Day Maths Ages 5-7 10 Minutes a Day

Reinforce learning fractions at home with 10 Minutes a Day: Fractions, a workbook that supports school curriculum and classroom teaching on fractions by adding quick but valuable

practice time for adding, subtracting, multiplying, and dividing fractions. 10 Minutes a Day: Fractions utilizes a proven learning strategy for learning fractions. Encourage your child's learning with the effective "little and often" learning strategy outlined in our 10 Minutes a Day workbooks. Proven effective, this leveled, curriculum-supporting method is great for children who resist long periods of study, or for children who need focused attention in fractions. 10 Minutes a Day: Fractions is different than other study books because it includes an embedded LCD timer that encourages children to beat the clock, adding an extra element of challenge to focused study time. The 10 Minutes a Day: Fractions workbook is broken into study challenges and exercises designed

to take up to 10 minutes to complete. Children work through a series of quick-answer questions, then move onto extension activities and timed exercises if they have time left after the first round of study questions. The timer acts as a stopwatch for skills challenges, and many kids are surprised to find that beating the timer can actually be fun. *10 Minutes a Day: Fractions* helps children learn by supplementing school curriculum and strengthening the important skills set of learning fractions. Parents will love that *10 Minutes a Day: Fractions* helps them fit short bursts of study into already busy days, and that *10 Minutes a Day: Fractions* includes an answer key for parents, as well as notes on common pitfalls and how to teach children to overcome them.

10 Minutes A Day Spelling Fun, Ages 5-7 (Key Stage 1) Dorling Kindersley Ltd
PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. There is nothing more important than your child's education, but sometimes it's difficult to find the time to squeeze everything in. Part of the best-selling Carol Vorderman "Made Easy" home-learning workbooks, the *10 Minutes a Day* series fits in around busy lives. Aimed at ages 3 to 5, Maths covers a range of curriculum subjects, including patterns, sets, sizes, shapes, colours, comparing, and of course counting. Each exercise is simply and clearly introduced and uses a variety of interesting methods to help learning, from dot-to-dot to drawing and colouring, based on

themes that a young child can easily relate to, such as animals, getting dressed, food, and at the park. For the eager student, there are extra "time filler" challenges on every page if they finish the questions within 10 minutes, if they want to carry on practising, or just want ideas of activities to do at home. Answers are provided along with parents' notes that explain what your child learns from the exercise. Perfect both for the budding mathematician and those who need a little more support, 10 Minutes a Day: Maths is a colourful and controlled approach to mastering maths. workbooks are the perfect at-home reinforcement for subjects learned in school and support the National Curriculum.

10 Minutes A Day Maths, Ages 7-9 (Key Stage 2) Dorling Kindersley Ltd

When your business is a "job in disguise" and feels like a hamster wheel it's time to get smarter. How to have financial security, freedom and fulfilment ... without being so stupidly busy. When people find out you run your own business you know what they'll ask: "How's it going? Are you busy?" Somehow, "busy" has come to mean "successful." But you didn't wake up this morning thinking "my main aim today is to be as busy as possible!" You don't have your business "to be busy" ... so why DO you work so hard? We all have

our businesses for the same reason. The same three reasons actually - to have financial security, freedom and fulfilment - the 3Fs. But these aren't the outcomes for most small businesses. Instead, the common experience feels like you're on a hamster wheel, where the hours are long and the rewards mediocre. Self-esteem is threatened and life, love and relationships impacted. This book explains why this happens and how to approach work in a smarter way, to have a better business with less busyness and more certain results, so you can get back to living and loving life again. How, by climbing off the hamster wheel and escaping The Busyness Delusion, you can take the easier, more certain route to turn your own business into one that does give you all 3Fs. It covers: Why the

hustle method is seductive but flawed, and how to use a smarter approach Why most self-employed people unwittingly choose the hardest way to earn, and what the easier options are. How to overcome the biggest obstacle to a smarter business and better life. What financial security really means and how to achieve it quicker and more easily. How to get better results by applying a simple model of how the brain works to give you more control. How to eliminate your competition to make it easier to get

better results. Providing a new framework, illustrated in clear diagrams and told through a compelling story, this book reveals why copying others creates the hamster wheel effect, and precisely what to do to have a business and life you deserve. "This book nails the problem with most small businesses. The solutions are time-tested principles, for the first time pulled together in an original and enjoyable way that's easy to understand and implement." Dan Sager
