The oceans contain 97% of the Earth's water, cover 71% of its surface, and hold 50-80% of all life on the planet. Our resource explores the importance of conserving this vast area. Design a board game that illustrates the effects of climate change on Earth's oceans. See how the water cycle explains why most of Earth's salt water is found in the oceans. Find out how climate change will affect ocean currents, resulting in a dramatic change to the farming and fishing industries. Explain how an increase in human population can cause some salt lakes to shrink. Conduct a case study on a container ship that lost several containers in a storm in the north Pacific Ocean. Make your own salt water to represent Earth's oceans and experience what it would be like to visit them. Get tips on what we can do to help protect ocean water. Written to Bloom's Taxonomy and STEAM initiatives, additional hands-on activities, graphic organizers, crossword, word search, comprehension quiz and answer key are also included.

100 Thematic Crossword Puzzles Junior is a reproducible book of, as the title suggests, 100 crossword puzzles. The Junior in the title implies that the book will work with a younger audience, but it also means the puzzles will work with second language learners at a more beginner level. Each

unit is based on a theme. Each unit has 10 words to be studied. To begin, an illustration is given for each vocabulary word. There is a space provided for the student to practice writing the words. The students are then given a blank crossword grid. The illustrations are repeated on the page and serve as the clues to the crossword puzzle. Puzzles from 100 Thematic Crossword Puzzles Junior can be used alone or with other thematically linked materials. Includes a complete Answer Key.
