From marvelous galleries of the Big Dipper, Little Dipper and other constellations to in-depth looks at Mercury, Venus, Earth, Mars, Saturn, Uranus, and Neptune and to the moons of Jupiter, comets, and galaxies--not to mention entries on rockets and spacecraft--DK's Pocket Genius: Space opens up the vast and mysterious expanse of space. What is a nebula? Why does an eclipse occur? How does a telescope work? Featuring more than 170 planets, stars, rockets, and rovers, Pocket Genius: Space answers the questions young readers want to know. Catalog entries include facts provided at-a-glance information, while

locator icons offer immediately recognizable references to aid navigation and understanding, and fact files round off the ebook with fun facts such as record breakers and timelines. Each mini-encyclopedia is filled with facts on subjects ranging from animals to history, cars to dogs, and Earth to space and combines a child-friendly layout with engaging photography and bite-size chunks of text that will encourage and inform even the most reluctant readers.

Artists are increasingly interested in producing work that is not only beautifully designed and produced, but is also environmentally friendly and socially responsible. In Sustainable Ceramics, pioneer Robert Harrison draws on more than four decades of making, and a wealth of experience shared by other artists to present practical possibilities for ceramic artists. This

book covers all the factors to consider when going 'green', from fuels and alternative firing technology to energy-saving methods, sustainable ways to collect and use clay itself, and ways to deal with or recycle waste materials and save water. He suggests simple and achievable methods by which to reduce the carbon footprint of ceramic art, and draws on interviews and examples throughout by practitioners who reclaim, reuse and recycle in their studio or work. Sustainable Ceramics is an essential resource for any ceramicist, studio or school looking for ideas on how to reduce the impact of their practice on the environment.

Opportunities and optimism in Aging. Issues in Aging, 3rd edition takes an optimistic view of aging and human potential in later life. This book presents the most up-to-date facts on aging today, the issues raised by these facts, and the societal and individual responses that will create a successful old age for us all. Mark Novak presents the full picture of aging--exhibiting both the problems and the opportunities that accompany older age. The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions. Learning Goals -Upon completing this book, readers will be able to: -Understand how large-scale social issues--social attitudes, the study of aging, and demographic issues--affect individuals and social institutions -Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know -Separate the myths from the realities of aging -Recognize the human side of aging -Trace the transformation of pension plans, health, and opportunities for personal expression and social engagement to the new ecology of aging today

César Vallejo is one the greatest Spanish-language poets of the 20th century, his monument being the book-length sequence 'Trilce' (a translation of which is published simultaneously with this volume). After the publication of 'Trilce' he published numerous essays and a didactic novel, but did not collect any of his subsequent poems for book publication. Since his death, these poems have usually been referred to as the Posthumous Poems or, collectively, as the 'Poemas humanos' after the title of

one of the posthumous collections. This volume brings together all of the post-'Trilce' work that has been identified by the latest scholarship and included in the most recent Peruvian edition of the author's works. The Spanish texts have benefitted from a number of corrections, as compared to previous publications, and the poems are presented chronologically - in so far as the chronology can be ascertained. The book offers the most complete version yet of this magnificent body of work. The translations are by the award-winning Irish poet-translator, Michael Smith, and the Peruvian scholar Valentino Gianuzzi.

In the latest novel from the New York Times bestselling author of *Agony of the Leaves*, Indigo Tea Shop owner Theodosia Browning may always be a bridesmaid, never a bride, but this groom is never going to make it to the altar... Theodosia Browning's dear friend Delaine Dish has asked her to be a bridesmaid for her wedding. But when the big day arrives, everything seems to be going wrong. First, a massive storm is brewing over Charleston. A bad omen? Second, Delaine's sister is late for the ceremony. And finally, the groom not only has cold feet—his whole body is cold. A murderer has crashed the wedding. As Theodosia comforts a devastated Delaine, she needs to sort out the suspects on the groom's side from the suspects on the bride's side. One thing soon becomes apparent—revenge won't be the only dish served cold at this wedding. And if Theodosia doesn't watch her step, a cold-blooded killer may have a rude reception in store for her...

Not sure? Take the quiz on Marilyn-Grey.com to find out if the Unspoken Series is right for you! Books 1 - 5 of the Unspoken Series are also available as a discounted box set! A guilt-stained heart finds the meaning of forgiveness alongside his true love.... The Unspoken Series is a 10 book series. Books 1-5 are available now. Best when read in order. What Readers Are Saying "This series is like Downton Abbey meets today's world. I love the old-century ideals mixed with the culture we have now. Refreshing!" "I love that this book is different from the first book. The idealism in the first book is sweet, but this book brings us down from the clouds and back to reality as Gavin discovers that his future depends on the choices he makes now." "The relationship

between these two characters is incredible, their bond is so strong it feels like they're real people, and what is even more surreal is that I feel like I know them." "This book was so beautiful. I love Marilyn Grey's writing both in 'Where Love Finds You,' and now even more so in 'Down from the Clouds.'" THIS IS BOOK 2 OF THE UNSPOKEN SERIES Gavin Kessler is one of the most sensitive and emotional people you'd ever know, except you'd never know it. Trying to find out how he feels is like pulling a one-hundred pound bucket of water out of a seventy foot well. But when he finally falls in love and meets the woman of his dreams, who is set on getting to know every part of him, for better or worse, his walls crumble as he is forced to stand face-to-face with the past he's been avoiding. A mysterious letter from Gavin's grandfather sends him and his beloved on a reluctant journey through his childhood and beyond, all the while planning their ideal wedding. Dreams are shattered and new paths are forged as two hearts mold into one. A beautifully romantic continuation of Where Love Finds You.

Many beginning teachers face the problem of effective teaching and controlling the dynamics of the classroom in their early career. Questions such as What do I do if a student disrupts my lesson? and How can I control a class without imposing overly rigid and inflexible rules? are common among beginning teachers. There is always a search for techniques and approaches which can create a conducive learning environment and maintain orderliness in the classroom. Good classroom management practices begin on the first day of school.

Classroom management is a key part of the teacher's overall leadership role and it cannot be separated from the other aspects of teaching. Be it planning a lesson, practicing reward and punishment, developing class activities, engaging the students in student-centred approaches, attending to student motivation, or implementing different instructional tasks, they all demand appropriate behaviour befitting of the occasion and environment on the part of the students. All these elements within the perspectives of classroom management point towards building a positive learning environment to engage the students in learning, so as to minimize behavioural problems and disruptions in lessons. This book attempts to address some of the issues related to classroom management and the facilitation of teaching and learning. The book is divided into the following four parts: Learning Environment (Part 1), Characteristics of Effective Teachers (Part 2), Organising and Managing Instruction (Part 3) and Coping with Classroom Challenges (Part 4). Comprising a total of 12 chapters, the text is structured such that each chapter focuses on a different aspect of teaching and classroom management.

This book presents the papers from the Internal Combustion Engines: Performance, fuel economy and emissions held in London, UK. This popular international conference from the Institution of Mechanical Engineers provides a forum for IC engine experts looking closely at developments for personal transport applications, though many of the drivers of change apply to light and heavy duty, on and off highway, transport and other sectors. These are exciting times to be working in the IC engine field. With the move towards downsizing, advances in FIE and alternative fuels, new engine architectures and the introduction of Euro 6 in 2014, there are plenty of challenges. The aim remains to reduce

both CO2 emissions and the dependence on oil-derivate fossil fuels whilst meeting the future, more stringent constraints on gaseous and particulate material emissions as set by EU, North American and Japanese regulations. How will technology developments enhance performance and shape the next generation of designs? The book introduces compression and internal combustion engines' applications, followed by chapters on the challenges faced by alternative fuels and fuel delivery. The remaining chapters explore current improvements in combustion, pollution prevention strategies and data comparisons. presents the latest requirements and challenges for personal transport applications gives an insight into the technical advances and research going on in the IC Engines field provides the latest developments in compression and spark ignition engines for light and heavy-duty applications, automotive and other markets
