The Elements of Style William Strunk concentrated on specific questions of usage—and the cultivation of good writing—with the recommendation "Make every word tell"; hence the 17th principle of composition is the simple instruction: "Omit needless words." The book was also listed as one of the 100 best and most influential books written in English since 1923 by Time in its 2011 list.

Studying religion in college or university? This book shows you how to perform well on your course tests and examinations, write successful papers, and participate meaningfully in class discussions. You'll learn new skills and also enhance existing ones, which you can put into practice with in-text exercises and assignments. Written by two award-winning instructors, this book identifies the close reading of texts, material culture, and religious actions as the fundamental skill for the study of religion at undergraduate level. It shows how critical analytical thinking about religious actions and ideas is founded on careful, patient, yet creative "reading" of religious stories, rituals, objects, and spaces. The book leads you through the description, analysis, and interpretation of examples from multiple historical periods, cultures, and religious traditions, including primary source material such as Matthew 6:9-13 (the Lord's Prayer), the gohonzon scroll of the Japanese new religion Soka Gakkai, and the pilgrimage to Mecca (hajj). It provides you with typical assignments

you will encounter in your studies, showing you how you might approach tasks such as reflective, interpretive or summary essays. Further resources, found on the book's website, include bibliographies, and links to useful podcasts.

Is peace an aberration? The bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE EAST HAMPTON STAR "Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R. McMaster, author of *Dereliction of Duty* and *Battlefields: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced

human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

The Power of Women MacMillan

From Nobel laureate, world-renowned
doctor, and noted human rights activist
Dr. Denis Mukwege comes an inspiring
clarion call-to-action to confront the
scourge of sexual violence and better
learn from women's resilience, strength,
and power. At the heart of Dr.
Mukwege's message will be the voices of
the many women he has worked with
over the years. Dr. Mukwege will use
individual cases to reassure all survivors
that, even if their psychological wounds
may never fully heal, they can recover
and thrive with the right care and
support. Dr. Mukwege's dramatic
personal story is interwoven throughout
as he explores the bigger issues that
have become a focus of his advocacy.
He will seek to explain why sexual
violence is so often overlooked during
war, and how governments need to
recognize and compensate victims. He
will also stress the importance of
breaking down the taboos surrounding
assault, and the necessity of building a
system that supports women who come
forward. His words advocate for saying
'no' to indifference and he asks readers
to reckon with the West's involvement in
perpetuating sexual violence in places
like the Democratic Republic of Congo,
and to confront the abuse taking place in
their own communities. Sexual violence
does not occur in a vacuum. The conflict
in the Democratic Republic of Congo,
which has raged for over 20 years and
has claimed an estimated 5 million lives,
is inseparable from Western patriarchy
and economic colonization. And this
cycle of violence and spoils is not limited
to Congo. Dr. Mukwege's work has led
him to South Korea, Latin America, the
Middle East, and elsewhere in Africa,
where he has found striking similarities

in women's testimonies. The truth is, through the intricate ties of the global economy, we are all implicated in violence against women – whether it occurs amidst the fighting in the Democratic Republic of Congo or on college campuses in the West. And Dr. Mukwege's writing will address men as well, encouraging and guiding them to become allies in the fight against sexual abuse, in war and in peace. Building more inclusive, gender-balanced societies will require developing what he calls "positive masculinity" – a systemic change in male behavior and attitudes towards women. Dr. Mukwege hopes to inspire other men to speak out and join the struggle, rather than leaving women to fight the battle alone. He will also make the case, drawing from his experience and a wealth of research on the topic, that when women are involved as economic and political decision makers, all of society benefits. The Power of Women will illuminate the enduring strength of women in the face of violence and trauma, and give hope for the potential of individuals to turn the

tide.
