Jaguar/Daimler XJ6,  
XJ12 & Sovereign  
Veloce Publishing Ltd  
From the late 19th  
century the progress of  
the movies has

paralleled that of the  
motorcar. Now, for the  
first time, these  
developments are  
chronicled through the  
medium of the Movie  
Poster. The book  
celebrates the  
progression from the  
simple and crude,  
through the functional,

the ambitious, the barking mad, right up to today's high-tech, computer generated, often soulless examples of both cinema and automobile. By charting the poster art of the movies chronologically, the book takes you on a journey through the 20th Century in black and white, sepia, hand coloring, stone-litho, and glorious Technicolor. The book shows the obsessively accurate, the artist's impression, the photographic and the wildly imaginative depictions of the automobile. The development of product placement in marketing is well-illustrated. Why did the Mustang appear in so little publicity for Bullitt? Where was the

Mini in most of the world's publicity for The Italian Job? Why wasn't the Alfa Romeo Dueto prominent in the advertising of The Graduate? The book doesn't provide intricate plot lines or vast cast lists; there are many reference works, both in books and on-line that supply this detail. Instead it shows how different countries promoted the same movie and give a brief guide to buying posters of movies safely. Primarily this is a book to wallow in, beautifully photographed artwork is guaranteed to bring memories favorite cars in movies and gives a fascinating insight into the evolution of cinema, marketing and the automobile. With 250 color photos, this book is a fascinating

feast in all respects. With 250 pictures of rare and original posters and a star rating system for rarity, this is a beautiful book to browse and a valuable investment guide.

If a racing car could disappoint an entire nation, that was the dramatic fate of Britain's BRM. Few cars of any kind have a more exotic and exciting reputation among enthusiasts than the first BRM, a 16-cylinder wonder machine, heralded as a certain race winner and backed by the nation's motor industry, it was British Racing Motor's bid to put the UK at the top of the Grand Prix series. It did come good --

producing more than 500 horsepower -- but only after the Formula 1 for which it was built had expired.

Incredibly

comprehensive, this book is the ultimate reference source to every aspect of these machines, including 22 very detailed model profiles and delivery details of 113,000 individual machines to 153 countries, color schemes and much, much more. It contains full international history of the popular Triumph Tiger Cub & Triumph Terrier motorcycles, technical and design specifications of engine and transmission components, lubrication, fuel and electrical systems.

*Jaguar E-Type 3.8 & 4.2 litre* Veloce Publishing Ltd

A fascinating and nostalgic compilation of rider profiles written over a three year period, which originally appeared in *Classic Motorcycle* magazine, and is now accompanied by a new set of over 100 photographs. All of the riders featured became top achievers in their field, although, for some, it was their first interview. During the 1950s and 60s, scrambling especially drew huge crowds to meetings all across the country, and, thanks to TV coverage such as BBC Grandstand Trophy, and ITV's World of Sport, many of the competitors featured in this book became household names. Each chapter

includes the competition years of the riders, and also gives an overview of their careers, and conveys their enthusiasm for the sport.

*Morris Minor* Veloce Publishing Ltd

This book covers the full history of the Porsche 928, looking at the variants sold on the domestic, American, British, Australian and Japanese markets, from the time the car was launched in 1977 until the last one was built in 1995.

Years of meticulous research have resulted in this unique history, technical appraisal (including tuning and motorsports) and data book of the Ford V8 Cleveland 335 engines produced in the USA,

Canada and Australia, including input from the engineers involved in the design, development and subsequent manufacture of this highly prized engine from its inception in 1968 until production ceased in 1982.

*The Triumph Trophy Bible* Veloce Publishing Ltd

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des

explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.

 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies

within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

Oulton Park in the late 1960s was one of the last circuits to play host to non-championship Formula 1 races. Set in beautiful Cheshire parkland, it has always been a favorite with drivers who relish its challenging curves and with spectators who could watch their heroes compete on a true road circuit. Drivers such as Jim

Clark, Jackie Stewart, Graham Hill, Surtees, Rindt and Brabham came to Oulton for the Gold Cup and spectators could see and even meet them in the open paddock atmosphere of the time. Major sports & GT races such as the RAC TT were also on the Oulton Park calendar with Lola T70s, GT40s, Ferraris, Lotii and, of course, Chevrons in the hands of Hulme, Redman, Bonnier and other top drivers. Club race meetings provided variety and plenty of action with the VSCC's Seaman Trophies meeting for vintage and historic racers being the highlight of the season for many racegoers.

The automobile seems to be as popular now as it ever was. Posters of cars still adorn many a child's bedroom wall, and school exercise books are full of doodles of cars. This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the different styles to

guide the reader in creating great artwork and designs of their own. The book shows in detail how to use different materials and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book also features an easy to follow index for quick reference on different types of drawing.
