Economics In Practice: Evidence-based Policymaking In Singapore Cambridge University Press

Now in its fifth edition, Understanding Enterprise has established itself as one of the most widely respected guides to the discipline, providing a refreshingly perceptive approach to understanding and applying theory. It offers a critical introduction to enterprise in its broadest context, with particular emphasis on its application to entrepreneurs and small business. Divided into three parts, the course examines traditional approaches, new perspectives on the subject, and the success-or otherwise-of government policy. Written by leading experts with a combined wealth of research, teaching and consulting experience, this textbook will be an essential companion for undergraduate and postgraduate students of enterprise and small business. Policy makers and practitioners will also benefit from this comprehensive guide. New to

this Edition: - Extensively revised to take into account the latest thinking and research, with updated content and examples throughout - Updated coverage of the impact and failings of comparative government policies - Enhanced pedagogical features to engage students and enliven their learning experience

Singapore is recognised to be one of the most successful economies in the world given its rapid economic and social

transformation. Its success is the result of a judicious blend of markets and government, high-quality governance, and public policies that are coherent, consistent and coordinated. This book showcases the contribution of Economics to Singapore's public policymaking. To illustrate the diverse areas that economic analysis has contributed to, this book comprises three sections that span the economic and non-economic policy domains in Singapore. Section I covers economic policies relating to economic growth, trade, investments, productivity, innovation, industrial development, the enterprise landscape and manpower. Section II highlights socioeconomic and security policies, and covers themes such as income inequality and mobility, families, healthcare costs and crime. In Section III, the focus is on infrastructural policies relating to the environment, housing and land transport. This book commemorates the 20th anniversary of the Singapore Government's Economist Service. As the premier service for economists in the Singapore public sector, the Economist Service plays an integral role in supporting evidence-based policymaking through rigorous economic research and analysis of public policies.
