 Learn the history and techniques of hand lettering from a renowned design studio. This practical and visual guide features exercises, case studies, and typographic models for letter styles such as serif, sans serif, brush, and script. Known throughout the world for its eclectic typeface collections and far-reaching creative exploits, from fonts and fashion to ceramics and space technology, House Industries has been a standard bearer for American graphic design for more than twenty-five years. The House Industries Lettering Manual is an accessible hands-on

guide to drawing letters from Ken Barber, House's head letterer and type design director. Modeled after a series of sold-out lettering workshops that Ken has conducted around the world, this highly illustrated handbook outlines the history of lettering, various methods and techniques, common letter styles, and best practices for getting paid for your work. This handy how-to guide also provides lettering models to help sharpen your drawing skills and offer departure points for further experimentation. Designed by House Industries and including copious examples, exercises, and opportunities to practice what you've learned, plus photographs of works-in-progress and finished projects, this instructive and visually engaging book will help you master the dynamic art of lettering, whether you're a budding artist or an experienced designer.

Fashion design begins in the designer's creative mind, and drawing is the crucial next step to communicating creative ideas to others to bring those ideas to reality. Clear, expressive drawings engage and bring together people in patternmaking, production, marketing, and all other facets of the fashion business, ensuring that everyone shares the same vision that originates with the designer. Kathryn Hagen brings decades of experience teaching design students how best to translate their ideas into drawings. She opens with basic drawing skills using both hand tools and computer techniques before moving on to applying those skills to both the human figure and the specifics of various types of clothing. Throughout the book she exposes designers to myriad techniques and styles, encouraging each individual to discover what works best for him or her. Each chapter ends with practice exercises as well as visual references to review and reinforce material learned in the chapter lessons. Videos demonstrating hands-on examples can be viewed at waveland.com/Hagen, with emphasis on distressed fabrics and novelty treatments. 84 pages of color present a wide variety of rendering techniques.
