When Harvard-trained sociologist Peter Moskos left the classroom to become a cop in Baltimore's Eastern District, he was thrust deep into police culture and the ways of the street--the nerve-rattling patrols, the thriving drug corners, and a world of poverty and violence that outsiders never see. In *Cop in the Hood*, Moskos

reveals the truths he learned on the midnight shift. Through Moskos's eyes, we see police academy graduates unprepared for the realities of the street, success measured by number of arrests, and the ultimate failure of the war on drugs. In addition to telling an explosive insider's story of what it is really like to be a police officer, he makes a passionate argument for drug legalization as the only realistic way to end drug violence--and let cops once again protect and serve. In a new afterword, Moskos describes the many benefits of foot patrol--or, as he calls it, "policing green."

In this full biography of Gopal Krishna Gokhale reassesses the Indian political scene during the last decades of the nineteenth century and the first decade of the twentieth. In focusing on the career of the preeminent leader of his time, B. R. Nanda surveys the Indian Nationalist movement during the years 1885-1915 and especially the developments within the Indian National Congress.

The author's clear account of Indo-British relations spans the administrations of Lords Curzon, Minto, and Hardinge. Through vignettes of eminent Indian contemporaries, insights into attitudes of officials, and vividly described popular reactions to British policies, he captures the spirit of India's political life at the turn of the century. B. R. Nanda interweaves his discussion of Gokhale's ideas and actions with analysis of major events of the day. He considers the ferment in Maharashtra, the social reform movement, the conflict between Moderates and Extremists in the Indian National Congress, the crisis in the Punjab in 1907, and many other important topics. His book gives rare glimpses of two great friends of India, A. O. Hume and William Wedderburn. Materials from Indian as well as British sources illuminate the pre-Gandhian phase of the conflict between British imperialism and Indian nationalism. Originally published in 1977. This book analyses legal orders, actors and democracy in contemporary India, with a particular focus on the everyday contexts and dynamics of human rights, citizenship and socio-economic rights and laws. The contributions explore both 'institutionalization from above', where the judiciary and legislative body aim to govern people, and 'institutionalization from below', where the governed attempt to expand their substantive rights embedded within their everyday lives. This analysis identifies contact zones between the two directions, which act as spaces for democratic participation and negotiation. Such a perspective should be useful to both those who are interested in Indian politics, and anthropologists and sociologists working on

dynamics of laws and rights.

Bioethics and the Law takes a multidisciplinary approach that combines legal discussion with jurisprudential, philosophical, and sociological materials. Strong expressions of different points of view highlight debates about bioethical issues. The text underscores the need to mediate between the law's focus on broad rules and the bioethicist's

concern with context and detail. Students are required to consider the ethical implications of health care as a business, face the shifting parameters of the provider/patient relationship in healthcare, and understand the role of government in designing and implementing healthcare programs such as Medicaid and Medicare. *Bioethics and the Law* supplements the traditional focus of bioethics on the interest of the individual with a second focus on the socio-economic developments that shape healthcare. Connecting broad public healthcare issues to concerns of the individual patient/healthcare consumer, the text promotes understanding of unsettling and complex situations and shows the implications of bioethical developments for understandings of personhood. A helpful glossary defines basic terms and several short appendices summarize recent developments in science and technology. family forever changed by one fateful day in 1969, from the author of *The Ministry of Utmost Happiness* NEW YORK TIMES BESTSELLER • MAN BOOKER PRIZE WINNER Compared favorably to the works of Faulkner and Dickens, Arundhati Roy's modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing "big things [that] lurk unsaid" in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, *The God of Small Things* is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated. *My Year Policing Baltimore's Eastern District* Springer

Now, as we are only ten years behind 2030, the Sustainable Development Goals-2030 have become more important than ever before. The Sustainable Development Goals

(SDGs), which are also known as the Global Goals, are set of seventeen goals that were adopted by all United Nations Member States in 2015. It was a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by 2030. It is the best time to look back on what has been done towards achieving SDGs and to discuss the strategies for the next 10 years. In this context, the current issue of "Socrates" brings a total of eight papers which talk on one or other aspects of SDGs. In the very first paper, Prof. Arvind K Sharma talks about strategies for quality education (SDG-4) in India. He examines select micro-level considerations as it portrays the strategies for academic excellence in the country's higher education sector. His paper focuses next on the dire need to launch a country-wide campaign to translate the classics of the respective disciplines in the Hindi and Regional Languages. In the second paper, Deepak Mishra analyses the basic principles of Nai Talim in terms of educational curriculum and pedagogy

and examines its role in contemporary India. He has very well attempted to highlight the relevance of Gandhiji's New Talim for achieving the SGD-4, i.e. Quality Education. The concept of localizing the Sustainable Development Goals has been gaining attention among the intellectuals and professionals. The localisation of SDGs is how local governments can critically contribute to the overall achievement of the SDGs. In this context, Ashish Jha has elucidated the role of Panchayati Raj Institutions in achieving the SDGs. Accountability is one of the key features for a Good Government, and effective Public Service Delivery is a major function of government. Sandeep in the fourth paper has discussed the role of social accountability for effective public service delivery. He highlights how citizens- individually and collectively, can influence service delivery through access to information and opportunities to use it to hold the providers accountable. In the fifth paper, Arpan Kumar Sharma, Nayan Jyoti Nath, and Dr Tanu Shukla try to explore the relationship

between the level of education of women and its influence on the fertility in Empowered Action Group (EAG) states of India. The paper further highlights that the interplay of education and fertility is further affected by religion, which acts as the determinants of fertility. In the next, Dr Bharati Garg and Anupama Sharma discuss integrating culture in various initiatives for achieving SDGs. They rightly observe that cultural rights, diversity and creativity are core components of human and sustainable development. In the sixth paper, Nilanjan Bhor has tried to link education with Health. He has cited the lessons from children of migrant construction labourers in India for his arguments. He advocates for the compulsory bridging programme for migrant children, compulsory health-checkup and supplementary nutrition along with education and inter-state partnership in addressing schooling of migrant children. In the last paper of this issue, Mahesh Singh Soopa and Dr Kuldeep Singh Panwar attempt to explain the emerging trends of food adulteration in India. They

have used FSSAI data to show the increasing incidents of food adulteration in recent years and suggested some remedies. *A Novel* Trivium LLC India is frequently represented as the quintessential land of religion. Johannes Quack challenges this representation through an examination of the contemporary Indian rationalist organizations: groups who affirm the values and attitudes of atheism, humanism, or free-thinking. Quack shows the rationalists' emphasis on maintaining links to atheism and materialism in ancient India and outlines their strong ties to the intellectual currents of modern European history. At the heart of *Disenchanted India* is an ethnographic study of the organization "Andhashraddha Nirmulan Samiti" (Organization for the Eradication of Superstition), based in the Indian State of Maharashtra. Quack gives a nuanced account of the Organization's specific "mode of unbelief." He describes the group's efforts to encourage a scientific temper and to combat beliefs and practices that it regards

as superstitious. Quack also shows the role played by rationalism in the day-to-day lives of the Organization's members, as well as the Organization's controversial position within Indian society. *Disenchanted India* contributes crucial insight into the nature of rationalism in the intellectual life and cultural politics of India.
