From farmer Joel Salatin's point of view, life in the 21st century just ain't normal. In FOLKS, THIS AIN'T NORMAL, he discusses how far removed we are from the simple, sustainable joy

that comes from living close to the land and the people we love. Salatin has many thoughts on what normal is and shares practical and philosophical ideas for changing our lives in small ways that have big impact. Salatin, hailed by the New York Times as "Virginia's most multifaceted agrarian since Thomas Jefferson [and] the high priest of

the pasture" and profiled in the Academy Award nominated documentary Food, Inc. and the bestselling book The Omnivore's Dilemma, understands what food should be: Wholesome, seasonal, raised naturally, procured locally, prepared lovingly, and eaten with a profound reverence for the circle of life. And his message doesn't stop there. From child-rearing,

to creating quality family time, to respecting the environment, Salatin writes with a wicked sense of humor and true storyteller's knack for the revealing anecdote. Salatin's crucial message and distinctive voice--practical, provocative, scientific, and down-home philosophical in equal measure--make FOLKS, THIS AIN'T NORMAL a must-read book. Sasha Grey, rising adult film and pop-culture star,

takes control in her new monograph "neu sex," moving out from in front of the camera to behind it, turning the lens on the wild world she inhabits. "When I first got into the adult industry, I decided to take my photography much more seriously. I started taking a camera with me to capture my experiences on set, so it was a moment in time, a memory for myself--not the video that would be seen by thousands of people. On days where I was physically unable to capture an image, Ian, my

fiance, became my third arm. He understands my aesthetic, or lack thereof. Ian is a photographer, yet the work in this book is quite different from his usual style. When you are so close with someone, there is a shorthand and true understanding of what the other person is trying to accomplish. If there's something I am physically unable to photograph, I can say one word and Ian can assist me with my vision. Ian can capture intimate moments with me that nobody can fabricate,

because of our relationship. The strong sense of familiarity eliminates all boundaries between the subject and the photographer. "Documenting myself has almost become a necessity. "There are so many photos of me, taken by other people, that aesthetically I have no control over. Documenting myself allows me to reflect on the day, on the feelings I am having at that second. When you work in the entertainment industry, there are always

surprises; there certainly isn't one day that is similar to the last. Personally, it's important to embrace this and appreciate it every day. "Still images vividly capture emotion, a second in time that can be left open for interpretation by the viewer and the creator. I am inspired by the work of Cindy Sherman and Nan Goldin. Sherman's work continues to inspire me to develop certain characters. I figured if I am on set I might as well take advantage of my

surroundings, and document my life in an exciting, untraditional manner. I look back at photos, and see how much I've grown, how my opinions have changed, and how they will continue to change." --

You think you know the people next door... What if they know you better? I always dreamed of moving back home to Ridgeview Pines, with its white fences and sloping lawns. I wish it had happened under different

circumstances, but now I'm here I feel safe and ready for a fresh start with my little family. The first thing I do every morning is pick up my phone and check The Neighbor List-our local message board. Maybe the people next door know a little too much about where their neighbors are and what they're doing, but it's safer that way, isn't it? And my husband-he wouldn't dare sneak behind my back with so many eyes watching. Just when I'm beginning to

relax, a woman I've known since I was small is found dead on the white tiles of her bathroom floor. I watch messages of condolence flood my screen. No one else suspects a thing. But I know that among all these friendly people, watching out for one another, someone knows more than they're sharing. And I wonder-how far back do they remember, and who's next? From “the supreme master of suspense” comes the chilling chronicle of one man’s descent into madness. (New York Times) When New Orleans coffee merchant Louis Durand first meets his bride-to-be after a months-long courtship by mail, he’s shocked that she doesn’t match the photographs sent with her correspondence. But Durand has told his own fibs, concealing from her the details of his wealth, and so he mostly feels fortunate to find her so

much more beautiful than expected. Soon after they marry, however, he becomes increasingly convinced that the woman in his life is not the same woman with whom he exchanged letters, a fact that becomes unavoidable when she suddenly disappears with his fortune. Alone, desperate, and inexplicably love-sick, Louis quickly descends into madness, obsessed with finding Julia and bringing her to justice — and simply with seeing her again. He engages the

services of a private detective to do so, embarking on a search that spans the southeast of the country. When he finally tracks her down, the nightmare truly begins... A dark tale of the destructive power of love, *Waltz into Darkness* is a classic “femme fatale” narrative that shows “the father of the modern suspense story” (LA Times) at the top of his unsettling craft. It has been adapted for film twice, most notably serving as the basis for Francois Truffaut’s

Mississippi Mermaid.

 eGirls, eCitizens is a landmark work that explores the many forces that shape girls' and young women's experiences of privacy, identity, and equality in our digitally networked society. Drawing on the multi-disciplinary expertise of a remarkable team of leading Canadian and international scholars, as well as Canada's foremost digital literacy organization, MediaSmarts, this

collection presents the complex realities of digitized communications for girls and young women as revealed through the findings of The eGirls Project (www.egirlsproject.ca) and other important research initiatives. Aimed at moving dialogues on scholarship and policy around girls and technology away from established binaries of good vs bad, or risk vs opportunity, these seminal contributions explore the interplay of factors that shape online

environments characterized by a gendered gaze and too often punctuated by sexualized violence. Perhaps most importantly, this collection offers first-hand perspectives collected from girls and young women themselves, providing a unique window on what it is to be a girl in today's digitized society.

Torre DeRoche isn't looking for love, but a chance encounter in a San Francisco bar sparks an instant connection with a soulful Argentinean man who unexpectedly sweeps her off her feet. The problem? He's just about to cast the dock lines and voyage around the world on his small sailboat, and Torre is terrified of deep water. However, lovesick Torre determines that to keep the man of her dreams, she must embark on the voyage of her nightmares, so she waves good-bye to dry land and

braces for a life-changing journey that's as exhilarating as it is terrifying. Somewhere mid-Pacific, she finds herself battling to keep the old boat, the new relationship, and her floundering sanity afloat. . . This sometimes hilarious, often harrowing, and always poignant memoir is set against a backdrop of the world's most beautiful and remote destinations. Equal parts love story and travel memoir, *Love with a Chance of Drowning* is witty, charming, and proof

positive that there are some risks worth taking. *3 on a bed* Atria Books This book examines how digital communications technologies have transformed modern societies, with profound effects both for everyday life, and for everyday crimes. Sexual violence, which is recognized globally as a significant human rights problem, has likewise changed in the digital age. Through an investigation into our increasingly and ever-normalised digital lives, this study analyses the

rise of technology-facilitated sexual assault, 'revenge pornography', online sexual harassment and gender-based hate speech. Drawing on ground-breaking research into the nature and extent of technology-facilitated forms of sexual violence and harassment, the authors explore the reach of these harms, the experiences of victims, the views of service providers and law enforcement bodies, as well as the implications for law, justice and resistance. Sexual

Violence in a Digital Age is compelling reading for scholars, activists, and policymakers who seek to understand how technology is implicated in sexual violence, and what needs to be done to address sexual violence in a digital age.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say

Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death

of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the

world of gospel, she made a commitment to Christ that sustains her to this day.

Experts examine censorship, surveillance, and resistance across Asia, from China and India to Malaysia and the Philippines. A daily battle for rights and freedoms in cyberspace is being waged in Asia. At the epicenter of this contest is China—home to the

world's largest Internet population and what is perhaps the world's most advanced Internet censorship and surveillance regime in cyberspace. Resistance to China's Internet controls comes from both grassroots activists and corporate giants such as Google. Meanwhile, similar struggles play out across the rest of the region, from India and Singapore to Thailand and Burma, although each national dynamic is unique. Access Contested, the third volume from the

OpenNet Initiative (a collaborative partnership of the Citizen Lab at the University of Toronto's Munk School of Global Affairs, the Berkman Center for Internet and Society at Harvard University, and the SecDev Group in Ottawa), examines the interplay of national security, social and ethnic identity, and resistance in Asian cyberspace, offering in-depth accounts of national struggles against Internet controls as well as updated country reports by ONI

researchers. The contributors examine such topics as Internet censorship in Thailand, the Malaysian blogosphere, surveillance and censorship around gender and sexuality in Malaysia, Internet governance in China, corporate social responsibility and freedom of expression in South Korea and India, cyber attacks on independent Burmese media, and distributed-denial-of-service attacks and other digital control measures across Asia.

The editor of this new Routledge title argues that our economic and social lives are now utterly dependent upon the successful coordination of the Internet. Moreover, as the Internet expands from its current form to an 'Internet of things', she

suggests that its stability and security will soon be recognized as important as other global concerns, like battling terrorism and fighting climate change. Who controls the Internet? The question has profound implications for our access to knowledge, the pace of economic growth, and the protection of human rights, not least freedom of expression and the right to privacy. And the question's importance has been underscored in recent times by landmark events, including

revelations about the actual and potential power of social-media companies, and the breathtaking extent of surveillance by intelligence and security organizations, such as the NSA in the United States and Britain's GCHQ. It is perhaps only in the last several years that issues about and around the governance of the Internet have entered the public consciousness, but serious academic and policy work dates back decades. And now there is a critical mass of

scholarship that can usefully be collected under the rubric of 'Internet Governance'. Like the Internet itself, leading theorists and researchers in the field are distributed globally, and work in disciplines across the social sciences and humanities. Indeed, much of the relevant literature remains inaccessible or is highly specialized and compartmentalized, so that it is difficult for many of those who are interested in the subject to obtain an informed,

balanced, and comprehensive overview. This new four-volume collection, published as part of Routledge's acclaimed series, Critical Concepts in Sociology, meets the need for a reference work to make sense of the subject's vast and dispersed literature and the continuing explosion in research output.
