Electronics: Theory and Servicing

Sixteen-year-old Tabitha, the daughter of a preacher who believes science is Satan's work, longs to study at a

university and dig for dinosaur bones, but in South Dakota at the end of the nineteenth century such ambitions are discouraged.

Supplement 1

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Profile

The purpose of this project was to develop a semester length community college curriculum for a course in the theory and servicing of digital-high definition television for the students in the service technology field of electronics at Santa Ana Community College in Santa Ana, California. Additionally, it is designed with the current electronic service industry in mind.
