How to Apply for Admission to a University  
 Cambridge : Harvard University Press  
 First published in 1965, *The Culture and Civilisation of Ancient India in Historical Outline* is a strikingly original work, the first real cultural history of India. The main features of the Indian character are traced back into remote antiquity as the natural outgrowth of historical process. Did the change from food gathering and the pastoral life to agriculture make new religions necessary? Why did the Indian cities vanish with hardly a trace and leave no memory? Who were the Aryans – if any? Why should Buddhism, Jainism, and so many other sects of the same type come into being at one time and in the

same region? How could Buddhism spread over so large a part of Asia while dying out completely in the land of its origin? What caused the rise and collapse of the Magadhan empire; was the Gupta empire fundamentally different from its great predecessor, or just one more ‘oriental despotism’? These are some of the many questions handled with great insight, yet in the simplest terms, in this stimulating work. This book will be of interest to students of history, sociology, archaeology, anthropology, cultural studies, South Asian studies and ethnic studies.

This book deals primarily with the National Education Policy 2020 of India. In the book, an attempt has been made to highlight the provisions of the latest

National Education Policy in comparison with some best education systems in the world such as the USA, the UK, and Finland. The comparative analysis with these countries has made this book unique and interesting to read. The examination of elementary as well as secondary education of Japan, and the best practices of Finnish schools and government have opened up a new door of knowledge to the readers. This book has been written mainly for students, teachers, guardians, and other stakeholders, who are actually going to benefit from the National Education Policy 2020. India's future growth and genuine sustainable development can only be achieved through the proper implementation of the NEP-2020.

Arguably the oldest form of health care, Ayurveda is often referred to as the "Mother of All Healing." Although there has been considerable scientific research done in this area during the last 50 years, the results of that research have not been adequately disseminated. Meeting the need for an authoritative, evidence-based reference, *Scientific Basis for Ayurvedic Therapies* is the first book to analyze and synthesize current research supporting Ayurvedic medicine. This book reviews the latest scientific information, evaluates the research data, and presents it in an easy to use format. The editor has carefully selected topics based on the availability of scientific studies and the prevalence of a disease. With contributions from experts in their respective fields, topics include Ayurvedic disease management, panchkarma, Ayurvedic bhasmas, the

current status of Ayurveda in India, clinical research design, and evaluation of typical clinical trials of certain diseases, to name just a few. While there are many books devoted to Ayurveda, very few have any in-depth basis in scientific studies. This book provides a critical evaluation of literature, clinical trials, and biochemical and pharmacological studies on major Ayurvedic therapies that demonstrates how they are supported by scientific data. Providing a natural bridge from Ayurveda to Western medicine, *Scientific Basis for Ayurvedic Therapies* facilitates the integration of these therapies by health care providers.

Gandhi, with his loincloth and walking stick, seems an unlikely advocate of postmodernism. But in Postmodern Gandhi, Lloyd and Susanne Rudolph portray him as just that in eight thought-provoking essays that aim to correct the common association of Gandhi with traditionalism. Combining core sections of their influential book *Gandhi: The Traditional Roots of Charisma* with substantial new material, the Rudolphs reveal here that Gandhi was able to revitalize tradition while simultaneously breaking with some of its entrenched values and practices. Exploring his influence both in India and abroad, they tell the story of how in London the young activist was shaped by the antimodern "other West" of Ruskin, Tolstoy, and Thoreau and how, a generation later, a mature Gandhi's thought and action challenged modernity's hegemony. Moreover, the Rudolphs argue that Gandhi's critique of modern civilization in his 1909 book *Hind Swaraj* was an opening salvo of the postmodern era and that his theory and practice of nonviolent collective action (satyagraha) articulate and exemplify a postmodern understanding of situational truth. This radical interpretation of Gandhi's life will appeal to anyone who wants to understand Gandhi's relevance in this century, as well as students and scholars of politics, history, charismatic leadership, and postcolonialism.
