The Kieso, Weygandt, Warfield, Young, Wiecek, McConomy:
 Intermediate Accounting text has an outstanding reputation as
 "THE" text for intermediate accounting and is viewed as a reliable
 resource by accounting students, faculty, and professionals. After
 listening carefully to instructors and students alike, and after
 having built on what we have learned over ten successful editions
 and more than 30 years of being the market leader, we are
 confident that the eleventh edition will continue to meet the
 needs of instructors and students. With the merging of
 CMA/CA/CGA into the CPA, instructors want materials that link to
 the competencies that are outlined by the CPA. Kieso has done
 this and has adapted many questions to prepare students for the
 CPA designation. This, along with the integration of the
 International Accounting Standards and their comparison with
 Accounting Standards for Private Enterprises enhances the main
 goal of the book, "to help students understand, prepare and use
 financial information by linking education with the 'real-world'
 accounting environment". Our industry-experienced and leading-
 edge author expertise in the field of IFRS, combined with an
 update of the text's technical content ensures that accounting
 faculty and students can continue to rely on Intermediate
 Accounting.

While there is growing interest in IFRS within the US, interest
 outside the US has exploded. Weygandt's fourth edition of
 Financial Accounting: IFRS highlights the integration of more US
 GAAP rules, a desired feature as more foreign companies find the
 United States to be their largest market. The highly anticipated
 new edition retains each of the key features (e.g. TOC, writing
 style, pedagogy, robust EOC) on which users of Weygandt
 Financial have come to rely, while putting the focus on
 international companies/examples, discussing financial
 accounting principles and procedures within the context of IFRS,
 and providing EOC exercises and problems that present students
 with foreign currency examples instead of solely U.S. dollars.
