PUBLISHERS WEEKLY: "An unusually lighthearted apocalyptic tale." Sam Terra is having a bad week. He lost Molly, the woman he secretly loves, when she vanished before his eyes at the exact

same time that ten percent of the inhabitants of Earth disappeared. Naturally upset, Sam follows clues about the global vanishing with questionable help from his friends including a misanthropic co-worker and a childhood pal. When Molly reappears in the body of a man during a night of monster-laden devastation, Sam finally learns the truth. Not just about her, but about the planet Earth and the entire cosmos surrounding it. What we consider mundane reality, others consider a game . . . and not a very good one. The whole thing is about to be shut down.

You are a writer and you have a killer book idea. When your project starts to take off you will find yourself managing a writhing tangle of ideas, possibilities and potential potholes. How do you turn your inspiration into a finished novel? Writing a User's Manual offers practical insight into the processes that go into writing a novel, from planning to story development, research to revision and, finally, delivery in a form which will catch the eye of an agent or publisher. David Hewson, a highly productive and successful writer of popular fiction with more than sixteen novels in print in twenty or so languages, shows how to manage the day to day process of writing. Writers will learn how to get the best out of software and novel writing packages such as Scrivener, which help you view your novel not as one piece of text, but as individual linked scenes, each with their own statistics, notes and place within the novel structure. As you write, you will need to assemble the main building blocks to underpin your artistry : story structure; genre - and how that affects what you write; point of view; past, present or future tense; software for keeping a book journal to

manage your ideas, research and outlining; organization and more. The advice contained in this book could mean the difference between finishing your novel, and a never-ending work in progress. An essential tool for writers of all kinds. Foreword by Lee Child.

Why are some companies able to generate committed, long-term customers while others struggle to stay afloat? Why do the employees of some organizations fully dedicate themselves while others punch the clock without enthusiasm? By studying the ins and outs of companies that enjoy extraordinary loyalty from customers and employees, John Jantsch reveals the systematic path to discovering and generating genuine commitment. Jantsch's approach is built on three foundational planks, which he calls the clarity path, the culture patron, and the customer promise. He draws on his own experiences and shares true stories from businesses like Threadless, Evernote, and Warby Parker. His strategies include these: Build your company around a purpose. People commit to companies and stories that have a simple, straightforward purpose. Understand that culture equals brand. Build your business as a brand that employees and customers will support. Lead by telling great stories. You can't attract the right people or get them to commit without telling a story about why you do what you do. Treat your staff as your customer. A healthy customer community is the natural result of a healthy internal culture. Serve customers you respect. It's hard to have an authentic relationship with people you don't know, like, or trust. As Jantsch says, "Have you ever encountered a business where everything felt effortless? The experience was perfect, and the products, people, and brand worked together gracefully. You made an odd request; it was greeted with a smile. You went to try a new feature; it was right where it should be. You walked in, sat down, and felt right at home. . . . Businesses that run so smoothly as to seem self-managed aren't normal. In fact, they are terribly counterintuitive, but terribly simple as it turns out." As a follow-up to *The Referral Engine*, this is about more than just establishing leads- it's about building a fully alive business that attracts customers for life.

Lead a life of adventure, meaning and purpose—and earn a good living. “Thoughtful, funny, and compulsively readable, this guide shows how ordinary people can build solid livings, with independence and purpose, on their own terms.”—Gretchen Rubin, author of the #1 New York

Times bestseller *The Happiness Project* Still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he's never held a “real job” or earned a regular paycheck. Rather, he has a special genius for turning ideas into income, and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses earning \$50,000 or more from a modest investment (in many cases, \$100 or less), and focused on the 50 most intriguing case studies. In nearly all cases, people with no special skills discovered aspects of their personal passions that could be monetized, and were able to restructure their lives in ways that gave them greater freedom and fulfillment. Here, finally, distilled into one easy-to-use guide, are the most valuable lessons from those who've learned how to turn what they do into a gateway to self-fulfillment. It's all about finding the intersection between your “expertise”—even if you don't consider it such—and what other people will pay for. You don't need an MBA, a business plan or even employees. All you need is a product or service that springs from what you love to do anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running; what these individuals did in the first weeks and months to generate significant cash; some of the key mistakes they made along the way, and the crucial insights that made the business stick. Among Chris's key principles: If you're good at one thing, you're probably good at something else; never teach a man to fish—sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold. Today, we know that it's up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way.
