 Book & CD-ROM. Training is an investment for the future, the only foundation on which success can be built. Training delivers excellence in product and performance, elevating a good restaurant into a great one. Training will keep the skills of its employees and management sharp. But in no other industry is its absence or presence as obvious as it is in the food service industry. It is hard to find good, qualified employees, and even harder to keep them. In addition, unemployment levels are low, and competition for qualified workers is tough. What's the

answer? Training! Constant training and re-enforcement keeps employees and management sharp and focused, and demonstrates the company cares enough to spend time and subsequently money on them. And that's precisely what this encyclopaedic book will do for you -- be your new training manager. The first part of the book will teach you how to develop training programs for food service employees, and how to train the trainer. The book is full of training tips, tactics and how-to's that will show you proper presentation, and how to keep learners motivated both during and after the training.
