From Heather Morris, the New York Times bestselling author of the multi-million copy bestseller *The Tattooist of Auschwitz* and *Cilka's Journey: a story of family, courage, and resilience*, inspired by a true story. Against all odds, three Slovakian sisters have survived years of imprisonment in the most notorious death camp in Nazi Germany: Auschwitz. Livia, Magda, and Cibi have clung together, nearly died from starvation and overwork, and the brutal whims of the guards in this place of horror. But now, the allies are closing in and

the sisters have one last hurdle to face: the death march from Auschwitz, as the Nazis try to erase any evidence of the prisoners held there. Due to a last minute stroke of luck, the three of them are able to escape formation and hide in the woods for days before being rescued. And this is where the story begins. From there, the three sisters travel to Israel, to their new home, but the battle for freedom takes on new forms. Livia, Magda, and Cibi must face the ghosts of their past--and some secrets that they have kept from each other--to find true peace and happiness. Inspired by a true story, and with events that overlap with those of Lale, Gita, and Cilka, *The Three Sisters* will hold a place

in listeners' hearts and minds as they experience what true courage really is. A Macmillan Audio production from St. Martin's Press.

A breath-taking exploration of memory and what it means to be human, *Recursion* is the follow-up novel to the smash-hit thriller, *Dark Matter*, by Blake Crouch. What if someone could rewrite your entire life? 'My son has been erased.' Those are the last words the woman tells Barry Sutton, before she leaps from the Manhattan rooftop. Deeply unnerved, Barry begins to investigate her death, only to learn that this wasn't an isolated case. All across the country, people are waking up to lives

different than the ones they fell asleep to. Are they suffering from False Memory Syndrome, a mysterious, new disease that afflicts people with vivid memories of a life they never lived? Or is something far more sinister behind the fracturing of reality all around him? Miles away, neuroscientist Helena Smith is developing a technology that allows us to preserve our most intense memories, and relive them. If she succeeds, anyone will be able to re-experience a first kiss, the birth of a child, the final moment with a dying parent. Barry's search for the truth leads him on an impossible, astonishing journey, as he discovers that

Helena's work has yielded a terrifying gift - the ability not just to preserve memories, but to remake them . . . at the risk of destroying what it means to be human.

And Wanna, one floor below, is a newlywed trying to have a baby that she and her husband have no idea how they can afford to raise in Korea's brutal economy. In this brilliant exploration of our cosmic environment, the renowned particle physicist and New York Times bestselling author of *Warped Passages* and *Knocking on Heaven's Door* uses her research into dark matter to illuminate the startling connections between the furthest reaches of space and life here on Earth. Sixty-six million years ago, an object the size of a city

descended from space to crash into Earth, creating a devastating cataclysm that killed off the dinosaurs, along with three-quarters of the other species on the planet. What was its origin? In *Dark Matter and the Dinosaurs*, Lisa Randall proposes it was a comet that was dislodged from its orbit as the Solar System passed through a disk of dark matter embedded in the Milky Way. In a sense, it might have been dark matter that killed the dinosaurs. Working through the background and consequences of this proposal, Randall shares with us the latest findings—established and speculative—regarding the nature and role of

dark matter and the origin of the Universe, our galaxy, our Solar System, and life, along with the process by which scientists explore new concepts. In *Dark Matter and the Dinosaurs*, Randall tells a breathtaking story that weaves together the cosmos' history and our own, illuminating the deep relationships that are critical to our world and the astonishing beauty inherent in the most familiar things.

A father and daughter

living in the remote Appalachian mountains must reckon with the ghosts of their past in Kimi Cunningham Grant's *These Silent Woods*, a mesmerizing novel of suspense. No electricity, no family, no connection to the outside world. For eight years, Cooper and his young daughter, Finch, have lived in isolation in a remote cabin in the northern Appalachian woods. And that's exactly the way Cooper wants it, because he's got a lot to hide. Finch has been raised on the books filling the cabin's shelves and the beautiful but brutal code of life in the wilderness. But she's starting to push back against the sheltered life Cooper has created for her—and he's still haunted by the painful

truth of what it took to get them there. The only people who know they exist are a mysterious local hermit named Scotland, and Cooper's old friend, Jake, who visits each winter to bring them food and supplies. But this year, Jake doesn't show up, setting off an irreversible chain of events that reveals just how precarious their situation really is. Suddenly, the boundaries of their safe haven have blurred—and when a stranger wanders into their woods, Finch's growing obsession with her could put them all in danger. After a shocking disappearance threatens to upend the only life Finch has ever known, Cooper is forced to decide whether to keep

hiding—or finally face the sins of his past. Vividly atmospheric and masterfully tense, *These Silent Woods* is a poignant story of survival, sacrifice, and how far a father will go when faced with losing it all.

 #1 New York Times Bestseller From Liane Moriarty, the #1 New York Times bestselling author of *Big Little Lies* and *Nine Perfect Strangers*, comes *Apples Never Fall*, a novel that looks at marriage, siblings, and how the people we love the most can hurt us the deepest. The Delaney family love one another dearly—it's just that sometimes they want to murder each other .

. . . If your mother was missing, would you tell the police? Even if the most obvious suspect was your father? This is the dilemma facing the four grown Delaney siblings. The Delaneys are fixtures in their community. The parents, Stan and Joy, are the envy of all of their friends. They're killers on the tennis court, and off it their chemistry is palpable. But after fifty years of marriage, they've finally sold their famed tennis academy and are ready to start what should be the golden years of their lives. So why are Stan and Joy so miserable? The four Delaney children—Amy, Logan, Troy, and Brooke—were tennis stars in their own right, yet as their father will tell you, none of them

had what it took to go all the way. But that's okay, now that they're all successful grown-ups and there is the wonderful possibility of grandchildren on the horizon. One night a stranger named Savannah knocks on Stan and Joy's door, bleeding after a fight with her boyfriend. The Delaneys are more than happy to give her the small kindness she sorely needs. If only that was all she wanted. Later, when Joy goes missing, and Savannah is nowhere to be found, the police question the one person who remains: Stan. But for someone who claims to be innocent, he, like many spouses, seems to have a lot to hide. Two of the Delaney children think their father is innocent, two are not

so sure—but as the two sides square off against each other in perhaps their biggest match ever, all of the Delaneys will start to reexamine their shared family history in a very new light.
