Cambridge English Starters 1 for Revised Exam from 2018

Student's Book McClelland & Stewart

Over the last three decades, a significant amount of research has sought to relate educational institutions, policies, practices and reforms to social structures and agencies. A number of models have been developed that have become the basis for attempting to understand the complex relation between education and society. At the same time, national and international bodies tasked with improving educational performances seem to be writing in a void, in that there is no rigorous theory guiding their work, and their documents exhibit few references to groups, institutions and forces that can impede or promote their programmes and projects. As a result, the recommendations

these bodies provide to their clients display little to no comprehension of how and under what conditions the recommendations can be put into effect. The Education System in Mexico directly addresses this problem. By combining abstract insights with the practicalities of educational reforms, policies, practices and their social antecedents, it offers a long overdue reflection of the history, effects and significance of the Mexican educational system, as well as presenting a more cogent understanding of the relationship between educational institutions and social forces in Mexico and around the world.

 Winner of the Costa Novel Award and longlisted for the Man Booker Prize, Colm Tóibín's internationally bestselling novel is a story of devastating emotional power. At the centre of Colm Tóibín's internationally celebrated novel is Eilis Lacey, one among many of her generation who has come of age in 1950s Ireland but cannot find work at home. When she receives a job offer in America, it is clear to everyone that she must go. Leaving her family and country behind, Eilis heads for unfamiliar Brooklyn, and to a crowded boarding house where the landlady's intense scrutiny and the small jealousies of her fellow residents only deepen her isolation. Slowly, however, the pain of parting and a longing for home are buried beneath the rhythms of her new life—until she begins to realize that she has found a sort of happiness. But just as Eilis begins to fall in love, tragic news summons her back to Ireland, where she unexpectedly finds herself facing an impossible decision.
