PITTS KERR

100 Side Hustles Penguin UK

"The freedom of the individual to aim high is a deeply rooted part of the American ethos but we rarely acknowledge its flip side: failure. If people are responsible for their individual successes, is the same true of their failures? This book brings together a variety of disciplinary approaches to explore how people fail in the United States and the West at large, whether economically, politically, socially, culturally, or physically. How do we understand individual failure, especially in the context of the zero-sum game of international capitalism? And what new spaces of resistance, or even pleasure, might failure open up for people and society?"--Amazon website.

Conformity and Non-Conformity Amidst Stagnation Decay Penguin

In the important field of international commodity trade, it is inevitable that some of the sales

contracts and deliveries of goods lead to disputes over non-conformity of the goods. Fundamental Breach Considering Non-Conformity of the Goods analyzes existing case law and legal doctrine, as well as the legal and economic principles underlying these articles. In doing this, the author establishes tools which help classify the fundamentality of the seller's breach. This book will be indispensable for all those who have any dealings in the vital field of international purchase and distribution law.

Pocket Change Collective was born out of a need for space. Space to think. Space to connect.

Space to be yourself. And this is your invitation to join us. "Thank God we have Alok. And I'm learning a thing or two myself."--Billy Porter, Emmy award-winning actor, singer, and Broadway theater performer "When reading this book, all I feel is kindness."--Sam Smith, Grammy and Oscar award-winning singer and songwriter "Beyond the Gender Binary will give readers everywhere the feeling that anything is possible within themselves"--Princess Nokia, musician and co-founder of the Smart Girl Club "A fierce, penetrating, and empowering call for change."-- Kirkus Reviews,

starred review "An affirming, thoughtful read for all ages." -- School Library Journal, starred review In *Beyond the Gender Binary*, poet, artist, and LGBTQIA+ rights advocate Alok Vaid-Menon deconstructs, demystifies, and reimagines the gender binary. Pocket Change Collective is a series of small books with big ideas from today's leading activists and artists. In this installment, *Beyond the Gender Binary*, Alok Vaid-Menon challenges the world to see gender not in black and white, but in full color. Taking from their own experiences as a gender-nonconforming artist, they show us that gender is a malleable and creative form of expression. The only limit is your imagination.

[Making a Living Without a Job, revised edition](#) Penguin

The #1 New York Times bestseller that examines how people can champion new ideas in their careers and everyday life—and how leaders can fight groupthink, from the author of *Think Again* and co-author of *Option B* "Filled with fresh insights on a broad array of topics that are important to our personal and professional lives."—The New York Times DealBook "Originals is one of the most important and captivating books I have ever read, full of surprising and powerful ideas. It will not only change the way you see the world; it might just change the way you live your life. And it could very well inspire you to change your world." —Sheryl Sandberg, COO of Facebook and author of *Lean In With Give and Take*, Adam Grant not only introduced a landmark new paradigm for success but also established himself as one of his generation's most compelling and provocative thought leaders. In *Originals* he again addresses the challenge of improving the world, but now from the perspective of becoming original: choosing to champion novel ideas and values that go against the grain, battle conformity, and buck outdated traditions. How can we originate new ideas, policies, and practices without risking it all? Using surprising studies and stories spanning business, politics, sports, and entertainment, Grant explores how to recognize a good idea, speak up without getting silenced, build a coalition of allies, choose the right time to act, and manage fear and doubt; how parents and teachers can nurture originality in children; and how leaders can build cultures that welcome dissent. Learn from an entrepreneur who pitches his start-ups by highlighting the reasons not to invest, a woman at Apple who challenged Steve Jobs from three levels below, an analyst who overturned the rule of secrecy at the CIA, a billionaire financial wizard who fires employees for failing to criticize him, and a TV executive who didn't even work in comedy but saved *Seinfeld* from the cutting-room floor. The payoff is a set of groundbreaking insights about rejecting conformity and improving the status quo.

[The Power of Social Influences](#) Shortcut Edition

In 2012, Matt sold off or gave away almost everything he owned. He strapped whatever was left to his back, flew to Turkey, and walked across it. Every foot, from one end of the country to the other. Along the way he slept in mosque gardens, dined with strangers, and stumbled into refugee camps. This is the story of that journey.

[The Power of Less](#) Bantam

33,000 pages 44 million words 10 billion years of history 1 obsessed man Part memoir and part education (or lack thereof), *The Know-It-All* chronicles NPR contributor A.J. Jacobs's hilarious, enlightening, and seemingly impossible quest to read the *Encyclopaedia Britannica* from A to Z. To fill the ever-widening gaps in his Ivy League education, A.J. Jacobs sets for himself the daunting task of reading all thirty-two volumes of the *Encyclopaedia Britannica*. His wife, Julie, tells him it's a waste of time, his friends believe he is losing his mind, and his father, a brilliant attorney who had once attempted the same feat and quit somewhere around Borneo, is encouraging but, shall we say, unconvinced. With self-deprecating wit and a disarming frankness, *The Know-It-All* recounts the unexpected and comically disruptive effects *Operation Encyclopedia* has on every part of Jacobs's life -- from his newly minted marriage to his complicated relationship with his father and the rest of his charmingly eccentric New York family to his day job as an editor at *Esquire*. Jacobs's project tests the outer limits of his stamina and forces him to explore the real meaning of intelligence as he endeavors to join Mensa, win a spot on *Jeopardy!*, and absorb 33,000 pages of learning. On his journey he stumbles upon some of the strangest, funniest, and most profound facts about every topic under the sun, all while battling fatigue, ridicule, and the paralyzing fear that attends his first real-life responsibility -- the impending birth of his first child. *The Know-It-All* is an ingenious, mightily entertaining memoir of one man's intellect, neuroses, and obsessions and a soul-searching, ultimately touching struggle between the all-consuming quest for factual knowledge and the undeniable gift of hard-won wisdom.

[How to Worry Less About Money](#) Harper Collins

The author describes how he left a lucrative business consulting job to found the nonprofit Pencils of Promise, an organization responsible for building schools for the poor in developing countries

around the world and which recently completed its two hundredth school.

[Normal Gets You Nowhere](#) Drawn & Quarterly

Expanding upon his viral TEDx Talk, psychology professor and social scientist John V. Petrocelli reveals the critical thinking habits you can develop to recognize and combat pervasive false information that harms society in *The Life-Changing Science of Detecting Bullshit*. Bullshit is the foundation of contaminated thinking and bad decisions leading to health consequences, financial losses, legal consequences, broken relationships, and wasted time and resources. No matter how smart we believe ourselves to be, we're all susceptible to bullshit—and we all engage in it. While we may brush it off as harmless marketing sales speak or as humorous, embellished claims, it's actually much more dangerous and insidious. It's how Bernie Madoff successfully swindled billions of dollars from even the most experienced financial experts with his Ponzi scheme. It's how the protocols of Mao Zedong's Great Leap Forward resulted in the deaths of 36 million people from starvation. Presented as truths by authority figures and credentialed experts, bullshit appears legitimate, and we accept their words as gospel. If we don't question the information we receive from bullshit artists to prove their thoughts and theories, we allow these falsehoods to take root in our memories and beliefs. This faulty data affects our decision making capabilities, sometimes resulting in regrettable life choices. But with a little dose of skepticism and a commitment to truth seeking, you can build your critical thinking and scientific reasoning skills to evaluate information, separate fact from fiction, and see through bullshitter spin. In *The Life-Changing Science of Detecting Bullshit*, experimental social psychologist John V. Petrocelli provides invaluable strategies not only to recognize and protect yourself from everyday bullshit, but to accept your own lack of knowledge about subjects and avoid in engaging in bullshit just for societal conformity. With real world examples from people versed in bullshit who work in the used car, real estate, wine, and diamond industries, Petrocelli exposes the red-flag warning signs found in the anecdotal stories, emotional language, and buzzwords used by bullshitters that persuade our decisions. By using his critical thinking defensive tactics against those motivated by profit, we will also learn how to stop the toxic misinformation spread from the social media influencers, fake news, and op-eds that permeate our culture and call out bullshit whenever we see it.

[Your One Word](#) City Lights Books

Have you ever met someone with the perfect job? To the outside observer, it seems like they've won the career lottery—that by some stroke of luck or circumstance they've found the one thing they love so much that it doesn't even feel like work—and they're getting paid well to do it. In reality, their good fortune has nothing to do with chance. There's a method for finding your perfect job, and Chris Guillebeau, the bestselling author of *The \$100 Startup*, has created a practical guide for how to do it—whether within a traditional company or business, or by striking out on your own. Finding the work you were “born to do” isn't just about discovering your passion. Doing what brings you joy is great, but if you aren't earning a living, it's a hobby, not a career. And those who jump out of bed excited to go to work every morning don't just have jobs that turn their passions into paychecks. They have jobs where they also can lose themselves for hours in the flow of meaningful work. This intersection of joy, money, and flow is what Guillebeau will help you find in this book. Through inspiring stories of those who have successfully landed their dream career, as well as actionable tools, exercises, and thought experiments, he'll guide you through today's vast menu of career options to discover the work perfectly suited to your unique interests, skills, and experiences. You'll learn how to:

- Hack the job of your dreams within a traditional organization by making it work for you
- Find not only your ideal work but also your ideal working conditions
- Create plans that will allow you to take smarter career risks and “beat the house” every time
- Start a profitable “side hustle” and earn extra cash on top of your primary stream of income
- Escape the prison of working for someone else and build a mini-empire as an entrepreneur
- Become a rock star at any creative endeavor by creating a loyal base of fans and followers

Whichever path you choose, this book will show you how to find that one job or career that feels so right, it's like you were born to do it.

[How an Ordinary Person Can Create Extraordinary Change](#) Penguin

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. *By reading this summary, inspired by Chris Guillebeau's online manifesto, you will discover how to (re)take control of your life and help others do the same to change the world. *You will also discover that : it is possible to triumph over the authorities that restrict us; taking control of your professional life is fundamental; the notions of parsimony and abundance are not irreconcilable; everyone must start preparing his or her legacy to the world

without delay. *Who has never been asked the question: "If everyone jumped off a bridge, would you do it too?". Adults ask it to children to show them the importance of reflection and free will. Yet, as adults, most people tend to conform to the expectations of others, even if it means putting aside their deepest convictions and aspirations - which, in a sense, amounts to jumping off a bridge. Everyone is responsible for their own life and must set their own rules, and at the same time, help others to take control of their own lives in order to foster the emergence of an alternative philosophy that, one day perhaps, will bring about change in society as a whole. *Buy now the summary of this book for the modest price of a cup of coffee!

[A Story About Finding the Fortune in Your Own Backyard](#) Createspace Independent Pub

By the late 1970s, drugs, blue jeans, rock and roll, and sexual precocity appeared to be all that remained of the cultural ferment of the 1960s. In this classic new study of high school-aged youth in the early 70s, Gary Schwartz reveals subtle yet significant changes in the style of deviance in adolescent culture. He argues that a new sort of peer-group pluralism emerged from the counter-culture movement of the 60s, a deviance defined less by persistent violations of the law than by disengagement from traditional images of success and civic responsibility.

[Failosophy](#) Simon and Schuster

With the countless distractions that come from every corner of a modern life, it's amazing that were ever able to accomplish anything. *The Power of Less* demonstrates how to streamline your life by identifying the essential and eliminating the unnecessary freeing you from everyday clutter and allowing you to focus on accomplishing the goals that can change your life for the better. *The Power of Less* will show you how to: Break any goal down into manageable tasks Focus on only a few tasks at a time Create new and productive habits Hone your focus Increase your efficiency By setting limits for yourself and making the most of the resources you already have, you'll finally be able work less, work smarter, and focus on living the life that you deserve.

[The Fine Art of Limiting Yourself to the Essential...in Business and in Life](#) Edwin Mellen Press

The 1980 UN Convention on Contracts for the International Sale of Goods (CISG) unifies the law governing the rights and obligations arising from a contract for the international sale of goods for the seller and the buyer. The CISG entered into force on 1 January 1988. The current number of 62 contracting States, representing two thirds of the world trade, shows the relevance of this Convention. Moreover, the International Chamber of Commerce (ICC) has published a model for an international sales contract that presupposes the application of the Convention. Since no supranational court exists to safeguard a uniform interpretation of its provisions, the case law from different states on the basis of the CISG needs to be compared. One of the main obligations for the seller under the Convention is to deliver goods which are in conformity with the contract (art. 35 CISG). With respect to this particular obligation, a number of questions have arisen. For example, do the goods delivered need to comply with any public law requirements in the country where the goods will be used? When and how does a buyer have to give notice to the seller of any lack of conformity? Is any fault on the part of the seller required for a buyer to be able to rely on this provision? Who bears the burden of proof? Can a buyer rely on any concurrent claims based on national law, alongside his claim based on lack of conformity? This book contains an analysis of the case law that has been established on the basis of the CISG concerning the aforementioned questions. Special attention has been paid to court decisions in Austria, Belgium, France, Germany, the Netherlands and Switzerland, as well as to arbitral awards by the ICC Court of Arbitration. In this respect, the role of the UNIDROIT Principles of International Commercial Contracts in the interpretation of the CISG has also been analysed. The book provides a unique combination, because it contains both an analysis of the issue of (non-)conformity as such and an overview of the recent case law on this topic, as well as recommendations for international commercial practice. Therefore, this book will be of interest to both academics and legal practitioners.

[Hot Dog Taste Test](#) Simon and Schuster

From bestselling author of *The \$100 Startup* and *Side Hustle* comes Chris Guillebeau's engaging story about the power you have to create your own financial destiny. Like financial classics *The Latte Factor* and *The Richest Man in Babylon*, *The Money Tree* uses a compelling story with captivating characters to share its core insight: you are never at the mercy of fortune as long as you have an appetite for hard work and a willingness to step outside your comfort zone. Jake Aarons is in trouble. He's being evicted from his apartment in less than 30 days, the bill for his \$50,000 in overdue student loans is almost due, and the digital marketing agency he works at implemented a new military-style grading system that might cost him his job. To top it off, Jake's

new relationship with Maya was going so well... but with everything else falling down around him, he might lose her, too. In search of answers, Jake reluctantly attends a weekly group meeting at the invitation of a coworker. Everyone in the group is trying to create a lucrative side hustle with one key requirement: they can only spend up to \$500 before earning a profit. Over the course of several weeks, Jake undertakes a series of challenges, first learning how to make \$1,000 in a single weekend, and ultimately how to discover the untapped skills he needs to take control of his finances--and his life.

The Failed Individual University of Chicago Press

In this collection of short stories, Dovid Bergelson captures life in Berlin at the precarious moment between world wars - in particular the experiences of Berlin's Jewish community and the uneasy existence of intellectual exiles in an often hostile city. Bergelson, who left his native Ukraine after experiencing one of the many thousands of pogroms first-hand, settled in Berlin at a time of excitement for its Jewish artists and intellectuals, as Yiddish literature and art flourished, all-too-briefly, in the German metropolis. *The Shadows of Berlin* is, in part, a bleak chronicle of life in a Europe growing ever more hostile at the edge of World War II. More than that, these stories offer glimpses into a community and a world now lost. They are also, in part, parables of modern life,

drawing as much on the transformative possibility of scripture as they do on gritty depictions of the Berlin street. Bergelson's stories hint at the possibility of redemption even as they suggest a horror just around the corner.

National Populism Harmony

In his 1956-57 Charles Eliot Norton Lectures, the Russian-born American painter Ben Shahn sets down his personal views of the relationship of the artist—painter, writer, composer—to his material, his craft, and his society. He talks of the creation of the work of art, the importance of the community, the problem of communication, and the critical theories governing the artist and his audience.

StrengthsFinder 2.0 Intersentia nv

For all of the millions of Americans who are out of work, soon to be out of work, or wishing to be freed from unrewarding work—here is the must-have book that will show you how you can make a living by working when, where, and how you want. Newly revised and updated, Barbara J. Winter's guide to successful self-employment is now more relevant than ever before. Drawing on the techniques and ideas of her popular seminars as well as her own thirty years of business expertise and that of other successful entrepreneurs, Winter offers the practical, proven way to launch your own profitable venture. Her indispensable advice ranges from why creativity is more important

than capital to how to avoid the most common pitfalls of self-employment and how to develop multiple profit centers. And for this new edition, she has added timely advice on topics including: •how to find opportunity in a chaotic economy •why smart, small and spunky is the 21st Century business model •using the Internet to open the door to fresh opportunities •the best resources to help you create and grow a business that is uniquely your own •how to leave Employee Thinking behind and build an Entrepreneur's Mindset •and much more Here are all of the tools you need for getting the most profit out of life both professionally and personally.

One Man's Humble Quest to Become the Smartest Person in the World Campus Verlag

If you've ever thought, "There must be more to life than this," *The Art of Non-Conformity* is for you. Based on Chris Guillebeau's popular online manifesto "A Brief Guide to World Domination," *The Art of Non-Conformity* defies common assumptions about life and work while arming you with the tools to live differently. You'll discover how to live on your own terms by exploring creative self-employment, radical goal-setting, contrarian travel, and embracing life as a constant adventure. Inspired and guided by Chris's own story and those of others who have pursued unconventional lives, you can devise your own plan for world domination-and make the world a better place at the same time.
